

Share-the-Dream Production Sale

Selling cattle bred to compete successfully in today's marketplace.

Wednesday, April 25, 2018

1PM CST • Expo Center • Altus, Oklahoma

Only in America

In this great land of unlimited opportunity and the free enterprise system, we are thankful that we've been able to realize our dream – producing a profitable beef animal.

Welcome to the ...

Share-the-Dream Production Sale

Wed., April 25, 2018 • 1PM CST

Expo Center • Altus, Oklahoma

Auctioneer: Ralph Wade
Colonel Ralph Wade is the 1974 World Champion Livestock Auctioneer, the 1995 International Champion Livestock Auctioneer, and can be seen regularly as the lead auctioneer for Superior Livestock.

After many years of intensive study, we chose the Red Angus breed in general, and Beckton Red Angus genetics in particular, because backed by more than 3 generations, we know what to expect from the Beckton gene pool:

- Easy keepers • Great staying power • Low birthweights
- Great weight gain • Superior carcass quality • Cattle easy to handle

We A.I. all our cows to Beckton-bred bulls and the results are solid. We have 34 yearling bulls with an **average 165 Herd Builder** and more than **half of those 34, average 185**. In short, our cattle are bred to compete successfully in today's marketplace.

All bulls will be semen checked and two-year-old bulls will be semen checked and Trich tested.

After-Sale Loading

Bulls: \$100 discount per head (on bulls only) if you bring your own trailer. Otherwise, we will haul 300 miles free.

Heifers: We will make arrangements after the sale to load trucks or trailers.

We will not offer delivery.

The Shortgrass group

Crawford Red Angus • Colby Crawford

I recently returned to help my family in our farm & ranch business. We have traditionally run steers on our wheat, but I purchased some grass land & needed a way to make more profit. We purchased some Red Angus prs. on Superior, & purchased some bred

Colby & Kelsey Crawford

Red Angus hf. from Beckton, & then started to buy from some established breeders, so that we would have a good gene pool, & the hf. would breed up good, & would not have problems calving. We sold several loads as bred hf. in the summer. We purchased a few select commercial cows that had A-I calves by Redemption, New Era, Brown Legend & Hurst Sequoyah. We are offering the few A-I bulls in this sale along with 2 sets of Red Angus hf. & 40 Red Angus prs.

Gooseland Red Angus • Ryan Robbins & Family

A few years ago, Mom, Dad, & I decided that we wanted some cows that would be more enjoyable & profitable for us. We talked to a friend who is in the cattle business, and asked him what he thought we should own. Red Angus was his suggestion, so we purchased a few from Beckton,

Ryan, Kortni, Rhett and Suttin Robbins

& started our new herd. Later we purchased a load of reg. & comm. cattle from Beckton. Our first reg. Red Angus, we left with Beckton to A-I for us. The result was 4 sons of Beckton Nebula 707. We used 2 of these bulls as our herd sires, & A-I'd to top Red Angus sires. My Dad Larry, & my Mom Marilee, have spent a lot of time caring for our herd, & they agree with me that they are a blast to work with & be around.

Moreau Land & Cattle • Brad Moreau

Under normal conditions, calves are weaned in Oct., then put on grass, hay, & mixed feed. After wheat pasture is ready, calves are turned out on it, & run until Mar. or Apr. This year the bulls weren't put on wheat until Feb., & hf. were kept on feed. Hf will be kept on wheat from early Mar. to delivery, April 25-30th.

My Dad & I started in the Red Angus business buying Feemster hf. & st calves 20+ yrs. ago, to run on wheat pasture. Needless to say they worked well for us. We fed the steers, & they graded really well. We kept the Red Angus hf. a couple of times, then bought bred hf from the Feemster ranch. We are using Beckton bulls on our cows, & have some registered cows. Feemsters have used Beckton bulls exclusively for 40+ years, because they work. Red Angus works for me, they feed choice, & we can always sell our hf. for a premium.

