Kellen Ludvigson (515)314-2883 mobile  
Ludvigson Stock Farms Marketing Specialist

### Sight UnSeen Professionals

For those of you unable to attend the sale these professional cattlemen will be able to assist you in evaluating the 126 Red Angus breeding stock available in the sale and will help to determine which animals will fit your program the best. Please do not hesitate to contact any of these individuals with any questions or requests.

**RETAINED INTEREST**

We are selling a 1/2 interest and full possession in every bull in the sale. This gives us the right to collect semen at our expense and at the convenience of the new owner. The new owner receives the full salvage value of the bull. If anyone has any questions in regard to this please feel free to contact us.

## Schedule

### Friday, March 15th

Cattle Available for Viewing • All Day  
Green Springs Bull Sale Center, Nevada, Missouri

### Saturday, March 16th

Coffee and Donuts • 8 AM  
Green Springs Bull Sale Center, Nevada, Missouri

"Show Me" Lunch • 11:30 AM  
Green Springs Bull Sale Center, Nevada, Missouri

Ozark Sale • 1 PM • Green Springs Bull Sale Center, Nevada, Missouri

**Send Checks to:**  
**Ludvigson Stock Farms**  
**80 25th Street West**  
**Billings, Montana 59102**

**Videos will be available on both sites as well as at ludvigsonstockfarms.com**

Expected Progeny Differences (EPDs)

**Top \$ Angus** is a premium program available through the RAAA to identify sires and calves that rank in the top 25% of the breed for the Gridmaster Index. There is a large pool of feedlot owners that have signed up to source these cattle for their operations.

**EARLY INSPECTIONS:** All 80 highly culled and selected Red Angus and Red Hybrid bulls are available for viewing at any time. The bulls and females will be put into place at the sale site on Friday prior to the sale. For anyone wanting to see the bulls prior to Friday please contact us.

**EARLY ARRIVALS:** We welcome everyone to arrive the day before the sale to study the bulls selling as well as our program. Also it will give us time to discuss your program goals and objectives.

**LODGING/ACCOMODATIONS:** There are several lodging options in the area and following is a list of our suggestions:

Sale Headquarters  
Country Inn and Suites - Nevada, Missouri (417)667-9292  
Ask for Ludvigson rate - need to make reservations by October 5th.

Other Hotels  
Holiday Inn Express - Nevada, Missouri (417)283-6177

Super 8 Motel - Nevada, Missouri (417)667-8888

**AIRLINES:** Kansas City International Airport is served by all major airlines.

**HOSPITALITY/FOOD:** Sale hospitality will be provided the day of the sale including coffee and rolls in the morning and lunch served at noon.

**SALE LOCATION:** The sale is located at the Green Springs Bull Sale Center close to Nevada, Missouri and the address is 24327 E Old Town Rd, Nevada, MO 64772.

**TRUCKING:** We provide for all trucking of animals after the sale, unless the buyer wishes to pick animals up after the sale. All bulls selling in this event for \$4,000 or more or any invoices with totals of \$15,000 or more will be delivered for free to the nearest central points. All other bulls will be delivered at cost (\$0.50/mile) to the nearest central points. We will begin delivering bulls in March.

**SALE ORDER:** Cattle sell in catalog order for your convenience.

- DISP** Disposition score from 1 Star to 5 Stars - 3 Stars is average and 5 Stars is the best and 1 Star is the worst

#### \$PROFIT - \$RANCH - \$FEEDER

The higher the number the better for each index. The % breed rank for each index is listed to the right of the of the index.

**GeneSeek Genomic Profiler™ (GGP-LD)**  
the EPD's have been enhanced to have increased accuracy

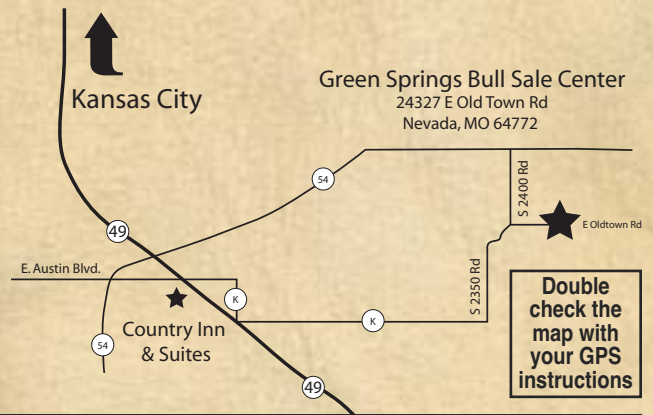

**Show Me Select Program**  
See page 4

**SIGHT UNSEEN PURCHASES (SUS):** We encourage everyone to attend the sale but we understand that not everyone can be with us sale day. We offer a 100% Satisfaction Guaranteed Sight Unseen Purchase program through our seasoned and professional marketing representatives. Please feel free to contact any of our representatives on the inside front cover for your buying needs.

