Welcome

GREEN MOUNTAIN RED ANGUS

Tom, Jim, Julie and Bob Morton

Welcome to Green Mountain **RED** Angus

Welcome to our 20th annual bull sale! Green Mountain Red Angus began selling bulls by private treaty in 1988, went on to have a silent auction format opening day of private treaty sales in 1993, and in 2000 achieved our goal of holding a live auction. It was always the dream of Bob's father, Jim, to see his bulls sell through a live auction at the ranch, but unfortunately, he passed away in November of 1999, just a few short months before our first bull sale. Bob and somehow made it through, finished preparations, and held a very successful inaugural sale.

Looking back, we have come a long way. When Bob's father left us, we had 102 registered Red Angus cows and 31 replacement heifers. Over the past 20 years we have more than doubled that number. We have gone from a couple of kids that were hoping for the best on March 21, 2000, to hosting our 20th annual sale this year. We are now watching our sons take part in the family ranch and being an integral part in the success of Green Mountain Red Angus.

We continue to grow our herd slowly and our goal is to be able to provide a larger number of bulls for your consideration, while still maintaining strict culling standards. We strive to combine the genotype with the phenotype in the most complete package we can, and we believe you will find that in this year's bull crop. We raise cattle to be able to work in some of the harshest conditions and still thrive, keeping an eye towards functionality.

The bulls offered in this catalog provide some of the best genetic opportunities you will find and carry genomically enhanced breed-leading EPDs. All bulls are evaluated for Top Dollar

Angus and the Premium Red Baldy program. In order for bulls to carry the Top Dollar Angus badge they must meet required genetic specifications that place them in the top 25% on growth and carcass traits. In order to qualify for Premium Red Baldy, a bull needs to be in the top 50% of the breed for the HerdBuilder index. Seventy-five percent of the bulls offered qualify for Top Dollar Angus and all but six qualify for Premium Red Baldy. This is quite a testament to the strength and versatility of the bulls available in this year's sale.

When going through the catalog, be aware that Red Angus EPDs are now calculated using the new genetic evolution software, Biometric Open Language Tools, known as BOLT. The BOLT analysis is able to use pedigree, performance and genomic information simultaneously to calculate EPDs, thus enabling producers to make more informed, lower risk selection decisions. With the new BOLT calculations, we have seen a change in the base of some of the EPDs, as well as some percentile re-ranking. Some took a notable shift, while others remained stable. As a result, we encourage you to not only look at the EPDs listed, but pay attention to where the EPD ranks on a percentage basis as well, to help solidify where a bull's particular EPDs rank within the breed.

We are so honored to have been a part of this great breed for over 35 years. Whether you are a seasoned Red Angus cattleman or new to the breed, the crew at Green Mountain Red Angus would like to thank you for putting your trust in our program. We hope you enjoy looking at the genetic packages offered here as much as we enjoyed putting this information together!

Bob, Julie and Tom

First Opening Day of Private Treaty Sales in the Fall of 1993

GMRA Patriarch, Jim Morton

GMRA Bull Sale

Green Mountain Red Angus

GMRA has no known carriers of any genetic defect in any pedigree.

Matt Wznick

Jay Rost

Jared Wareham

Get off 1-90 at the Logan Exit, #283. Go north and take a left on the frontage road. Proceed west toward Three Forks, about 1/2 mile. Take a right onto Logan Trident Road, heading north. The road immediately crosses the Gallatin River and the railroad tracks, as shown on the map. Green Mountain Red Angus is 2 miles from the railroad tracks. Watch for the large Green Mountain Red Angus sign.

View videos at www.gmracattle.com • All sale bulls have undergone GGP-LD testing and have genomically enhanced EPDs.