Cody & Loretta Cribbs

After retiring, & selling our Black Angus cattle, & our land, we traveled around for awhile, until we became bored, & then bought some Red Angus hf. from our friend, Brad Moreau. In our years while working with Superior Livestock, we saw, mainly in NE New Mexico, & SE Co., the Red Angus cattle, & Beckton gene pool. In that dry rough country, those folks Red Angus cattle do good & sell good & feed & grade. We had Black Angus at 100% choice & 12% prime, so it was very important to us that the Red Angus would feed, & grade. We started to buy some hf. from Beckton, & Tongue River Ranches to go with our comm. cows. We never could buy the bull that we really wanted to breed our cows with, & since for once in my life I had a lot more free time, we started studying to find the good sires, & breed all of our cows to those bulls. I discovered that for \$25.00, you could let these great sires lead your program. With these sires, & retaining their hf., your bull becomes better by 30-50%. Your goal as a breeder should be to help American Farmers & Ranchers have more profit. As a cowman, I've found that the Red Angus cows are the nicest, & most manageable cows I've ever been around, in my long cattle career. Loretta & I are having a lot of fun, working with our cattle, & enjoying the great upside of our Red Angus venture!

Cody & Loretta

Sale Terms & Conditions

Except for those stated in the terms and conditions below, there are no warranties, either expressed or implied, as to the merchantability or fitness for a particular purpose with respect to the cattle being sold at this auction. The warranties and guarantees set forth in the “Terms and Conditions” are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy for the Buyer, or any party claiming through Buyer, for any breach of warranty or guarantee therein provided, and all other obligations or liabilities.

The information in the catalog is believed to be accurate, and the information seller believes to be most representative. It is the nature of seller’s business that the seller engages in a continual process of collecting new data and information. Therefore, any information presented at the time of sale is always subject to revision, correction or update.

I. BIDDING

The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

II. TERMS

Terms of sale are cash or personal check unless satisfactory credit arrangements have been made with vendor prior to sale.

III. PURCHASER’S RISK

Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

IV. DELIVERY

For any animals for which seller’s arrange delivery, the following terms shall apply. Each animal becomes the risk of the purchaser as soon as sold, and through the time of delivery. The seller will arrange transportation and delivery schedules, and may combine animals from one or more purchasers for convenience and to reduce costs. If delivery is arranged, seller assumes no other liability. Once the purchaser has been notified of the date and approximate time of delivery (morning, afternoon, evening, etc.), it is the responsibility of the purchaser to arrange adequate and agreeable location and facilities for unloading each animal. When unloaded at the agreed upon location, all care and management of the animal is the responsibility of the purchaser.

V. CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the purchaser for each animal for which a Registration number is listed.

VI. HEALTH

All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal requiring T.B, Bang’s, and trich tests in accordance with federal and state regulations.

VII. DIVISIBILITY

The percentage of ownership interest received by the buyer, whether it is 100% or 2/3 or otherwise as defined in the catalog or by the auctioneer, may not be subsequently divided without the express written consent of the seller.

VIII. ANNOUNCEMENTS

Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

IX. BREEDING GUARANTEE

Any female that has had a calf prior to the date of sale shall be considered a breeder without further guarantee. All females sold as ‘bred’ or ‘pregnant’ have been pregnancy checked by a licensed veterinarian and are guaranteed bred on the day of sale. The purchaser may elect to have any female so listed rechecked at their cost within 30 days of delivery by a licensed veterinarian of their choice. Any such female determined open by this recheck may be returned to the seller for a full refund. Due to conditions out of seller’s control, once a female leaves seller’s possession, this is the only guarantee offered. All bulls are sold as guaranteed breeders. Each bull has been officially fertility tested as “Satisfactory Breeder” prior to the sale. However, seller cannot guarantee against physical injury or illness following the sale. But if within 8 months following the sale, the buyer has evidence that the animal is not a breeder, the buyer may obtain a statement signed by a licensed veterinarian to that effect, such statement also indicating that there has been no injury or illness to the animal following the sale, and return the bull to the farm of the seller for adjustment. If the seller cannot then prove the animal to be a breeder, an adjustment will be made by the seller, either by substituting an animal of equal value, or by the refund of the full purchase price. Such adjustment shall be considered full settlement and satisfaction of all claims. No guarantees apply to animals which are shown following the sale.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.**

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding platform for cattle buying. **Please note that high speed internet is required – this is not for dial-up or satellite internet.** Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are 2 places to view the sale broadcast live on the internet: www.superiorlivestock.com or www.superiorclicktobid.com. Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

***If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.**

Red Angus Guide to EPDs

HB HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

GM GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

CED Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

BW..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

WW Weaning Weight and **YW** Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

Milk Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

ME Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

HPG..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

CEM Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

STAY.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

MARB .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

YG Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

CW..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

REA Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

FAT Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

Ranch Tested. Rancher Trusted.