**FERTILITY:** All of the bulls are guaranteed breeders. We encourage that all bulls be fertility tested prior to turn out.

**Veterinarian:**  
Dr Eric Anderson, 54 Vet Clinic, 13615 E 54 Hwy, Nevada, MO 64772

**GENETIC TESTING:** All necessary genetic testing has been carried out as prescribed by the Red Angus Association of America. No tested carriers are selling in this event.

Welcome to Ludvigson Stock Farms Fourth Spring Edition Ozark Bull Sale. The bulls again this year have been fed and developed at the Green Springs Bull Development Center near Nevada, Missouri. We made this change to be able to feed efficiency test the bulls using the patented Grow Safe feeding system. We have made a commitment to our customers to select and provide the most efficient Red Angus bulls in the breed. We know this is a long process but feel it is necessary to provide the genetics that will be most profitable for our customers.

The Red Angus breed is extremely “hot” right now and we as stakeholders both seed stock and commercial are experiencing a great demand for our product. Red Angus cattle have always been known as “blue collar” workers without a lot of “flash.” The cattle have been known for good dispositions, calving ease, adaptability and keeping operations in the black. These convenience traits are more in demand today than at any time in history and will continue to make this breed grow at an exponential pace.

The group of bulls that we are offering in this event, excel for calving ease, growth, maternal and carcass. The leading sires and sire groups in the Red Angus breed are very well represented in this offering. We along with our cooperators have always placed a high level of emphasis on structure and soundness. We realize our customers our making a considerable investment and the bulls and females need to have the necessary soundness to hold up to difficult environments and produce longevity in the herd. The cattle in this sale represent some of the highest quality Red Angus genetics offered anywhere in the country.

As we stated above the bulls have been developed at the Green Springs Bull Development Center near Nevada, Missouri. The bulls have been fed a high roughage ration that allows the bulls to express their genetic potential and at the same time provide an excellent condition for turnout. The bulls have been running in 10-40 acre fescue pastures during the development period for added exercise and adaptability. The bulls are in excellent shape and will not miss a beat when transitioning to your operation at home.

We are experiencing new times in the cattle business even though prices are down from last year these are still some of the best times in the industry. Cattle will be “sorted” more now and “quality” cattle will bring the premium over average or plain cattle. The industry continues to move towards high marbling, high quality cattle. In this offering you will find some of the highest quality cattle to sell anywhere this year.

If we can be of assistance to you in making reservations or travel plans, please feel free to contact us. The sale headquarters will be the Country Inn and Suites located conveniently right off of Interstate 49 in Nevada, Missouri. We will host a Cattlemen’s Seminar, hospitality hour and dinner the night before the sale at the Gobblers Roost next to the Green Springs Bull Sale Facility and we would like to invite everyone to join us. We look forward to seeing you on March 16th.

*The Elite Nucleus Herd*

**Our Program**

Ludvigson Stock Farms is a family operation established in 1954. Our roots are based in the commercial cow calf and cattle feeding sectors. We understand what is needed to be successful in these areas and it has shaped our breeding philosophies in the genetics that we produce.

**Our Ranches**

The Elite Nucleus herd runs on our "home" ranch located 10 miles south of Lewistown, Montana in the Snowy Mountains. We also have an advanced genetics center located in Iowa where our parents began farming over 50 years ago. In addition to these ranches we have established regional ranch centers in Mandan, North Dakota and Raton, New Mexico.

**Our Genetics**

We have established a breeding philosophy that incorporates optimizing multiple traits without over emphasizing any single trait. Our herd sires Expectation and Packer are perfect examples that balance all traits and produce least cost cattle with exceptional phenotypes. Our next generation of herd sires such as Takeover, Nextpctation, Night Calver and Saga continue this tradition and headline the bulls that we will be selling in this event.

