

The Road to Higher Profit

**Bar CK Cattle Company's
Profit Sharing 2018**

Tuesday, February 13th
1:00 pm • Culver, Oregon

Greetings from the crew at Bar CK...

Welcome to our 7th annual "Profit Sharing Bull & Female Sale" which will be held on Tuesday, February 13, 2018. This offering is the representation of that reality we wear to work every day - That our future existence as a seedstock supplier depends on our customers' success. Thus, every mating we produce is an effort to build genetics that both sustain and maximize our ranch customers' profitability.

Our slogan, "Bred for Profit and Raised to Work", speaks first to our aforementioned genetic responsibility but also to our commitment to develop those bulls in a manner that enhances their potential to deliver those genetics over years of heavy service. The active ingredient of a Bar CK bull is superior profitable genetics....but the vector is a sound, athletic age-advantaged bull. One is not worth much without the other.

It has been nearly 8 years since Simmental & Red Angus published the first joint, multi-breed genetic evaluation, and in that time, we have been able to not only compare Bar CK genetics to other SimAngus but seedstock from all breeds that participate in IGS. This has enabled us to introduce the best Angus /Red Angus sires in our effort to design truly superior SimAngus genetics. This year, we believe we have the deepest quality we've ever offered. We also have worked hard over the past 5 years to develop our Red SimAngus program, and believe that you'll agree that effort is paying off in spades when you see some of the powerful Red Bulls and females in the sale.

We are especially excited about the quality and value in our 2018 female offering. The average age of our 60 female lots is less than 4 years of age, and the oldest females we'll offer turned 7 last fall - just in the prime of their reproductive life. A special feature to this year's sale includes the opportunity to purchase the Right to Flush any Bar CK dam. Also, we'll offer the best Red females from influential donors; Hooks Mika 141M and WS Northstar B180 - the highest API/TI Red Purebred cow in the database.

We hope you will join us Monday prior to the sale to view the cattle and join us for dinner. We'll share the fellowship of fellow ranchers and have an educational discussion of an exciting tool that promises to add value to our bull customers' calf crops - the IGS Feeder Profit Calculator. Please let us know how we can help achieve your genetic goals and we hope to see you on February 12-13th.

Take care,
Mike

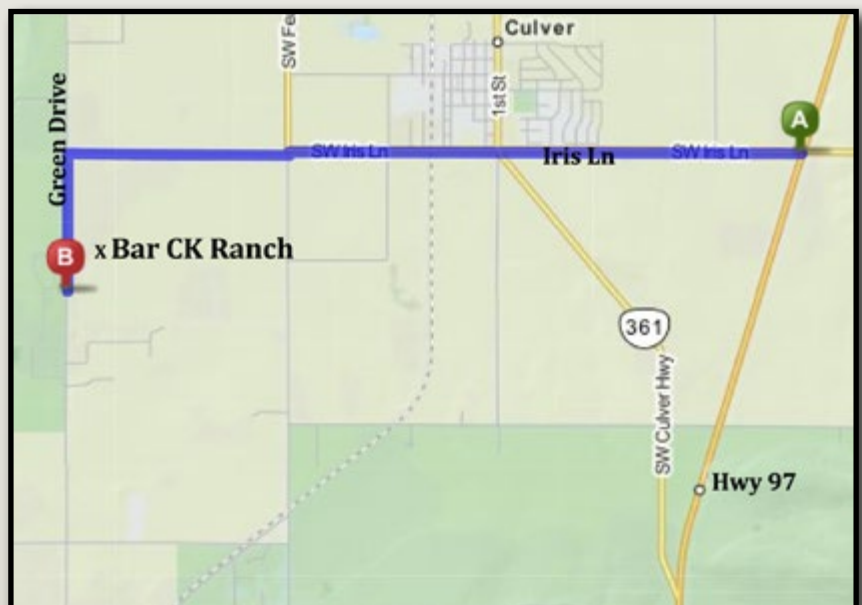

Location: Bar CK Ranch
8925 SW Green DR
Culver, OR 97734

Directions:

From Redmond: take Hwy 97 North for 15.7 miles, turn slight left on Old Culver Hwy 361 for 2.7 miles, turn left on Iris Lane for 1.0 miles, turn left on SW Feather Dr. for .01 miles, take the first right on SW Iris Lane for 1 mile, turn left on Green Dr. for .8 miles, turn left to Bar CK Ranch.

