Schedule of Events

Thursday

• All day viewing of cattle

Friday

• Come early to view cattle

• Lunch will be served at 11:00

• Sale begins at 12:30

Cattle will sell in lot order

Sale will be broadcast on SLA-TV, Dish Network channel 997 or you can join us on the internet at www.superiorclicktobid.com

For a buyers number, please call 1-800-431-4452.

See page 2 for more details.

Herd Health

J.M. McKellar Cattle Co. LLC Certified Brucellosis Free and Accredited Tuberculosis Free Herd No. HC0011112. Rick Allison, DVM of Sulphur Springs, Texas has fertility tested all of the bulls and certified them to be virgin bulls, unless otherwise stated. As for bred heifers, pregnancy status is confirmed by our veterinarian. Complete pregnancy data will be available sale day. Cattle will be accompanied with the proper health certificates for immediate shipment.

Please Note:

Scrotal circumferences and frame scores listed in the catalog were measured by Rick Allison, DVM at the time of the bulls' Breeding Soundness Exams and have not been adjusted for age.

Terms and Conditions

Terms of sale are cash or check. All persons who attend the sale do so at their own risk. McKellar Angus, J.M. McKellar Cattle Co. LLC assumes no liability, legal or otherwise, for any accident that may occur. Cattle will sell under the McKellar Angus Sale Terms and Rules of the American Angus Association. See page 3 for the McKellar Angus Breeding Season Guarantee and McKellar Angus Bull Sale Terms.

Announcements

Announcements made from the block take precedence over information in this sale book.

The McKellar Family is pleased to welcome you to our 15th Annual Spring Production Sale. This sale features 107 McKellar Angus Bulls and 23 bred heifers. The majority of these animals were produced in our aggressive embryo transfer program. They descend from some of the best cow families available in the Angus breed.

We have been aggressive in breeding performance and phenotype while also controlling birth weight. We have chosen to use sires who emphasize real world economic traits of muscle shape, structure, foot shape, fleshing ability, natural thickness, and maternal cow power. The heavy influence of SAV Blackcap May 4136 through her sons, SAV Renown, SAV Sensation, SAV Resource, and SAV Universal is very evident in this offering. This group of bulls set a new high record for average daily gain at 3.62 lbs. per day on an average intake of 18 lbs. of feed per day.

The 23 Bred heifers are a solid made group who combine the core of our donor herd into very complete individuals. They are bred to sires who are known to produce optimum progeny.

As you study this offering you will find our "Connealy Angus Pick of Dams" purchases are highly prevalent. For the first time in our history, every single "cow pick" is represented by direct progeny. These incredible females include:

- Breesha of Conanga 1251, the granddam of Connealy Earnan, 2009 Pick of Dams
- Blinda of Conanga 004, the dam of the original Connealy Consensus (15513367), 2010 Pick of Dams
- Joy Erin of Conanga 8352, dam of Connealy Beacon and Lot 1 in this offering, 2011 Pick of Dams
- Jais of Conanga 9585, dam of ABS sire, Connealy Front & Center, 2012 Pick of Dams
- Boka Bay of Conanga 13X, dam of Genex/CRI sire, Connealy Conquest, 2015 Pick of Dams
- Britta of Conanga 157E, dam of Connealy Cade, 2016 Connealy Fall Sale Pick of Dams

Next generation donors who derive from these cow picks are also highly represented. These include:

- JMc Beretta 1334 W148, #1 income producer in our history, has cow picks on both sides
- KCF Miss Protégé W148, dam of 1334 & dam of KCF Bennett The Rock, derives from our 2009 Cow Pick
- JMc Blindetta 1409 672, maternal sister to the original Connealy Consensus
- McKellar Brianna 4095, daughter of 1334 by Connealy In Focus 4925
- McKellar Blindea Claire 4096, granddaughter of Blinda of Conanga 004

What does this mean to you? You can purchase progeny produced from these elite females and some of the greatest sires available, in volume. Our embryo transfer program has mass produced these good cows and the quality is evident in the progeny. In over 70 years of breeding registered cattle our commitment to quality has never wavered.

All animals sell with Genomically enhanced EPDs. These animals have been DNA profiled with Angus Genetics Inc., and the DNA analysis is already incorporated into each of their EPDs and \$ Values. **Please note frame score and scrotal circumference were taken by our veterinarian in February 2019.**

For those who are unable to attend, but still wish to participate... **Our sale will still be broadcast LIVE by Superior Productions on the Internet and SLA-TV, Dish Network® Channel 997; however, please note SLA-TV is not available to DirecTV® subscribers.**

Special thanks to herdsman, Joe Solis. His skill, hard work, loyalty and dedication have been invaluable.