**Our Bull and Heifer Development**

We develop our bulls and females at various development centers throughout the United States. All the bulls are fed a highroughage ration designed to produce a 3.0 lb ADG with 0.2 of an inch back fat. The replacement females are fed a carrying ration and we have maintained over an 80% first service AI conception rate on our females. The cattle are developed to adapt to any environment and thrive.

**Our Team**

The LSF team includes not only our family but our managers, cooperators and customers. It takes a team to remain competitive in the industry today and we value the input from all of our team members.

**Our Key Members:**

• Ryan Ludvigson – is our main marketing representative and oversees the cowherd and development operations in Montana.

• Park Ludvigson – is our main breeding specialist, managing our embryo collection and transfer program as well as our embryo export program.

• Steve Newberry - our chief business strategist that oversees LN Cattle Company operations.

• Rodger Reitman – Our main reproductive specialist and development manager – numerous years experience with seed stock and commercial herds.

• Kraig Sweeney - Our ranch manager that oversees the Elite Nucleus Herd in Lewistown. Well qualified

with years of experience in seedstock and commercial cow calf production.

**Our Customers**

Our customers play an integral and ongoing part in our breeding program. It would be impossible for us to remain competitive without constant input by our customers. Our customer's environments range from the High Desert to the High Plains and from the Midwest to the Rio Grande. Adaptability of our genetics has been the key to why our customers come back year after year.

**\$Profitability**

Again this year, every bull will have a \$Profit Index. This index ranks cattle on their ability to return "profit" to the beef industry. We believe that this index will simplify the selection process for our customers and move their operations in the right direction faster in this competitive market. Please contact us to visit about this ground breaking index as well as to receive materials that explain the process in more detail.

**LN Cattle Company**

*The Ludvigsons*

*The Newberrys*

**Partners in Progress**

In the summer of 2013, Steve Newberry and Ryan Ludvigson met and discussed the state of the beef industry and out of these discussions a partnership was formed to meet the increasing demand for Red Angus influenced genetics. Like minded and extremely progressive, the Ludvigson and Newberry families are committed to providing the beef in-

dustry with the most cutting edge genetics as well as industry leading customer service. In addition to providing some of the top genetics to the industry look for this partnership to introduce some of the most dynamic customer service programs that the industry has ever seen.

### Butcher Red Angus (BRA)

Butcher Red Angus is owned and operated by Ben and Brianna Butcher in Holstein, Iowa. Ben joined our Red Angus family in 2007 by purchasing his first Red Angus females from us during our annual Focus on Females Sale. Ben interned with us during the Spring of 2008 and had the opportunity to participate in all aspects of our operation and was instrumental in our calving operations as well as the development of our bulls. The Butcher's also feed a number of cattle each year and have been competitive buyers of high quality Red Angus feeder cattle in Montana and the upper plains. They see first hand the benefits of how genetics can play a huge role in the profitability of each segment of the beef industry. Ben and Brianna have a very bright future in the livestock industry and we look forward to working with them for many years.

### Tlach Red Angus (TLA)

Tlach Red Angus is owned and operated by Jerry and Carol Tlach along with their children Julie, Lori, Mike and Kevin. They are located in north central Iowa close to the town of Britt. They have been breeding Red Angus for over 16 years. Over that time they have put an emphasis on easy calving, quiet dispositions and maternal traits. The Tlach's have been great supporters of Ludvigson Stock Farms over the years and have been students of our breeding philosophy selecting many females and some of our top herd bulls. Look for this program to have a significant impact on the Fall Ozark Sale for many years to come.

### Prairie Dog Creek Cattle Company (PDC)

Michael and Kelly Wasson along with their family own and operate Prairie Dog Creek Cattle Company in Dresden, Kansas. The Wasson's have a long history and reputation as one of the best commercial Red Angus operations in the country. They feed their own cattle and have been honored with the prestigious Gridmaster award several times. Michael and Kelly started their seedstock operation in 2016 with the purchase of an elite set of fall bred cows from LN Cattle Company. The Wasson's utilize AI and Embryo Transfer in their operation to advance the genetics in their operation. This family is grounded in the commercial cattle business which gives them a unique perspective in producing excellent seedstock for the commercial cattle industry.