TERMS AND CONDITIONS

1. The terms of the sale are cash unless prior arrangements have been made.
2. Each animal will be sold to the highest bidder. The person in charge will settle any disputes as to bids, and his decision on such matters shall be final.
3. Any announcement from the seller on sale day will take precedence over printed material.
4. Health certificates will be furnished for shipment anywhere in the United States.
5. Each animal becomes buyer's risk as soon as sold; but it shall be the obligation of the seller to see that animals are fed and cared for, free of charge to purchaser, until loaded for shipment or until the expiration of April 1st of the current year.
6. Retained Interest: Green Mountain Red Angus is retaining one-third revenue share interest in all bulls in the sale. We reserve the right to participate in the collection and marketing of semen. Buyers receive two-thirds interest, full possession and full salvage value. If seller wishes to collect semen for in-herd use only it will be at seller's expense and the buyer's convenience. If the buyer wishes to share in the collection costs and keep his share for in-herd use that is their choice.
7. All claims for adjustment or refund must be made in writing within six months of the sale date. In the event an animal is claimed to be a non-breeder, the Seller shall be entitled to six months' trial following the return of the animal in which to prove the animal is a breeder. If at the end of six months the Seller is unable to prove the animal is a breeder, restitution shall be made, in compliance with the terms set forth by the Red Angus Association of America. Any expenses incurred for transporting the animal shall be the buyer's responsibility.
8. Everyone attending this sale does so at their own risk. Owners, clerks or other helpers do not assume responsibility, legal or otherwise, for damages of any kind.
9. A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.
10. The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

These cattle do sell in accordance with the Sale Terms and Conditions set forth by the Red Angus Association of America.

DVAuction

Broadcasting Real-Time Auctions

Watch and Bid Online at DVAuction.com

Can't make the sale?

We are pleased to bring you real-time Internet bidding and a live broadcast of this sale through DVAuction. To watch or bid online, simply complete the following steps:

- Visit the DVAuction web site at www.dvauction.com
- Click on the "Creat New Account" tab
- Enter a user name, password and your contact information.
- Complete the Banking Information. (If you are only interested in viewing you can skip this section)
- Select your Time Zone, Accept the Terms and Conditions and click "Create Account"
- Complete the process by answering a few questions, selecting your subscription choices
- Click on "Apply for Bidding" in the upper left corner of your screen to select the sales you wish to bid on
- Be sure to include a personal contact at your bank, we will contact them in order to get a credit reference.
- If you would prefer to be approved using your credit card, call (402) 316-5460.
- Please be sure to apply for bidding at least a day in advance of the sale-every effort will be made to process your application in a timely manner.

DVAuction will contact you once you have been approved to bid. We do not provide buyer numbers until you have purchased a lot in the sale, and that number is only usable for that auction. After the sale contact the sale owner or manager to make arrangements for payment and delivery of your online purchases.

Please Note: High speed Internet access (DSL, T-1, or Broadband) is required to be able to bid successfully during the sale. If you have any questions, please contact DVAuction at (402) 316-5460 or email support@dvauction.com.

Proxy Bidding: If you can't access a computer during the sale, you can now place a "proxy bid" through DVAuction. Simply follow the instructions listed above, and as the sale date nears there will be a "Proxy Bidding" link under the sale listing on the main page of DVAuction. You can then place the maximum amount that you'd like to bid, and our system will represent your bid just as if you were there.

Buy a Bull – We'll Buy Your Tags!

If you purchase a bull from us, we will purchase one bag of FCCP or Allied Access tags per bull for you. All you need to do is call the Red Angus Marketing Department, answer a few management questions, and enroll your calf crop for free. Then start reaping the premiums through Red Angus' marketing programs!

Feeder Calf Certification Program (FCCP) "yellow tags" are for bull customers using ONLY Red Angus bulls. FCCP cattle are accepted into the Choice+ Grid and Pro-Cow Program. Cattle enrolled in FCCP are USDA genetic, source and age verified.

Allied Access "green tags" verify source and age for bull customers utilizing halfblood bulls in their planned crossbreeding program.

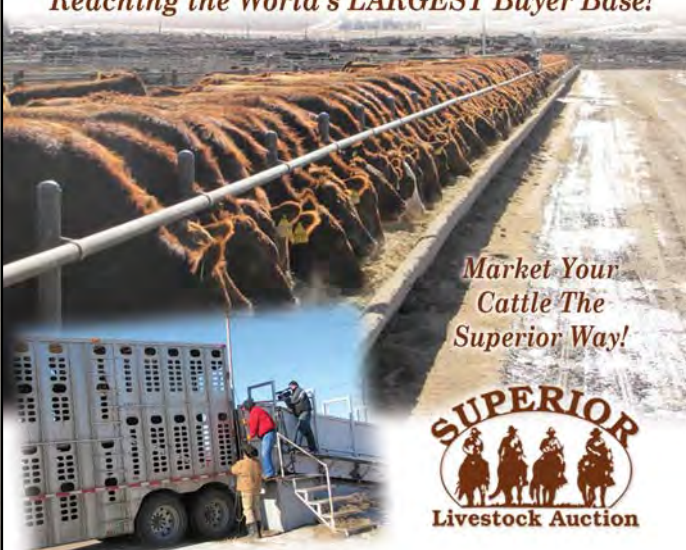

Ranch Tested. Rancher Trusted.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com. "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.**