We thank you for taking the time to review this sale offering. All cattle are DD, AM, NH, CA & M1 free by testing or tested free pedigree. Feel free to let us know should you have any questions or need any further information.

-The McKellar Family

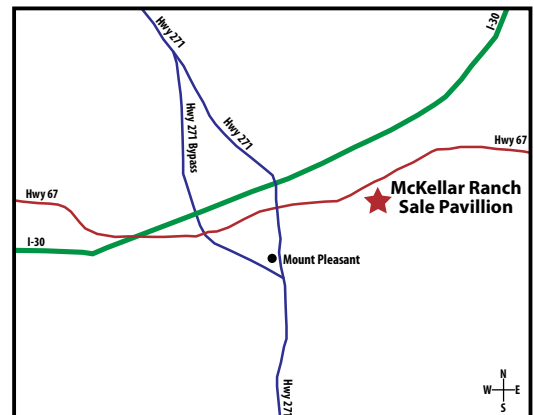

Sale Location

From Dallas: Follow I-30 east 110 miles. Take Exit 162, go 1/2 mile south to Hwy 67. Turn left and follow Hwy 67 2 miles. Sale pavilion is on the right.

From Texarkana: Follow I-30 west 60 miles to Mt. Pleasant. Take Exit 162, go 1/2 mile south to Hwy 67. Turn left and follow Hwy 67 2 miles. Sale pavilion is on the right.

From Paris: Follow US 271 S 50 miles to Mt. Pleasant. 271 S will intersect Hwy 67, 1/2 mile south of I-30 at a red light. Turn left and follow Hwy 67 2 miles. Sale pavilion is on the right.

From Tyler: Follow US 271 N 70 miles to Mt. Pleasant. Continue north through town to the intersection of Hwy 67. Turn right and follow Hwy 67 2.5 miles. Sale pavilion is on the right.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.**

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding program for cattle buying. **Please note that high speed internet is required – this is not for dial-up or satellite internet.** Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast via satellite on Dish Network channel 997. *Please note that there is a delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on.* The sale will also be broadcast live on the internet at both www.superiorlivestock.com and www.superiorclicktobid.com. The video feed on the homepage of www.superiorlivestock.com looks the same as the video feed on TV and can be watched over a smartphone or tablet. Remember you can call in to bid whether watching on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid".

Buyers will be contacted by the ranch after the sale for payment and delivery details. IF YOU NEED ANY ASSISTANCE CALL SUPERIOR AT (800) 422-2117.

— Delivery —

Delivery available on purchases totaling \$5,000 or more to **central** points in the states of Texas, Oklahoma, Arkansas, Louisiana, Kansas, Missouri, and Nebraska. In the event your cattle do not fall under these terms McKellar Angus can assist in finding believed to be reliable haulers. If the buyer is under a time constraint for breeding bulls, the buyer is responsible for timely shipping.

— McKellar Angus Breeding Season Guarantee —

All bulls selling in the McKellar Angus Annual Spring Production Sale have undergone a Breeding Soundness Exam and been found to be sound breeders by Dr. Rick Allison, DVM. All bulls sell under the McKellar Angus Bull Sale Terms and the rules of the American Angus Association.

Bulls are covered by McKellar Angus if they are injured during the first breeding season.

— McKellar Angus Bull Sale Terms —

1. All bulls selling have been evaluated and passed as sound breeders, by our veterinarian.
2. Terms of the sale are cash/check unless prior written arrangements have been made.
3. McKellar Angus reserves the right to deal with each bull return individually.
4. McKellar Angus must be involved in the sale of a returned bull, otherwise, no credit will be issued.
5. All claims for credit must be made by August 1, 2019.
6. A returned bull must weigh 70% of sale day weight upon return in order for any credit to be issued.
7. In the event a bull is re-sold to a third party after the McKellar Angus Bull Sale, the guarantee is void.

— McKellar Angus Female Sale Terms —

1. The cattle in this sale were palpated for pregnancy in February 2019.
2. Terms of the sale are cash/check unless prior written arrangements have been made.
3. McKellar Angus reserves the right to deal with any problem individually.