### McDonald Red Angus

McDonald Red Angus is owned and operated by Dwight and Cindy McDonald and is based in Russell, Iowa. The McDonald's are long time cattle producers and are not new to the Red Angus breed having been involved for many years. They made a major move to invest in large draft of Ludvigson Stock Farms and LN Cattle Company females in the fall of 2017. This large investment has taken their operation to another level. They currently run 320 registered Red Angus females and 120 commercial females. The McDonald's emphasize performance cattle with superior phenotypes and genotypes. Look for the McDonald's to be a significant player in our Ozark Program.

## Missouri Show-Me-Select Replacement Heifer Program

*"The Show Me Select Replacement Heifer Program is focused entirely on Missouri's farmers and is dependent upon active participation from regional extension livestock specialists and local veterinarians, each of which are critical components of the agricultural sector of this state."*

*This program is unique in that it is first and foremost, an educational program targeted at improving production efficiency through increased use of existing technology, coupled with the marketing component."*

# HOW TO PARTICIPATE AS AN ABSENTEE BUYER

## HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at [www.superiorlivestock.com](http://www.superiorlivestock.com).

### HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to [www.superiorlivestock.com](http://www.superiorlivestock.com) and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

**Click-To-Bid.** This is Superior's online bidding program for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to sign up. Becoming a member is easy – just go to the homepage of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

**Viewing the Auction.** The sale will be broadcast via satellite on Dish Network channel 998. Please note that there is a delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on. The sale will also be broadcast live on the internet at both [www.superiorlivestock.com](http://www.superiorlivestock.com) and [www.superiorclicktobid.com](http://www.superiorclicktobid.com). The video feed on the homepage of [www.superiorlivestock.com](http://www.superiorlivestock.com) looks the same as the video feed on TV and can be watched over a smartphone or tablet. Remember you can call in to bid whether watching on the TV or on the internet, but you must be a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to "click-to-bid".

**Buyers will be contacted by the ranch after the sale for payment and delivery details. IF YOU NEED ANY ASSISTANCE CALL SUPERIOR AT (800) 422-2117.**

***DVAuction***

# \$Profit™ - The Next Generation of Cattle Evaluation

## Why \$Profit helps:

Today, ranchers have too much data to study. With over 20 traits, buying the best bull has become really confusing. We have actual weights, adjusted weights, ratios, and then a host of EPD's. Every bull is good on some traits and weak on others. The challenge is figuring out how each of those traits is going to impact your bottom line. We wish we truly knew which bull would make the most money from birth to slaughter, but most of the time, we end up guessing.

Back in 2005, Leachman Cattle started working with the BIO group out of Canada. The goal was to come up with one number that sorted the bulls on their bottom line impact. Since 2005, Leachman's have calculated and selected for \$Profit. Through test herds, cooperator herds, and feedlot performance data -- \$Profit has been proven to work.

The same technology used to calculate \$Profit is now being used by Verified Beef to estimate the value of feeder calves. Verified Beef will certify the Relative Market Value of your calves through their Reputation Feeder Calf program. This program uses \$Profit to predict the value of the calves in the feedlot and on the rail. This will allow you to earn premiums on genetically superior calves.

## How \$Profit works:

\$Profit assumes that the average commercial bull will have 100 progeny over its lifetime. Let's compare a \$10,000 \$Profit bull to \$6,000 \$Profit bull (the average 2008 born Angus bull). The predicted difference between the bulls is \$4,000 or about \$40 per calf. The model assumes that you keep 30% of your heifers and that you retain ownership on the remainder and sell the finished animals on a grid. We realize that many don't retain ownership, but with the Reputation Feeder Calf program, you can get paid and sell at weaning. Feedlots have already proven their willingness to pay premiums for superior \$Profit calves.

## What traits are included in \$Profit:

\$Profit includes nearly every trait that impacts profitability. The effect of most traits on profit is fairly simple to understand. Here is the list of what is included:

### Revenue Traits

- Calving ease = more calves
- Weaning & yearling EPD = more weight
- Fertility (days to conception) = more weight & more calves
- Carcass weight = worth more up to 1050 lbs.
- Marbling = valued based on the grid premiums
- Ribeye area = value as impacts yield grade
- % Retail Product = more yield

### Cost Traits

- Cow mature size = bigger eats more
- Cow intake = more intake costs more
- Feedlot feed efficiency = cost of gain

Some traits are not so easily characterized as more is better for \$Profit. Milk, for example, is a good thing until you get too much. In the \$Profit model, each pound of milk EPD over +25 has a more negative effect on fertility than it has a positive effect on weaning weight. There are a few traits not yet included in \$Profit: longevity, structure, and disposition. These traits are important but difficult to express in dollars.