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number." Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding program for cattle buying. **PLEASE NOTE THAT HIGH SPEED INTERNET IS REQUIRED – THIS IS NOT FOR DIAL-UP OR SATELLITE INTERNET.** Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are two places to view the sale broadcast live on the internet: www.superiorlivestock.com or www.superiorclicktobid.com. Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid." Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

***If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.**

THRIVE

Position your ranch to thrive with Red Angus-sired calves.

Red Angus bulls unlock premiums by siring calves with a market advantage that buyers appreciate both in the feedlot and the replacement heifer pen. Plus, the Feeder Calf Certification Program yellow tag adds another layer of price advantage through genetic, age and source verification. Thrive on sale day with Red Angus.

Ranch Tested. Rancher Trusted.

Red Angus

RedAngus.org

Top Dollar Angus Feeder Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its "branding" in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation, conducted by Zoetis or GeneSeek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

PREMIUM GENETICS FOR THE PROGRESSIVE CATTLEMAN.

Benefits

Premium Red Baldy is a tagging program designed to take advantage of hybrid vigor by maximizing the best traits of both Red Angus and Hereford and providing commercial producers with premium replacement females.

The program will help producers access genetically verified females that have the best combination of longevity, fertility and adaptability to incorporate into producers' herds.

As the nation's cow herd expands to meet beef demand, Premium Red Baldy females will rise to the challenges of producing more beef sustainably and profitably, without sacrificing quality.

The Premium Red Baldy program has the ideal balance of maternal and carcass traits, which will yield cattle poised to increase the profitability of the commercial producer.

Premium Red Baldy uses genetics supported by the only two beef breed associations backed by whole herd reporting.

Premium
RED BALDY

Qualifications

Premium Red Baldy is a heifer-only program, capitalizing on hybrid vigor. No steers will be tagged in this non-PVP tagging program.

To qualify for Premium Red Baldy, females must be sired by bulls in the top 50% of the breed for Baldy Maternal Index (BMI\$) or Herdbuilder Index (HB).

Targeted breed percentages will range from 25%-75% for both breeds, with the balance being the alternate breed.

Females must be red-bodied with either a bald or brockle face. No black-hided cattle will be admitted, regardless of genetic makeup.

Please contact your respective breed representative for more information.

Game Changer is one of those bulls that we just can't say enough about. He hit the ground with a perfect birthweight – not too little, not too big – and turned in outstanding growth ratios. His actual 205 day weight is #2 in the entire offering and his WR is tied for #5. His ADG ratio is a 105 and WDA is 109 and is tied for 4th. He turned in great carcass scans with the standout being IMF with the 4th highest actual scan and a ratio of 156 that is #3. There's an impressive flight of EPDs with 11 in the top 20% or higher. Eight of his EPDs are in single digit percentiles. He will go into your herd with the capability of doing a bit of everything and do it quite well, from carcass to growth to a highly maternal set of numbers. His dam is no stranger to performance either. She posts the #4 MPPA in the GMRA herd of 107 on seven calves. She is the dam of GMRA Deuces 2222, who was featured as Lot 5 and was the 2nd high seller in our 2013 bull sale to Nine Mile Red Angus of Walla Walla, WA. He comes from the highly maternal Pridstom cow family, and you can trace his maternal line clear back to a 1956 born female with a three digit registration number before you find an MPPA in the direct lineage that is under 100. When evaluating, he received our highest rating for thickness and muscling, coupled with well above average depth and capacity. Feet and leg structure were rated at excellent. This bull will be a Game Changer.

Herdsmen is a super solid heifer bull candidate with top notch performance. A 69# BW was taken all the way to growth ratios of 104, including an ADG of 104. Carcass scans were above average as well with an IMF of 103 and a REA of 115 which is tied for #2 in the class. His actual REA scan ties for 5th. 13 of his EPDs are in the top 1/3rd of the breed or higher, with the 2nd highest HB and STAY. There is a classic heifer bull look, with a smooth shoulder and a fantastic profile all sitting on an excellent feet and leg structure.