From Madras: take Hwy 97 South for 8.3 miles, turn right on SW Iris Lane for 2.3 miles, turn left on SW Feather Dr. for 0.1 miles, take the first right onto SW Iris lane for 1 mile, turn left on Green Dr. for 0.8 miles, turn left to Bar CK Ranch.

Bar CK Cattle Company

Profit Sharing 2018 - Tuesday, February 13th - 1:00 pm PST

Schedule:

Monday, February 12th

Cattle available for viewing all day at Bar CK Ranch.

6:00 PM ... Pre-Sale Dinner and Profit Seminar.

Rancher & Breed Association Representatives will be available to explain the use of Crossbreeding, Whole Life Cycle Profit Indexes and the new Feeder Calf Profit Calculator

Tuesday, February 13th

8:00 AM to 12:00 PM ... Cattle available for viewing.

12:00 PM ... Complimentary baked potatoes and stroganoff lunch.

1:00 PM ... Profit Sharing 2018 Sale

Airport and Hotel Information:

Cross Keys Inn – Madras, OR - (541) 475-5800

(King beds \$75/night - Double beds \$85/night) Redmond Airport (RDX) 23 miles South of Bar CK Ranch on Hwy 97, transportation available from RDX. Contact us as early as possible for transportation needs.

Sale Day Phones: (541) 948-3521,

(541) 948-1158 or (541) 546-8171

Auctioneer: Trent Stewart – (541) 325-3662

Breed Association and Press Representatives:

Logan Ipsen, Western Livestock Journal – (916) 947-2392

David Malott, Central OR Ranch Supply – (541) 410-3715

Crystal Alley – (541) 948-1158

Health:

All bulls over 13 months of age will be fertility tested. Bulls have received BoviShield Gold, Ultrabac 8, Long Range injectable wormer, Saber pour on, Vibrin, and Endovac-Beef. If bulls are going out of state, they may need additional tests. This process may take a few days. Bar CK Ranch will feed and house animals during this process.

Ask a group of Ranchers, “What’s the most important trait for your sustained success?”

Chances are you’ll get responses that include cow herd traits like Stayability or Heifer Pregnancy. Maybe you’ll get Calving Ease, Quality Grade, or Post-Weaning Gain. Certainly someone will throw out Feed Efficiency. But, the obvious answer is the one that’s least often heard - **Profit!**

API & TI are economic selection indexes; sometimes called profitability indexes. They are a single number predictions derived from the weighted impact of each of an animals’ economically relevant traits (ERT) towards enterprise wide profitability. Just as EPDs predict relative performance, API and TI predict relative profitability - a bull with an API of 140 is expected to produce \$20 more profit per cow exposed than a bull with an API of 120.

API includes all those traits that impact profitability when bulls are selected by an operation to breed both Angus cows and heifers, where females will be retained as required to sustain constant herd size. Cull heifers and all steers are weaned, placed on feed, and marketed on a yield and grade basis.

For operations that do not raise their own replacements, **TI** predicts the relative impact on profitability for bulls that are mated to mature Angus cows and all calves are weaned, fed and sold on a yield and grade basis.

2017 marks the 74th anniversary of selection indexes’ application in animal breeding. Both API & TI are built on economic modeling that counts the impact of one trait unit of each ERT, then accumulates the collective impact of an animals EPD/ERT profile on profitability. API and TI are both “Systems Thinking” applied to beef cattle selection. When the goal is Profit these indexes represent a more direct and simplified approach to achieving that goal.

“...we bred [Bar CK Tebow 1006X] to 200 first-calf heifers...we got super calving ease and high quality calves. We weaned those calves at less than 200 days in a very dry year and averaged 550 pounds on the steers and 500 on the heifers. I know there are people who criticize API, but I know it works!” - Berry Anderson, Manager, Tree Tops Ranch, Princeton, OR

How the Auction Works

Internet Bidding on Superior "Click to Bid" & EPD Terminology

EPD (Expected Progeny Difference)

EPDs predict differences in progeny performance and are the most meaningful predictor of animals' genetic merit.

API (All-Purpose Index): Predicts differences in sires' contribution to profitability when mated to both Angus first-calf heifers and mature cows with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold on a grade & yield basis.

TI (Terminal Index): Predicts differences in sires' contribution to profitability when mated to both Angus mature cows and all offspring are put on feed and sold on a grade & yield basis.

CED (Calving Ease):

Predicts the probability of calves being born unassisted out of 2-yr-old heifers.

BW (Birth Weight): Predicts differences in pounds of birth weight.

WW (Weaning Weight): Predicts differences in pounds of weaning weight.