Index selection has been proven to work in chickens, pigs, and dairy cows. There is little doubt that it can accelerate the rate of genetic improvement in beef cattle as well. That is why we have decided to provide \$Profit to our bull customers.

The technical team at BIO consists of Dr. Steve Miller, Dr. Peter Sullivan, and independent consultant, Brian Pogue. Dr. Miller helped design the \$Profit simulation model. Dr. Peter Sullivan calculates all of the underlying EPD's for the Leachman program. Each month, Dr. Sullivan analyzes the database and updates our \$Profit predictions. Brian Pogue works to ensure data integrity and model accuracy. This great team excels at generating the \$Profit index exclusively for Leachman Cattle of Colorado.

Bio is a company with a mandate for genetic improvement. Their science is leading edge in a number of different areas. BIO has estimated Across Breed Comparison EPD's on commercial and seedstock cattle in Canada since 1988. Economic simulation models have been used to generate indexes since 1996. BIO works in conjunction with the Centre for Genetic Improvement of Livestock (CGIL) at the University of Guelph in the development of new technologies for beef cattle improvement. For further information on BIO or CGIL visit their websites: [www.biobeef.com](http://www.biobeef.com) and [www.CGIL.uoguelph.ca](http://www.CGIL.uoguelph.ca)

Welcome to the Annual Ludvigson Ozark Bull Sale. Watch video sales across the country and you will find that Red Angus steers continue to gain a larger market share and that Red Angus heifers are often the top selling lots and continue to outsell their black angus cousins. Since we have started our #1 goal has not changed, and that is to continue to improve your profitability. Study this catalog and you will find that it is loaded from the first lot to the last with bulls that are designed to increase your profitability. We start off the sale with an outstanding son of Profitbuilder that does a tremendous job of spreading the curve between birth and growth with EPDs in the top 26% CED, 7% BW, 24% WW, 19% YW and 15% ADG. If you need carcass quality, he can get it done for you with his top 13% MB.

WOW! What a performance spread on this really good made stud. If you get paid by the pound you had better load up this dude with his outstanding ratios of 111 weaning and 105 yearling. With figures like that you can certainly see why he ranks in the top 12% WW, 10% YW and 10% ADG. Even with all of this performance he still offers calving ease with a BW EPD in the top 19% of the breed. If you thought his growth ratios were impressive, check out his end product merit. He absolutely destroys the antagonisms between marbling and muscling with ratios of 128 IMF and 110 REA. His EPDs reflect this dominance by ranking in the top 8% MB and 2% REA. Expect his steers to weigh up as well with his top 7% CW. You can certainly understand why he ranks in the elite top 2% for GridMaster Index.

This rascal is loaded for bear when it comes to performance. He can pay for himself in a hurry with the extra pounds that he can put out with his growth EPDs that rank in the top 27% WW and 11% YW. This well rounded bull also offers superb calving ease with his top 15% BW. He brings it on carcass quality as well and will inject his offspring with marbling with his top 12% MB. He can help stop those underweight carcasses with his top 4% CW.

5L INDEPENDENCE 560-298Y

HEIFER BULL ALERT! With this stud's light 55 pound actual birth weight and ultra-low 81 birth ratio that helps to give him a top 7% BW EPD just think of how much smoother next calving season can go. His daughters should be fertile and low input gals that bring in whopper calves at weaning with his top 24% MK, 5% ME and 13% HPG. You can expect him to put the quality grade in them with his top 7% MB.

Imagine how good this stud's daughters can be. They should be filled to the brim with fertility and be profit centers in your herd for years to come with his elite top 1% HPG and 10% ST. They should also bring in calves that press the scales down and require decreased inputs as well with his top 26% MK and ME that is 14% below breed average. If you need pounds he has you covered with his top 27% WW and 22% YW.

If you want to win a coveted Grid Master Award from the Red Angus Association you had better be loading up bulls like this stud. He absolutely kills it on carcass quality with an impressive IMF ratio of 114. This helps to give him an outstanding MB EPD that ranks in the elite top 1% of the breed. He destroys the antagonisms between marbling and muscling by also having top 3% REA. No wonder he has top 2% GMI.