Jurisdiction has kept an eye towards performance from the moment he hit the ground. A moderate 84# BW has gone on to the 2nd highest actual yearling weight of all bulls on test. ADG is tied for 2nd with a 117 ratio, and WDA ratio is 109 and is tied for 4th. Seven EPDs are in the top 10% of the breed or higher with one of the best STAY's in the offering. His dam has an MPPA of 105, producing outstanding bull calves that have all gone on to be in the sale and every heifer calf has been retained as a replacement. There is maternal power all through the pedigree with direct lineage MPPAs over 100 for over 60 years.

This heifer bull will add performance to any herd. Once he hit the ground he kept an eye toward performance. His YR is tied for 6th place in the offering, his ADG ratio of 115 is tied for 5th and his WDA ratio of 110 is tied for 2nd. Over three-quarters of his EPDs rank in the top 1/3rd of the breed or higher and his HB index sits at #5 of all bulls on test. His young dam is posting a 103 MPPA and her dam has a 106. Phenotype is all there with above average length with a great muscle pattern, capacity and thickness. This is the type of bull that can give calving ease without sacrificing gains.

Connery turned in the highest actual 205 day weight, which adjusted to the 3rd highest in the offering, giving him the #3 WR, followed up by the 3rd best actual YW. He also turned in top notch carcass scans. It's not surprising that the performance is all there when you look at the pedigree. His dam is from the great Nexa cow family and has an MPPA of 106 and she is backed up by a solid maternal pedigree of MPPAs ranging from 101 up to 108 going back over 20 years. There is a ton of length and above average thickness all wrapped in a beautiful cherry red hide. Half of the EPDs are in the top 10% of the breed or higher. No holes here.

There is a lot that this Declaration son brings to the table. Maverick was born a single but ended up having to be grafted to a new mama so you won't see any ratios. He overcame much diversity and turned in the 2nd highest adjusted 205 day weight of any bull born of a bred heifer and went on to turn in a well above average YW. His genetic dam would have been one to watch, with both her dam and grandam posting 105 MPPAs. His number profile is top notch with almost half of the EPDs in single digit percentiles – wow! His YW, ADG and MILK are all in the very top of the offering. He has great thickness and is structurally correct.

Rare Breed shows what the right combination of breeding can do. He has it all, taking a moderate BW to outstanding personal performance. He turned in a nice suite of carcass scans as well. The genotype is top notch with 10 EPDs in the top 25% of the breed or higher and six of them are in single digits, including both indices, growth, gain, and a MARB sitting at the top of the offering. His maternal pedigree is in the top of the GMRA herd, filled with consistent high performance MPPA's going back five generations. One look at the bull's phenotype and you know you have a complete package. He carries above average depth and capacity and thickness combined with tons of length. Here is one of the most complete bulls you will find all spring!

If you sell pounds at weaning, look no further! Professional turned in the 2nd highest actual 205-day weight and the #1 actual yearling weight. His adjusted YW sits at #2, giving him the #2 YR. ADG ratio is 115, tied for #5 and his WDA of 3.44 is #1 in the class. An IMF ratio of 148 and REA ratio of 106 round out one of the highest groups of ratios of all bulls on test. His EPD profile matches up with a WW tied for #3 and single digit percentile GM, WW, YW, ADG, and MARB. Length and capacity are above average with extreme thickness and muscling. He has a square butt and top with a nice broad chest floor. Put the Professional to work for you!

This bull's young dam is off to a great start here at GMRA, with an MPPA of 106 on two calves. Benevolent is tied for the #3 YR, with the #3 adjusted yearling weight. His ADG ratio is 113 and WDA is 107, which is tied for 5th. The number set is very impressive with over half of his EPDs in the top 20% of the breed or higher, with outstanding carcass and growth numbers. Performance is matched by a phenotype with plenty of thickness and capacity, a great rear quarter and a nice square top.

This bull is sitting at the top of the class in personal performance! His adjusted 205 day weight is #2 overall, and #1 out of a bred heifer and his WR is #1 of all bulls on test. His adjusted yearling weight is #1 of all bulls as is the YR. ADG ratio is 112 and WDA is #1 at 116. And all of this started at 84# out of a first calf heifer! The EPD profile doesn't lie: WW, YW and ADG are all #1 in the offering, CW sits at #3 and GM is tied for #1. 1/3rd of his EPDs are in the top 1 or 2% of the breed! Cool Hand Luke is one of the most complete Declaration sons we've seen. He carries outstanding length and capacity and has extreme thickness. This all comes off in a well put together package with excellent feet and legs. Absolute powerhouse of a bull!