Red Angus

For more information on EPDs, visit redangus.org.

Bull Selection – Simplified.

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

“What impact will each potential sire have on my operation's profitability?”

HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

GRIDMASTER

Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.

While the process of calculating an index is very complex, the resulting selection tool is very simple to implement.

HerdBuilder and GridMaster are expressed as differences in profitability per exposure.

HerdBuilder Example:

30 cows x 5 years breeding = 150 exposures

Bull A has a HerdBuilder Index of 175: $175 \times 150 = \$26,250$

Bull B has a HerdBuilder Index of 100: $100 \times 150 = \$15,000$

\$11,250 Difference in Profitability

Ranch Tested. Rancher Trusted.

This bull represents the Beckton Epic genetic pool.

The next 8 Lots are yearling bulls by Cody Redemption 309. After his 50k blood test, his numbers put him in the top 5 bulls in the RAAA for maternal benefit. Weaning weights, and growth weights on these calves prove he has gain potential and they look good.

Really nice New Era bull, out of a good Beckton cow. Good numbers
5 1/2 frame

*Next set of bulls by Brown JYJ Redemption. We have used this bull from his 2 yr. old season, keeping all his daughters.
This is a great breeding bull, and carcass reports from Cattle Choice Feeders, prove him to be a great carcass bull.*

2016 Commercial Bulls

Most commercial bulls are by A-I sires, and out of Beckton or Beckton bred cows.
Some cows were purchased as 2 yr old hf. that Beckton sold in sales as by unidentified sires, bred on the ranch.
These bulls will weigh from 1600-1800 lbs.

LOT 83

LOT 84

LOT 85

LOT 86

These heifers will be 100% Red Angus, coming from established Red Angus breeders and will have an established genetic pool.

The heifers will be on wheat pasture, and will weigh approx. 750+ on April 25th. Heifers will sell gate cut at 5 hd. or more, or you can take all this lot.

Health—BVD- Blackleg spring & fall, wormed. Hf will be FOB on farm

consigned by Moreau Land and Cattle

Lot 87 These heifers could weigh 850 by delivery date. These heifers were bred and raised by Moreau Land and Cattle. These heifers will be pelvic measured and will have MultiMin vitamin and mineral shots.

consigned by Gooseland Red Angus

Lot 88 A select group of 10 hf. from their Beckton gene pool. These heifers will be pelvic measured. They were turned out on better wheat pasture on March 24, and they should be in med flesh by delivery date.

consigned by Crawford Red Angus

Lot 89 90 hf. purchased on Superior Livestock Auction from the Campbell Ranch in Henrietta OK. AI'd to **BROWN BLW FANTASTIC C5959 RAAA #3527623** to start calving late January 2019.

Lot 90 40 hf. purchased from Feemster Ranch in SE Co., using Beckton gene pool exclusively for 40+ yrs. AI'd to **CODY TR 309 REDEMPTION RAAA #3506755** to start calving late January 2019.

Lot 91 40 first calf hf. Red Angus pairs. Most have A-I calves by **CODY REDEMPTION 309**. They started calving Feb. 17-18 for 60 days. Approx wt. 1150 lbs

**Offering
1 FREE STRAW**

of Cody TR 309 Redemption Semen with each heifer purchased.

See back cover of this sale catalog for more information on this impressive herd bull.

Bring your semen tank sale day.

There will be a freight charge if your semen tank is not provided on sale day.

309

He produces
low birth weight
and super growth!

BW: 60 lbs.

Cody TR 309 Redemption • RAAA#3506755
*"309" pictured mid January breeding fall calves
and surrounded by his sons.*

He has impressive EPDs:

HB 210 **Top 1%**
CED 20 **Top 1%**
BW -7.5 **Top 1%**
GM 53 **Top 19%**

1st Calf Crop 2017
On 1st calf heifers,
average weaning weight on 9/1/17:
670 lbs.

In 2017, he bred 750 heifers to calve in 2018, and so far...there have been no problems and no assists.

Semen Straws: \$20 each