OH,MY! This dude is a performance power house! If you need pound in the right package you had better take a look at this stud. His 814 pound weaning weight records and outstanding 122 ratio. He didn't let off the throttle from there and went on to record a 107 yearling ratio. These are reflected in his top 15% WW and 20% YW. He gets it done on end product as well with top 3% MB, 125 CW and 11% REA.

Wait until you lay eyes on this stud. If you want your herd bull to be extra deep and extra soggy, you have found your bull. He looks like he can put out the pounds and he proves that he can with his ratios of 111 weaning and 102 yearling that help to give him growth EPDs in the top 3% WW and 7% YW. If you don't grid your steers you might want to start with his elite top 1% MB, 33% YG, 4% CW, 11% REA, 25% FAT and 1% GMI.

If you market your cattle by the pound out in the real world you had better have this stud on your "buy" list. Even though he started out with only a 95 birth ratio he absolutely hammered it to achieve an incredible 120 weaning ratio. He kept the pedal to the metal from there to post an equally impressive 110 yearling ratio. These help to give him superb growth EPDs in the top 205 WW and 16% YW.

You have to love the performance that this stud offers. If you get paid by the pound he can sure help you put out some calves that press the scales down with his superb growth EPDs that rank in the top 13% WW and 27% YW. Even with all this performance he still offers incredible fertility with his HPG that ranks in the elite top 1% of the breed. He will put the marbling in them as well with his top 19% MB EPD.

Look at the superb performance on this stud. Even though he started out with a light 68 pound actual birth weight and a low 95 birth ratio, this guy absolutely floored it to achieve an impressive 109 weaning ratio. He kept his foot on the gas to earn a 102 yearling ratio. These are reflected in his excellent growth EPDs that rank in the top 17% WW and 28% YW. He brings the marbling and muscling with top 5% MB and 7% REA.

Got marbling? This guy does. Just imagine the quality grade that this guy can inject into your herd with his 107 IMF and premier MB EPD that ranks in the elite top 4% of the breed. His daughters should be able to make it on little more than the scenery with his top 3% ME. The females out of this guy should also be filled to the brim with fertility from his top 2% HPG. Plus you get all this with top 23% BW.

What a performer! Check out the impressive performance that this bull offers with growth ratios of 109 weaning and 102 yearling. These superb ratios help to give him EPDs that rank in the top 14% WW and 20% YW. Expect his steers to gain more while eating less with his top 33% ADG and 13% DMI. He will put the muscle in his progeny as well with his top 21% REA. No wonder he ranks in the top 9% for GM!

Here we go into a heck of a set of 18 month old bulls. 8 out of 9 of these bulls are paternal half brothers by Profitbuilder. If you want to build a tremendous set of calves with loads of genetic predictability you had better get as many of these brothers home as possible. Take a look at this incredible performance that this stud offers, he ranks in the top 2% for both WW and YW. Imagine the steers with his top 1% MB, 16% REA and 1% GMI.

Here we go into a tremendous set of yearling bulls. This might be the best set of bulls that we have offered. We start off this portion of the sale with an exciting son of Profitbuilder. When you go out into the pens you will definitely be able to find him because he has herd bull written all over him. This stud is so much more than just a "looker," he has performance to burn. His calves will certainly mash the scales down with his top 10% ranking for both WW and YW. Even with this much growth he still maintains an excellent BW EPD that ranks in the top 18% of the breed. He will put the fertility in them as well with his top 22% HPG. As an added bonus, he can help decrease input needs in your herd with his top 30% ME. Grid his steers with his exceptional end product merit that ranks in the top 3% MB, 5% CW, 25% REA and 3% GMI.

OH, MY! This is one of the top bulls to sell this entire Spring sale season. A phenotypic standout he also has an incredible amount of performance. From the time he hit the ground he has had the pedal to the metal to achieve impressive ratios of 114 weaning and 112 yearling, these help to give him superb growth EPDs in the top 11% WW and 9% YW. As an added bonus, you get all this with calving ease EPDs in the top 34% CED and 32% BW. Imagine the females he can produce with his top 27% ME, 4% HPG, 34% CEM, 23% ST and 3% HBI. Throw in the fact his 103 MPPA dam hails from the Crystal cow tribe and your really have one you can build a herd around. He crushes it on end product merit with a prime MB EPD in the top 1% as well as top 2% GMI. Combine his \$Profit that is highest in the sale and tremendous EPDs with his outcross pedigree and he has exceptional semen revenue potential.