ADG (Average Daily Gain): Predicts differences in post-weaning gain, expressed in lbs/day.

YW (Yearling Weight): Predicts differences in pounds of yearling weight.

MILK (Milk): Predicts differences in weaning weight due to milk.

MCE (Maternal Calving Ease): Predicts the probability of 2-yr-old daughters calving unassisted.

DOC (Docility): Predicts differences in weaning weight due to milk.

STAY (Stayability): Predicts probability of daughters staying productive past 6 yrs of age.

CW (Carcass Weight): Predicts differences in pounds of hot carcass weight.

MARB (Marbling Score):

Predicts differences in marbling score.

YG (Yield Grade): Predicts differences in USDA Yield Grade Score.

REA (Rib Eye Area):

Predicts differences in rib eye area (in²)

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy your livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at **(817) 378-3380** with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's newest way to buy livestock! Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast live on the internet at www.superiorclicktobid.com and www.superiorlivestock.com – just go to the home page and select the auction. Remember, you can call in to bid over the phone when watching on the internet if you have registered for that service, but you must be a member of www.superiorclicktobid.com to "click-to-bid" and bid online. Your computer must have Flash Media Player installed to view the auction.

Bidders who are successful in making purchases will be contacted by Superior Productions after the sale to settle payment and discover your shipping plans.

Rare & Unique Herd Sires...

Target half-brothers that run way past the top 1% API

Lot 1

Bar CK Bonanza 6051D

We start Profit Sharing 2018 with three Target sons that are all breed leaders for Profit. Our leadoff bull, Bonanza is the definition of a "Spread" bull with best 10% Calving Ease to fastest 15% Gain. The extra pounds his calves gain will be worth more also with his better than 1.0 marbling EPD.

Bar CK Complete 6068D

Perhaps the most complete bull we've ever produced - he advances every phase of profitable beef production. No wonder he blows away the top 1% for both API & TI. No other bull with more than 3/8 Simmental can match Completes spread of best 3% Calving Ease to Top 3% ADG . And you'll want to keep all the daughters with his best 4% Stayability and top 10% maternal calving ease.

...that explore new Frontiers of Profitability!

Bar CK Target 3016A

Bar CK PayBack 6118D

Payback and Paydirt are full brothers to the \$50,000 bull Lorenzen's sold last fall to Ludvigson Stock Farm, Billings, MT and Leachman Cattle of Colorado. These bulls are extra long with plenty of substance. Their Dam, Hooks Mika 141M is a breed hallmark for maternal power, udder quality, and longevity.

About Stayability...

- Stayability predicts the probability of an animal's daughters staying productive past age 6.
- Selecting for STAY selects against all reasons cows prematurely leave the herd; being open, bad udders, bad feet, poor production, bad disposition, etc.
- Stayability has the highest impact on profitability of all traits.

Data on all bulls have been submitted to ASA, and the resultant EPDs are accurate as of catalog press time. All bulls will be upgraded to registered status following the printing of the catalog and will be transferred at registered status to their new owners. Any changes to information printed in this catalog will be published in a sale supplement.

Data on all bulls have been submitted to ASA, and the resultant EPDs are accurate as of catalog press time. All bulls will be upgraded to registered status following the printing of the catalog and will be transferred at registered status to their new owners. Any changes to information printed in this catalog will be published in a sale supplement.

Reference Sire
Bar CK Rogers 1004Z

Reference Sire
Bar CK Hunter 3006A

Reference Sire
LSF TBJ TakeBack 4856B
\$100,000 Red Angus service sire to many of the bred females.

Reference Sire
Bar CK Luck B1206Y

REFERENCE SIRE:
TEX Ambush 9106

Reference Sire
Bar CK Tebow 1006X
The "Original 200 API" SimAngus

Lot 201 - Your Pick

the flush of any BAR CK dam...

- BAR CK MS 6225 911Z -
203 API, 101 TI; this front-pasture female is the dam of Bar CK No Equal, and our top 2016 heifer.

- BAR CK MS 3016A 6030D -
216 API, 103 TI; Target daughter out of 911Z (left). No other female like her in the ASA Database.

- BAR CK MS 9106 1003Z -
186 API, 91 TI; dam of Bar CK Snooze 4015B - one of the top sellers in our 2016 sale. Her progeny average 143 IMF ratio.

Our Average is pretty awesome!

Based on current EPDs at catalog press time, 320+ Bar CK bred SimAngus female average: 180 API (1%), 84 TI (6%) 0.91 Marbling (1%). 20 Purebred Simmental Cows average: 174 API (1%), 82 TI (4%) 0.61 Marbling (1%).

