www.FeltonAngus.com

Hello Friends,

I would like to welcome you to our 46th annual bull sale. We have been in the business for 60 plus years producing no nonsense Angus cattle. Our cattle are bred and raised to be hardy and hard working. Our bulls continue to lead the pack in the longevity department due to our stringent belief in sound and structurally correct cattle. Let's be honest. If you buy a \$5K bull you better get 4+ years of use out of him. If your bulls have long toes and cracked out hooves after two years, that's not good for the genetics in your herd or your checkbook. Impressive numbers, hype and \$ figures on your bulls do absolutely nothing if your bulls fall apart.

Due to increasing sales in our branded beef program, I needed to purchase a pen of Felton-sired heifers to feed out. The pen finished out right here at the Springdale ranch. They fed exceptionally well, averaging 3.69 pounds per day. Not too shabby for non-implanted heifers. Carcasses were 90% Choice or higher. I was able to sell some to a regional packer in Butte, Montana. On the hook, they received a \$.20 premium over USDA market price. Long story short, Felton-sired cattle perform exceptionally well in the yard and on the rail. Pounds pay and you can expect pounds from Felton-sired cattle.

We are selling right around 260 bulls and 40 bred heifers. You can find a bull to meet any possible scenario. Growthy bulls with actual growth and not some computer generated growth. Moderate framed bulls and bulls with a tick more frame. Heifer bulls and cow bulls, we have it all.

We stand behind our cattle 100%. Customer service is #1 and we look forward to our customer success. Again this year, the sale is broadcast Live on Superior Livestock as well as DV Auctions. You can bid from home on either platform. If you can't make the sale, please pre-register with either outfit. We have you covered if you can't make it to Springdale on sale day.

As always it's prime rib for lunch with all the fixings and a social after the sale. Come enjoy the day! We look forward to seeing you on the 11th of February.

Sincerely,

Jim & Rich

Jim, Susie, Sydni
& Quincy Felton

Travel

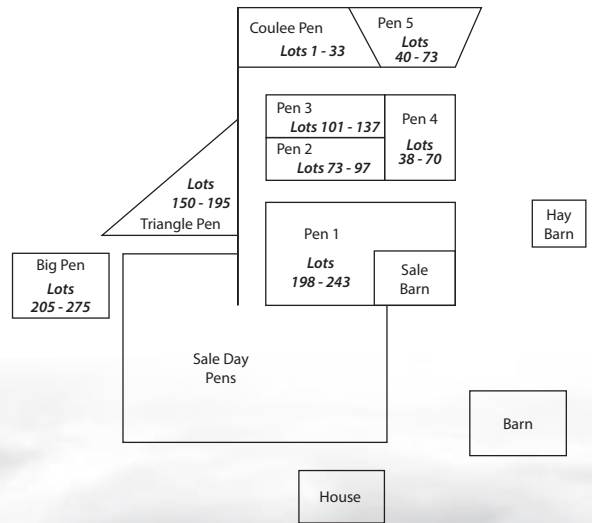

The Ranch is within driving range of two International Airports:

Billings Logan International Airport is located exactly 100 Miles east of the ranch in Billings. Airlines that fly into here are Delta, United, Northwest, Alaska/horizon, Frontier and Allegiant airlines.

Yellowstone International Airport is located in Belgrade Montana, which is 50 miles west of the ranch. Airlines flying into here are Delta, United, Northwest, Alaska/Horizon, frontier and Allegiant.

Rental cars are available at both locations.

If we can be of any assistance please feel free to call us.

How To Participate As An Absentee Buyer

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

Here's How It Works

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding program for cattle buying. **Please note that high speed internet is required – this is not for dial-up or satellite internet.** Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast via satellite on SLA-TV (DISH Network channel 997). *Please note that there is a delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on.* The sale will also be broadcast live in Hi-Definition on the internet at both www.superiorlivestock.com and www.superiorclicktobid.com. The video feed on the homepage of www.superiorlivestock.com looks the same as the video feed on TV and can be watched over a smartphone or tablet. Remember you can call in to bid whether watching on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid".