They say consistency is the sign of a good athlete. Providence turned in a 103 ratio for WR, YR, ADG and WDA. Over half of his EPDs are in the top 18% of the breed or higher with eight in single digit percentiles, with an emphasis on growth and marbling. Evaluation notes were: meat wagon, big butt, straight smooth stride, super calm, great capacity and thickness.

Here is a performance minded Redemption son with a great REA scan. He ties for the #2 actual REA, with the 4th best adjusted, turning in a 114 ratio. He also ties for the #4 FAT ratio. Lots of power in the growth and carcass EPDs with a REA EPD in the top of the breed, backing up the scan data. Dam has a 104 MPPA and the grandam is donor cow, GMRA Larkoba 517, who is the #1 MPPA female in the GMRA herd. This bull has a really nice rib shape with lots of thickness.

Here's a great birth to growth spread bull. A moderate BW resulted in above average gains. His calving ease EPDs are in line with his moderate birth weight, and follow through to breed leading growth and carcass, which also are in line with personal performance. He is a product of the great Estonia cow family, going back to the dam of GMRA EBV 266. He was one of our highest scoring bulls for phenotype and has an excellent set of feet and legs.

Here is an all-around Brunswick son that has a moderate birth weight with excellent personal performance. He has an outstanding number profile with 12 EPDs in the top 1/3rd or higher, including breed average or better birth. Growth numbers stay in the top 10% and he has top notch carcass numbers. The maternal pedigree is full of MPPAs over 101, including a dam with a 102.

Aurora is one of those bulls that carries that classic 'Power Bull' look we really like. He is an absolute meat wagon, with a broad square top and rear quarter, and a well formed shoulder with beautiful muscling. His WR is #2 in the entire offering and his adjusted 205 day weight is #1. His YR is tied for #6 and his adjusted yearling weight is #6 as well. His WDA ratio is 107 and is #5. The EPD profile backs up the power with growth and CW and REA all in the top 3% or higher. He is out of an outstanding dam with an MPPA of 109. She sold in last December's Big Sky Elite sale as the GMRA high seller to Northern Lites of Opheim, MT. Her first calf was featured as Lot 2 in our 2018 bull sale. If you keep going back through the maternal lineage there are generations of performance all over a 102 MPPA, including the dam of GMRA Vermillion 796. Purchase with confidence!

This bull was born almost three weeks early. His twin didn't make it, but he was a survivor and never looked back. He has the lowest actual BW in the offering and turned in an ADG ratio of 100, which may be herd average, but is pretty impressive considering the start he had. His IMF scan was well above average. He turns in an outstanding set of numbers with over half in the top 20% of the breed or higher. He has the best HPG of any bull in the offering. Top notch MARB and REA EPDs help place his GM at the top of the breed. He is a smooth made bull with a super profile and a nice disposition to match.

This bull has the #1 actual IMF scan in the offering with a ratio of 148. An impressive seven EPDs are in the top 3% of the breed or higher making him an absolute growth and carcass specialist. His young dam already posts an MPPA of 103 and is the product of a lineage full of maternal power with MPPAs going up to 106 through 1956. All of this is packaged in a beautiful cherry red hide with a ton of thickness.

This bull is the proud owner of THE most consistent set of EPDs in the offering. There are only two numbers that are not in the top half of the breed and one of those is HPG at 53%. If you are looking for a bull that can go into your herd, service either heifers or mature cows, and not be a detriment to any of your EPD profiles, this is it! He will not set you back anywhere. And he's got the conformation to match. Extreme eye appeal with a ton of thickness and muscling and a very strong rear quarter. Feet were evaluated as excellent. Here is a very complete bull, from genotype to phenotype. Bid with confidence!

This is an outstanding New Direction x Trilogy combination. Comments at evaluation pretty much sum up what we look for: Meat wagon, square quarter, straight, square top, big nuts, above average in length, capacity and thickness. Growth ratios are right in line with consistent growth EPDS, as are the carcass scans and EPDS. Dam raised GMRA Trigger 7216, who sold to Lamine Valley Red Angus of Pilot Grove, MO, in 2018. Grandam is the dam of GMRA Duplex 4201, who sold to Accelerated Genetics in our 2015 bull sale. Good bull with a strong set of numbers and lots of powerful bulls in the lineage.