— McKellar Angus 2019 Vaccination Protocol —

All Open Females and Bred Females During Last Trimester

Cattlemaster Gold FP5 (combination Killed and Modified Live with guaranteed BVD coverage)
 Ultrachoice 8
 Spirovac L5 (only vaccine with U.S. strain of Lepto Hardjo Bovis)
 ScourGaurd 4 KC (e-coli prevention)
(Repeat all of the above 21 to 28 days later if previous vaccination history unknown)
 Ivomec Injectable Wormer in the Fall, Cydectin Injectable in the spring
**Ivomec is currently unavailable per FDA, substituted Valbazen Oral (flucocyste) with Cydectin injectable*

All Calves

At 100 days of age:
 Inforce 3 (Internasal)
 Cattlemaster Gold FP5
 Ultrachoice 8
 Spirovac L5 (only vaccine with U.S. strain of Lepto Hardjo Bovis)
3 to 4 weeks later, Booster all vaccines:
 Cattlemaster Gold FP5
 Ultrachoice 8
 Spirovac L5 (only vaccine with U.S. strain of Lepto Hardjo Bovis)
 Cydectin Pour on wormer

Post Weaning

Bovishield Gold FP5 L5 HB (includes U.S. strain of Lepto Hardjo Bovis)
 Endovac Bovi (Heifers only, Repeat 28 days from first dose)
 Ultrachoice 8
 Injectable wormer

Yearling

Bulls

Bovishield Gold FP5 L5 HB
 Ultrachoice 8
 Wormer

Heifers

Cattlemaster Gold FP5
 Ultrachoice 8
 Spirovac L5 (only vaccine with U.S. strain of Lepto Hardjo Bovis)
 Wormer

** Vibrio coverage is omitted as we are 100% AI and ET*

What does it all mean?

Calving Ease Direct EPD (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Carcass Weight EPD (CW). Expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb). Expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE). Expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat thickness (fat). Expressed in inches, is a predictor of the difference in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Actual Birth Weight
Weaning Weight adjusted to 205 days of age. Ratio is the percentage above or below average (100=average) an animal is for his 205 Day weaning weight.
Yearling Weight adjusted to 365 days of age. The ratio is the percent above or below average (100=average) a animal is for his 365 day weight.

The percent of intramuscular fat (marbling) adjusted to 365 days of age. The ratio is the percent above or below average (100=average) an animal is for the marbling scan within its contemporary group.

Ribeye measured in inches and adjusted to 365 days of age. The ratio is the percent above or below average (100=average) an animal is for their adjusted ribeye area.

Rib fat measured in inches and adjusted to 365 days of age. The ratio is the percent above or below average (100=average) an animal is for their adjusted ribeye area.

Adjusted Rump. This is the off-test back fat measured in inches adjusted to 365 days of age. The ratio is the percent above or below normal (100=average) an animal is for back fat thickness.

Measurements at Breeding Soundness Exam
Tested on, February 5 & 6, 2019

Dam Progeny. The number of calves a cow has weaned and have measurements taken for weaning and yearling weight ratios.

Definitions from the American Angus Association for the traits listed in this sale book

\$Value Indexes, are multi-trait selection indexes, expressed in dollars per head, to assist beef producers by adding simplicity to genetic selection decisions. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sire were randomly mated to cows and if calves were exposed to the same environment.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

Grid Value (\$G), an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

A reality in Angus cattle is each animal comes with its own set of data. The challenge for the cow man is discerning "What does it all mean?" The sheer amount of data acquired on animals can be dizzying. At McKellar Angus, we have tried to at least compartmentalize a large amount of data in an organized fashion. To the right of the pedigrees are the data measurements acquired "on the ranch" i.e. quantitative measurements at a given time which are compared against other individuals on the ranch. That ranch data, along with DNA on the animal, is then submitted to the American Angus Association and incorporated into the animal's Genomically Enhanced EPDs (below the pedigrees) which is then compared with animals through out the breed. In short, we have tried to gain as much information as possible on a non-parent animal.

In deciding which animals to add to your program, consider when you market your stock. If you market your calves at weaning the most important numbers are \$W index and Weaning Weight EPD. If you retain ownership on through to the grid, Carcass EPDs should then be considered. If you retain replacement females from your herd, Maternal Milk EPD should then be considered to fit your environment. In short, take a good, hard look at these bulls and the data behind them. Should you have any questions feel free to ask and we'll be glad to help.