If these are average... Just think how elite the one you pick could be!

Flush Sale Terms:

- Buyer has until June 1, 2018 to select one Bar CK Female. Female must have calved prior to flush., i.e, we will not flush any open heifers.
- Female will be flushed by a technician mutually agreeable to Bar CK and the Buyer.
- Buyer is guaranteed 6 freezable or transferable embryos
- Bar CK is a Fall Calving herd, and most females are bred at this time. Flush will be conducted as soon as possible after the female's next calving.

BAR CK MS 560 298Y 6091D
173 API, 85 TI sired By 5L Independence out of WS Northstar B180. Full brothers sell as lots 7-9 bulls and half sisters are the choice Lot 202 heifers.

OR - Pick her dam, **WS Northstar B180**, the high profit Red Purebred in the database...and dam of an amazing set of Independence Bulls and Takeback Heifers.

BAR CK MS 56B 6015D
Hooks Beacon 56B x Tex Ambush 9106
173 API, 85 TI (3/4 SM / 1/4 AN)

BAR CK MS 56B 6082D
Hooks Beacon 56B x Resurrection
192 API, 92 TI Purebred;
top 10% in 7 traits

TakeBack daughters of breed impacting Red donors...Mika & B180

BAR CK MS 4856B 6136D

BAR CK MS 4856B 6075D

Lot 202 - Selling Buyers Choice of all 5 daughters of TakeBack x B180 - the high API Red Purebred Female

● No other Red Purebred Female in the ASA Database can touch B180's combination of 190 API & 90 TI - nor add such depth and spring of rib in the process. The tough part of this lot will be making the choice; it is the most even flush we've ever had.

Breeding Information:

● All 5 of these sisters were Bred AI on 12/5/17 to Bar CK Balance 5186C; then exposed to either BAR CK 1006X 5251CD or the same sire they were AI'd to.

Lot 203 - TakeBack x Hooks Mika 141M

Sale Information:

Volume Discounts: \$50.00/bull discounts if 5 or more are purchased and \$100/bull if 10 or more are purchased.

Guarantee:

All cattle sell under the suggested terms and conditions of the American Simmental Association (ASA). All efforts will be made to disclose any known defects. A few bulls have tested positive for DD (Developmental Duplication) which is a genetic condition carried by a small percentage of Angus cattle. Those cattle are identified as DDC. In addition all bulls are guaranteed to be fertile and come with a 90 day first breeding season warranty by Bar CK. Should one of these bulls become incapable of breeding cows, Bar CK will exchange the bull with a suitable replacement or provide you with a credit equal to the bull's purchase price less his salvage value. This guarantee does not apply bulls that die or are killed and is not transferable to another buyer.

Livestock Mortality insurance - can be obtained at settlement.

Sale Females - Breeding/Calving Information:

With the exception of the open heifers, all females will have either calved and/or been bred (AI an/or pasture service) prior to the sale. Status updates for the female offering will be made available through the BarCK website: www.barckcattle.com and through the Superior "Click-2-Bid" website: www.superiorclicktobid.com.

Announcements from the auction block shall take precedence over this catalog and all other printed material.

Retained Semen Interest: We are selling full possession, full salvage value and 50% revenue sharing semen interest in every bull. The buyer has total control of how bull is handled plus gets 100% of the salvage value. This simply gives Bar CK the right to half of the semen sales revenue if at sometime in the future semen sales becomes a possibility. If a buyer is not interested in marketing the semen from a bull then Bar CK has the right to collect a semen bank on the bull at our cost and the buyer's convenience. This semen bank would be 100% owned by Bar CK for our use or marketing. Realistically speaking it is unlikely that large amounts of semen will be sold from very many bulls. However, we have several top end bulls whose true breeding value will only be known after progeny data has been recorded and evaluated. Even bulls sold to commercial herds may become popular at a later time, especially if carcass data is collected on their calves. Contact us for different options on how data can be collected on sires relatively inexpensively. If you choose to collect semen from one of these bulls as an "insurance policy" for your own use that semen is 100% yours. We want to have a great partnership with you.

Feeding and Possession Options:

Bar CK Ranch will offer a \$50 discount per lot for buyers picking up their purchases on sale day. All bulls can be kept free of charge until March 1, 2017. Bulls can be fed at Bar CK Ranch until spring breeding turn out for \$4.00/day. We will take care of the bulls to the best of our ability, but we recommend that you protect your investment with insurance.