If you missed out on the previous lot, here is a chance to load up his half brother. If gets even better for you, this brother has even more growth to him with his awesome performance EPDs that rank in the top 8% WW and 6% YW. With numbers like that he can pay for himself in a hurry with all the extra pounds that he can put out. Even with all this output he still offers up an exceptional amount of fertility with his HPG EPD that ranks in the top 11% of the breed. When you study his top 12% HBI you will find that you might want to keep as many of his daughters as possible since they should be profit centers in your herd for years to come. How about the carcass value on this stud? If you need to inject your herd with marbling he can do it with his top 5% MB. He'll put the muscle and pounds on them as well with his top 2% CW and 25% REA. No wonder he's top 3% GM!

With sons like this it's easy to see why Platinum is the #1 1-A GridMaster Index bull. If you or your customers market on a grid you had better be using bulls like this guy. He kills it on end product merit and ranks in the top 1% MB, 20% CW and 21% REA. Throw in his top 1% ADG and 29% DMI and it is obvious why he ranks in the elite top 1% for GMI. With his top 2% HBI you should love his daughters as well.

HEIFER BULL ALERT! You might want to throw away those calf pullers if you get this guy back home. Your heifers should have a big smile on their faces when they find out about his 64 pound actual birth weight and super low 88 birth ratio that gives him top 1% CED and 10% BW. He destroys the antagonisms between birth and growth by posting ratios of 108 weaning and 107 yearling along with top 12% WW and 10% YW EPDs.

MY, OH, MY! This guy knocks it out of the park when it comes to end product merit. This stud is a herd changer for carcass value with his elite top 1% MB, 1% CW and 28% REA. No wonder he ranks in the top 7% for GMI. If you sell by the pound, he has you covered there as well with his growth EPDs that rank in the top 34% WW and 19% YW. An added bonus is that you get all this plus top 21% CED and 12% BW.

Profitbuilder excels at producing big time spread bulls, and this stud son definitely lives up to the billing with his top 18% calving ease and growth EPDs in the top 25% WW and 28% YW. His daughters should breed up and continue to be profit centers in your herd for years to come with his top 17% HPG and 33% ST. If you need a big dose of carcass quality in your herd he has you covered with his top 6% MB.

This guy has one of the biggest Index spreads that you are going to find, not only in this sale, but in any sale across the country. I'd wager that you will want to keep as many females as possible out of this guy with his top 20% HPG and 2% ST that gives him off the charts HBI. Notice also that his outstanding dam posts a 104 MPPA. Retain interest on those steers as they should dollar up with his top 2% MB and 1% GMI.

HEIFER BULL ALERT! Think how much easier next calving season can be if you get this stud home with his 67 pound actual birth weight and low 89 birth ratio. These numbers help to give him tremendous calving ease EPDs that rank in the top 4% CED and 3% BW. Extend your investment by using him a couple of years on the heifers then move him to the main cowherd with his top 29% WW. Expect his daughters to require less groceries and to be able to calve by themselves with his top 25% ME and 32% CEM.

How's this for a calving ease bull? You and your cow herd should love the exceptional EPDs that he offers with rankings in the top 11% CED and 8% BW. Even with all of this calving ease his offspring will gain with his top 28% ADG. His daughters should calve unassisted as well with his top 8% CEM. He crushes it on carcass value and whether you need marbling or pounds he can do it with top 16% MB and 25% CW.

This stud is a scale crusher! If you get paid by the pound you had better get your hand up in the air on this guy. He posts impressive growth EPDs in the top 6% WW and 1% YW. With numbers like that he can pay for himself in a hurry. If you don't grid your steers you sure might want to start with his incredible carcass EPDs in the top 7% MB, 1% CW and 3% REA. Now wonder his GMI is in the top 1% and is one of the highest in the sale.

Here is the first son selling today out of the \$80,000 X-Citement, one of the most phenotypically correct bulls that the breed has seen. This bull will put the pounds on the ground for you with his tremendous 111 weaning ratio and growth EPDs that rank in the top 12% WW and 11% YW. This guy will inject muscling into his offspring with his top 16% REA. He'll put the pounds on carcasses as well with top 4% CW.

Time is starting to be of the essence. If you've yet to get your bull bought, you might want to get your hand up in the air. This guy can certainly add to your bottom line with his growth EPDs that rank in the top 14% for both WW and YW. He gets it done on end product merit as well with his MB EPD that ranks in the top 18% of the breed. If you're leaving dollars on the table for light carcasses he can help there as well with top 10% CW.