S A V Blackcap May 4136

No female in the history of the Angus breed has had a greater impact than SAV Blackcap May 4136. She is the breed's most influential genetic contributor. Schaff Angus Valley has sold 191 direct progeny of this female, making her the top income producing cow in the breed at \$9.5 million. Her sons SAV Resource and SAV Renown were ranked 2nd and 10th in the Angus breed or registrations last year, the only time 2 full brothers had ever made the Top 10. Her influence has accelerated the quality of our cattle in a very short time period. **79 bulls and 19 females in this offering feature this matriarch as their paternal grand dam.**

 Dam of Lot 1

Dam	
Dam's WR	110/1
Dam's YR	108/1

Lot 1, a son of the legendary Genex/CRI sire SAV Renown, is the most dominate, powerfully made individual ever produced at McKellar Angus. His natural thickness and muscle density are as elite as any sire available in the Angus breed. Lot 1's base width and impeccable structure compliment his huge hip and herd bull presence.

Never before in the McKellar Family's 70 plus history in breeding cattle has a bull performed at his level. His adjusted 205 day adj. weaning weight (1036 lbs.), as well as his 365 day adj. yearling weight (1674 lbs.), and adj. yearling scrotal circumference (46.9 cm) are all-time records here.

His dam, Joy Erin of Conanga 8352, 2011 Connealy Angus Pick of Dams, is a model Angus female with exceptional length and spine, udder quality and natural fleshing ability. She demonstrates all the qualities that make the Angus momma cow great. Her ability to produce low birth weight, fertile daughters, and big scrotumed sons has been proven time and again.

Lots 1, 15, 16, 22 & 42 are flushmates.

McKellar Angus will retain the first 50 units of semen frozen on Lot 1.

Lot 2, a son of the legendary Genex/CRI sire SAV Renown, has been a crowd favorite from day 1. His abundant muscling, natural thickness and deep rib only compliment his flawless structure and presence. One is hard pressed to find a bull in the breed today that combines elite ultrasound carcass scans and projections with actual real world, red meat as Lot 2 so beautifully does.

His dam, JMc Beretta 1334 W148, is the premier donor and income producer in our program. She is far and away the most prolific daughter of the original Connealy Consensus in the Angus breed. Her progeny carcass ultrasound ratios remain strong: Scan %IMF 73 head, average ratio 102, Scan RE 73 head, average ratio 101. Her pedigree combines multiple donor females, who are present in pedigrees of many stud bulls today, as well as, many females featured as donors in our program.

Lot 2 is the number 1 ranked son of SAV Renown for Marbling EPD in the Angus breed. He is a full brother to our high selling bull of 2017, BDM Angus herd sire, McKellar Recon.

Lots 2, 27, 35, 44, 62 & 71 are flushmates.

McKellar Blindea Claire 4096
Dam of Lot 3

S A V Sensation 5615
Sire of Lot 3

Lot 3, a son of Herbster Angus sire, SAV Sensation, has been the pick of many astute cattlemen for his tremendous rib shape, capacity and base width. This bull is an absolute tank carrying meat deep into his flank and quarter. Lot 3 scanned one of the high rib eyes at 17.3.

His dam, McKellar Blindea Claire 4096, is an exciting up and coming donor in our program. Her progeny are growthy and attractive and hit all the marks. Her sons are masculine and daughters are very feminine. 4096 has earned an impressive progeny ultrasound carcass ratio of 14 head at 104 for Scan %IMF, and 14 head at 101 for ribeye. Her dam is a maternal sister to the original Connealy Consensus.

Lots 3, 29, 31, 32 are flushmates.

McKellar Brianna 4095
Dam of Lot 4

JMc Beretta 1334 W148
Maternal Granddam of Lot 4

Lot 4, a son of Genex/CRI sire SAV Renown, has shown promise from day one. His commanding presence was evident very early on. He is powerfully made with abundant muscling and carries meat deep into his flank. He hits all the marks of a high octane performance bull, while having a controlled birth weight. His projections match his stellar individual performance figures.

His dam, McKellar Brianna 4095, sired by Connealy In Focus 4925, is an own daughter of JMc Beretta 1334. She is powerfully made with an enormous hip. 4095 produces very consistently. Her progeny are growthy and exhibit her length of spine and solid rib. Her progeny ratio for scan %IMF shows great promise with 17 head at 104.

Lot 4 is a member of a tremendous flush which features 10 flushmates brothers spread throughout this offering. This is a solid opportunity to invest in very predictable genetics.

Lots 4, 17, 20, 40, 41, 64, 70, 94, 96 & 97 are flushmates.