There is a nice set of numbers backing up this Trinity son. He has 10 EPDS in the top quarter of the breed or higher with five in single digit percentiles. His CED and BW guarantee calving ease, yet he keeps the growth numbers in that top set of EPDS as well. Carcass numbers make this one of the most well rounded sets of EPDS in the offering. It's not just numbers - the phenotype is all there, with a straight broad top and above average length and thickness. Note that this bull is a twin.

There's always a good reason if we keep a bull with this type of birth weight. He has turned in outstanding growth, including a 106 WDA and ADG ratio. His carcass scans were excellent with an IMF ratio of 118, REA of 111 and FAT of 104. Half of his numbers are in the top 12% of the breed or higher, with seven of those in single digits percentiles, featuring awesome growth, carcass, HB and GM. The maternal background is the impeccable Pridstom family with a straight lineage full of MPPAs over 100 going back over 60 years. Pounds make profit and this bull carries a ton of meat, with a square butt, and above average length, capacity and thickness. Very solid performance minded bull.

Here is the owner of the highest IMF ratio in the offering at 159! He also turned in a nice REA ratio of 105. Numbers match up with a REA and MARB EPD right at the top of the breed. His BW EPD is in the top 1/3rd of the breed and he keeps top notch growth numbers. His maternal brother was the #3 high seller in last year's sale, selling to Ostendorf Red Angus.

Here's a top heifer bull prospect that took a 68# BW to well above average WR, YR, ADG and WDA ratios. Half of all EPDs are in the top 15% of the breed or higher. Despite that low BW there is an emphasis on growth and ADG as well as CW. Dam is a first calf heifer with an MPPA of 102 with a direct lineage showcasing MPPAs all the way up to 108 for 5 generations. Lots of capacity and thickness back up the growth profile. **QUALIFIED**

This calf is a twin without ratios, but when calculated he would have turned in a 102 WR and a strong IMF. Eight EPDs are in the top 10% of the breed or higher with an emphasis on growth numbers. Dam has an MPPA of 108 on 10 calves that ranks #3 in the GMRA herd. In 2017 her bull calf was featured as Lot 6 in the sale and sold to Mike's Red Angus of Geddes, SD. This bull has a great phenotype with a straight broad top and above average length and he's a nice dark red. This all sits on a very good feet and leg structure. **QUALIFIED**

Here is a very well put together Declaration son that is very smooth made with a nice straight top and above average thickness, capacity and length. Half of all EPDs are in the top 11% or higher. Escalation will elevate numbers no matter what you are looking to do. He excels in growth, carcass and maternal traits, leaving nothing to chance. If this bull is any indication, his young dam should follow in her family footsteps. The grandam has an MPPA of 108 and is the dam of GMRA Tripoli 5250, featured as Lot 4 in our 2016 bull sale and selling to Bar Open A Red Angus of Hamer, ID. Following the maternal lineage there are MPPAs ranging all the way up to 108 going back to a 1997 born dam. This bull is very well put together and smooth and ranks above average on all evaluated physical traits.

Here's a solid performer that turned in the #3 adjusted REA with a ratio of 114. Carcass EPDs are the order of the day, with all of them in the top quarter of the breed or higher, and several in single digit percentiles. Growth is cutting edge as well. An impressive third of his EPDs are in the top 1-2%. Super nice bull with above average capacity and thickness and extremely correct feet and legs.

Red Foxx showcases a very impressive set of numbers. He has the lowest BW EPD in the offering yet keeps his performance numbers well in line while his carcass numbers stay strong. He has a great heifer bull look: small head, clean front, very smooth shoulders. He is very well put together with a super straight top line combined with a great rear quarter and above average capacity.

Here's a great heifer bull prospect with an outstanding set of numbers combined with a super phenotype. Half of his EPDs are in the top 14% or higher, with a nice birth to growth spread and a top notch set of carcass numbers. There is a lot of maternal power with MPPAs ranging all the way up to 108 for 5 generations. His grandam had our featured Lot 5 bull, GMRA Winchester 6238, in the 2017 sale. Extreme capacity and thickness with a broad chest floor complements above average length. **QUALIFIED**

This Brunswick son is a maternal brother to GMRA Longmire 7234, who was featured in last year's sale as Lot 5, and sold to Northern Lites. He carries all the eye appeal of Longmire and has an unbeatable EPD profile. 12 of his numbers are in the top quarter of the breed, and half are in the top 16%. His GM is tied for the 4th highest in the offering and his MARB EPD sits at #2. He shows a very nice profile with a straight broad top, a nice barrel shape to his rib, and a ton of muscling in the rear quarter.