**THANK YOU FOR YOUR INTEREST IN OUR PROGRAM. WE DO THIS FOR YOU AND COULD NOT DO IT WITH OUT YOUR SUPPORT. HAVE SAFE TRAVELS HOME AND ONCE AGAIN THANK YOU FROM LUDVIGSON STOCK FARMS, THEIR COOPERATORS AND THEIR EMPLOYEES.**

## • Terms & Conditions •

The Red Angus Association Terms and Conditions will apply if the terms and conditions printed here are not applicable.

**TERMS:** Terms of the sale are check or cash. Every animal will be sold to the highest bidder. The right of property shall not pass until after complete settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the sale facility or ranch.

**BIDDING DISPUTES:** The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

**RETAINED INTEREST:** We are retaining a 1/2 interest in all bulls in the catalog. We are selling the remaining interest, full possession, and full salvage value on these bulls. We also retain a breeding interest for in-herd use only in all other bulls in the catalog. We reserve the right to collect semen at the convenience of the buyer.

**SEMEN RIGHTS:** Buyers receive semen rights proportional to the interest purchased. If you purchase a 1/2 interest then you are entitled to 1/2 of the semen collections at cost provided that you indicate you want semen prior to collection. We intend to collect some of the bulls in the sale and sample them in our herd. We will cooperate with the buyer in collection of the bull. We prefer to collect most bulls after the first season of use and we will contact the buyer when we intend to collect the bull at a time convenient for the buyer.

**PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be fed, watered and cared for at the purchaser's risk for one week after the sale. After that, there will be a per day feed cost added to the purchase price, payable before possession occurs.

**ANNOUNCEMENTS:** Changes of information contained in this catalog relating to the animals offered for the sale will be announced from the auction box and such announcements shall take precedence. Errors discovered in the catalog will be corrected by announcements at sale time and such corrections will take precedence over the printed matter in this catalog.

**BREEDER'S GUARANTEE:** All animals sold are guaranteed breeders by the sellers. Any animal that has not proven itself as a breeder within six months after date of sale, if in healthy condition, may be returned to seller at buyer's expense. The seller reserves the privilege of trying, for a period of six months, to prove the animal is a breeder. The seller, at his option, may either replace the animal with another of equal value or grant the buyer a credit for use on any cattle marketed by the seller in full settlement and transaction of ALL claims. Yearling bulls shall be guaranteed breeders for no more than 25 females. All complaints regarding breeding difficulties must be reported in writing by the buyer to the seller within the specified time above, and any animal returned

must be free from disease and in good health and condition. All animals are guaranteed to be breeders, with the exception of: a) calves under twelve months of age; or b) animals shown by Purchaser after sale (in case of animals shown after purchase the breeding guarantee, if any, shall be such as agreed upon between Seller and Buyer; or c) gross negligence or willful misconduct on the part of the Purchaser.

### OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

1. All claims for adjustment or refund must be made in writing either within six month of the sale date or no later than six months after the animal reaches 18 months of age with the exception of claims involving defects or parentage.
2. If a female sold as "open" proves to be with calf, the Purchaser may return the animal to the ranch of the Seller prior to calving for a credit of the full purchase price or for another animal of equal value, whichever is acceptable to the Purchaser. It shall be the obligation of the Seller to bear any expense incurred for transportation.

**FERTILITY:** All bulls have been evaluated and are guaranteed to be breeders.

**LIABILITY:** Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal, or otherwise, for damages of any kind. Any person attending the sale does so at his own risk.

**CONTRACT:** The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

**IDENTIFICATION:** Each animal carries a readable tattoo. The tag numbers on the cattle correspond with lot and tattoo numbers in this catalog.

**CERTIFICATE OF REGISTRY:** A certificate of registry and transfer will be provided on all bulls sold. Heifers selling for \$900 or above will receive a registry certificate. If buyers of heifers under \$900 desire a registration certificate, they can be purchased for \$100 added to the selling price.

**IMPLIED WARRANTY:** Except for those stated in the terms and conditions, there are no warranties, wither expressed or implied, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in terms and conditions are in lieu of all other warranties, either expressed or implied and the remedies provided therein shall be the sole and exclusive remedy of the buyer, or any part claiming through buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

**HEALTH:** All cattle will have official health certificates and are guaranteed for interstate delivery.