Dam's YR	102/3

Lot 6, a son of Genex/CRI Sire SAV Renown, rose to prominence with his abundant muscling and thickness in a very attractive, long made package. This low birth weight, Renown son hit all the marks for individual performance and his projections confirmed his immense potential.

His dam, McKellar Enlass Bree 3388, is a prolific Connealy United daughter in our donor program. She has attained a stellar set of progeny ultrasound carcass ratios of 20 head at 110 for Scan %IMF, and 20 head for 106 on scan Ribeye. 3388 is the dam of the McKellar Angus 2018 high selling bull selling to Shady Oak Angus, Cumby, TX. She is also the dam of the 2016 high selling bred heifer, selling to Zumbrunnen Angus, Lusk, Wyoming.

Lots 6, 19, 33, 37 & 57 are flushmates.

Dam

Dam's WR	108/4
Dam's YR	106/4

Lot 7, a son of Genex/CRI sire SAV Renown, is as solid made as any bull to ever sell through our ring. He has incredible natural thickness and muscling. His clean made, massive appearance has made him an eye catcher since day one. Lot 7's royal pedigree, individual performance, as well as his stout average daily gain figure make him a "can't miss" herd bull prospect.

His dam, KCF Miss Protégé W148, is a very sought after female in our program. She is the dam of Alta Beef sire, KCF Bennett The Rock A473 and herd sires KCF Bennett Consent Y75, McKellar High Roller, McKellar Braveheart and McKellar Cortez. She is also the dam of our most prolific donor, JMc Beretta 1334, who is featured in this offering. Lots 7 & 9 are flushmates.

Lot 11, a son of Accelerated/Select Sires' Coleman Charlo, may very well be the highlight of the offering. His muscling, structure and base width compliment his tremendous rib shape. He hit all the marks on his individual performance on top of being in the top 5 for average daily gain in our program. His projections put him in elite company among Coleman Charlo sons in the Angus breed and confirm his unique herd bull potential.

His dam, Jais of Conanga 9585, is an extreme powerhouse donor in our program. She is the 2012 Connealy Angus Pick of Dams, and the dam of ABS Global sire, Connealy Front & Center. She has a stellar set of figures, earned the old fashioned way, progeny proof. Her progeny are born light, yet still exhibit her astounding post weaning gain while on feed.

A flushmate sister to Lot 11, was the highlight of our 2018 fall production sale, selling to BDM Angus, Spalding, NE for \$14,000.

Lots 11 & 23 are flushmates.

SAV Renown Reference Sire

Real World Figures

McKellar Angus bulls and females are developed on a high roughage feed ration from Valley Feed Mill, Paris, TX.

The bulls are bunk fed, twice daily an average of 9 lbs. They are started at 8 lbs. twice daily following weaning, then elevated to 10 lbs. as appetite grows.

Free choice mixed grass hay is used during warm weather, followed by fertilized Bermuda hay during the fall and winter. Cattle on feed at McKellar Angus have free choice hay at all times.

These Sale Bulls were fed an average of 18 lbs. per day during their time on feed. We assessed their Average Daily Gain (ADG), listed in the sale book, by using their entry weight and final weight over a 160 day period. **The average daily gain on these bulls was 3.62 lbs/day, giving them a conversion rate of 4.97 lbs. feed per 1 lb of gain. The very best in our history.**

Blinda of Conanga 004
Dam of Lot 108

S A V Blackcap May 4136
Paternal Granddam of Lot 108

Sells bred to: Jindra Acclaim Exp. Calving Date: 9/20/2019
 Lot 108 is a rare gem. She is a powerfully made maternal sister to the original Connealy Consensus sired by Genex/CRI sire SAV Renown. Lot 108 is a model Angus female with front pasture phenotype and worlds of potential.

Her dam, Blinda of Conanga 004, now deceased, is the dam of the legendary original Connealy Consensus. For over a decade, Consensus sons have been a major draw at Connealy Angus, with many sons and grandsons proliferating into the Angus breed through AI studs. The name "Consensus" has become synonymous with quality and his dam was where it all started. She was our 2010 Connealy Angus Pick of Dams Purchase.

Lot 108 combines her legendary dam with incredible breed leader for revenue, SAV Blackcap May 4136. Selling 1/2 donor interest - No possession - McKellar Angus owns all natural calves - Buyer receives 1/2 embryo production - All ET work expenses at McKellar Angus will be covered by McKellar Angus.