Extreme goes back to a three digit registration number dam born in 1956 with MPPAs as high as 106 throughout. Generations of maternal power back up the performance that accelerated throughout test, resulting in an ADG ratio of 110. His actual REA scan is tied for #2 in the offering. He combines top notch growth numbers, including a WW EPD tied for 4th in the offering, with a beautiful phenotype. The comments on this bull's evaluation were: Very thick, stout made, big nuts, dark red, damn nice bull, good disposition. Marks were way above average for capacity and thickness. Top notch pedigree, performance and composition all in one package.

This twin has the third lowest actual BW in the offering and took that to a calculated YR of 103. His ADG of 3.57 is the 2nd best of the entire group with a WDA that is well above the average. Half of his EPDs are in the top 20% and most of those are in the top 10%, with an emphasis on growth. He also has the 2nd highest HPG in this year's class. He is a beautiful cherry red with a ton of thickness and a deep quarter with a nice topline.

Great conformation on this bull, showcasing a ton of thickness. He is super stout and carries it well with above average length and capacity. This is complemented by a terrific suite of EPDs with eight in the top 20% or higher. His WW is tied for 4th in the offering. To top it all off, he is a beautiful cherry red.

Even though this bull is a twin not showing ratios, all of his calculated weight gains place him right in the middle of the pack, with an above average ADG. He comes from the highly maternal Pridstom cow family, and you can trace his maternal line clear back to a 1956 born female with a three digit registration number before you find an MPPA in the direct lineage that is under 100. This is all put together in a stylish package with above average length and thickness with a solid base and a nice straight top. **QUALIFIED**

If you are looking to moderate cow size while maintaining tons of structure and shape, this is the bull you want. He is an absolute fireplug with extreme depth and capacity with a nice broad chest floor. He is broad across the top and carries a ton of thickness. A very nice feet and leg structure round out the phenotype. His numbers are outstanding with over half in the top quarter of the breed and 1/3rd of his EPD suite in single digit percentiles. He covers it all! **QUALIFIED**

This bull is a twin but if he would have ratioed with contemporaries he would have turned in an above average WR, YR, ADG and WDA. His dam has an outstanding MPPA of 111 on 2. Her first two calves turned in WR of 110 and 111 and YR of 119 and 121. This bull has 10 EPDs that rank in the top 1/3rd of the breed or higher, with an emphasis on growth and carcass.

This bull is not showing any ratios because his mom had to be culled due to mastitis, so he was raised as a graft. His genetic dam posted a 105 MPPA during her career. His grandam has a 103 MPPA and raised many top end bulls for us, including GMRA Peacekeeper 5207, who sold to Accelerated Genetics for \$18,000 in 2016.

This Declaration son is a maternal brother to GMRA Tesla 6214, featured as Lot 4 in our 2017 bull sale, selling to Select Sires for \$15,000. Tesla was #5 in Red Angus sales for Select in 2018. This bull is reminiscent of Tesla, with above average length and thickness. His EPD profile keeps an emphasis on growth, marbling and ribeye.

There is a lot of performance in the youngest bull in the offering. His dam has an MPPA of 103 and is the dam of GMRA Absolution 6201, who was featured as Lot 2 in our 2017 sale, selling to Leland Red Angus for \$10,000. Absolution has been put into rotation here at GMRA as one of our top AI sires. There is a nice set of numbers rounding him out, with half of them in the top 16% or higher.

This twin is out of an outstanding dam with an MPPA of 111 on two calves. He has no personal ratios, but her first two calves turned in WR of 110 and 111 and YR of 119 and 121. This bull turned in a nice IMF scan that would have placed his ratio around 130. Lots of powerful EPDs complete the picture.

Extreme growth in the feedlot places his ADG ratio of 117 tied for 2nd in the offering. A nice set of carcass scans verify the number profile that make him a carcass specialist. Over half of his EPDs are in the top 20% of the breed or higher.

This Absolution son is a very smooth made, super nice heifer bull. He has an impressive number profile with outstanding, CED, BW, CEM and carcass numbers. He features above average capacity and thickness all carried on a great feet and leg structure.