Buyers will be contacted by the ranch after the sale for payment and delivery details.
IF YOU NEED ANY ASSISTANCE CALL SUPERIOR AT (800) 422-2117.

The sale will be broadcast on (Dish Network channel 997)
**beginning with sale preview at 12:30pm MST,
followed by the sale at 1:00pm MST.**

Please call Superior if you need assistance.
You may also view the sale in its entirety on
www.superiorclicktobid.com
For questions, call 1-800-431-4452

Be sure you visit
our website!

The IGENITY® Profile

Comprehensive. Practical. Powerful.

In continuing Felton Angus Ranch's commitment to their customers, they decided to profile their 2017 sale bulls with IGENITY Angus Gold. The comprehensive IGENITY Angus Gold Profile offers you, the buyer, an opportunity to gain inside information on traits that are often difficult or impossible to measure until later in life.

The IGENITY Profile

IGENITY provides the beef industry with the most comprehensive genetic profile for multiple traits of economic importance. The insights gained from an IGENITY profile help producers make more confident selection, management and marketing decisions. The IGENITY profile includes multiple-marker analyses for the following traits:

- Calving Ease Maternal
- Heifer Pregnancy Rate
- Docility
- Milk
- Average Daily Gain
- Residual Average Daily Gain
- Weaning Weight
- Tenderness
- USDA Marbling Score
- Ribeye Area
- Fat Thickness
- Carcass Weight

**Felton IGENITY data
is included for the
16 month old bulls.**

IGENITY Profile Scores

To assist cattle producers in understanding the value of DNA technology, IGENITY has developed a scoring system for each trait using a scale of 1 to 10. Higher values are not necessarily better — they simply indicate that the animal has the potential for more of that trait.

How to use the IGENITY Profile

IGENITY Scores are easy to incorporate into your selection criteria. They represent an additional tool when combined with EPD's, ultrasound and visual appraisal. As the case with any selection method, single trait selection should be avoided. Select those animals that best combine the traits you desire to emphasize in your herd. As an example, if you are trying to decide between two bulls – Bull A and Bull B - and Bull A has an IGENITY profile score for Marbling of 8 and Bull B has a Marbling score of 7 and you prefer Bull B's EPDs and phenotype; then you can confidently select Bull B as his genetic potential is still in the direction you prefer.

NR (No Results)

Some samples may look normal when submitted, but still are unable to produce acceptable results. This often occurs due to contaminants that are undetectable to the naked eye; i.e. dirt, mold or other foreign matter. In many instances, a new sample has been submitted and results will be available shortly.

*For additional information or questions, please contact Felton Angus or
Kevin Murnin - IGENITY Representative 406-853-4638*

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-33 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	28	Milk	33
Birth Weight	21	Mature Weight	11
Weaning Weight	26	Mature Height	8
Yearling Weight	21	Carcass Weight	9
Dry Matter Intake	8	Yearling Height	11
Scrotal Circumference	13	Carcass Marbling	9
Docility	10	Carcass Ribeye	12
Heifer Pregnancy	14	Carcass Fat	10

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k or i50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

I ran into some semen of fishbook scotch cap 852 and decided to use it up. A bull we owned 20 plus years ago. Glad I did. Some pretty good bulls in the sale out of him. Get them while you can as I am out of semen. Old school stuff here.

CattlActive
100% Natural
Made in the USA
by Pro Earth Animal Health

The health of your cattle all starts in the rumen.

Did you know that 80% of a cow's immune system lies in and around the rumen? The ravages of acidosis, poor nutrient absorption and consequent illness can damage not only your cattle but your bottom line.

CattlActive® is 100% natural. It works to neutralize acid, encourage feed and water consumption, support beneficial gut flora and increase nutrient absorption for healthier, stronger, heavier cattle come sale time. For more information, call T. Phillip Bowers at: 406-223-1108

We bought Cash at the 2017 midland bull test from Jim Granger out of Great Falls. He is a calving ease specialist with a lot of meat and power. The calves out of him come flying out so you can just go to bed or not miss your kids ball game in town.
