Sight Unseen Purchase Guarantee
 Sale Day Phone - (406) 423-7500. Buyers unable to attend the sale may call or send their bids to any of the Representatives listed or directly to Stevenson Angus. We provide a complete satisfaction guarantee for cattle purchased in this manner. When cattle purchased "sight unseen" are delivered, the buyer can inspect the cattle. If they are not as represented, simply put them back on our truck.

Announcements
 Announcements from the auction block take precedence over any printed material.

Herd Health
 All cattle sell with proper interstate shipment health papers.

Delivery
 See our bull delivery policy on page 6. For all cattle purchased over the phone or through Superior, Stevenson Angus will be in contact following the sale to arrange delivery. Full payment required before delivery of cattle.

Payment
 Payment is due at time of sale and no livestock shall be delivered until payment is received in full or other arrangements are made in writing. In the event Seller incurs attorney fees and costs for collection of payment, Purchaser shall pay the purchase price, interest at the statutory rate and all costs and attorney fees for collection. Past due accounts will be subject to 2% interest per month.

Inspection of Cattle
 Our cattle are available for inspection at the Ranch any time.

Terms & Conditions
 The cattle sell under the suggested terms and conditions of the American Angus Association.

Accommodations
 The following motels are located in nearby Lewistown. For reservations, contact either the Stevensons or the motel of choice.
 Yogo Inn 1-800-862-5786
 Calvert Motel 406-535-5411
 Super 8 Motel 406-538-2581

Home of America's Longest Established Annual Bull Sale

Fellow Cattlemen,

It is with great pride and appreciation that we invite you to our Annual Spring Production Sale. Grandpa Jamie purchased his first Angus heifers 72 years ago, in 1947 and with that the start of Stevenson Angus Ranch. This will mark our 58th consecutive year of bull sales.

In that span of time, we've seen a lot of changes within the industry and the Angus breed. Some trends were short lived and fads came and went. The overwhelming mainstay and strength of the entire industry eventually realized the importance, value and functionality of the Angus cow. Nothing is more important, period. Combine that with the ongoing evolution of performance and genomic data, the industry has created a fast paced, new age generation of cattle.

We couldn't be more proud and more confident with our herd's progression. The fact is these cattle can do more, faster than ever before. Balance that with disciplined stockmanship and you can literally see the transformation taking place. More important today than ever is attention to the basic functional traits of foot soundness, disposition, fleshing ability, fertility and maternal function. There's a lot of fancy data in the business today. We don't formulate mating decisions by lining up the math, but rather aim to be complimentary with multiple traits considered, phenotypic and genotypic. We aim for optimum balance and this offering represents our foremost effort.

This is an exciting set of bulls to sort through. There is a large selection of calving ease bulls and performance cattle all with attention to carcass merit. Shop and compare, you will search long and hard to find BETTER BULLS that will sell at a BETTER VALUE.

We're extremely confident with this offering and certain you will be as well! We truly welcome your visit and appreciate your continued support and interest.

Keith

Darrell

Bob

Jake

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-20 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	21	Docility	12
Birth Weight	13	Heifer Pregnancy	10
Weaning Weight	19	Mature Weight	13
Yearling Weight	22	Carcass Weight	10
Milk	14	Carcass Marbling	9
Yearling Height	11	Carcass Rib	11
Yearling Scrotal	14	Carcass Fat	12
Dry Matter Intake	18		

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD). These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

www.angus.org

How to Read the Sale Lot Information

Expected Progeny Difference (EPD) is the estimate of how future progeny of each sire are expected to perform in each of the traits listed. EPD is expressed in pounds, either plus or minus. For example, when used on the same cows, calves sired by a bull with a +50 weaning EPD should average 10 pounds more than those sired by a bull with a +40 weaning EPD. We have calculated interim EPDs for cattle that do not yet have official EPDs. EPDs are current as of catalog printing. Updated EPDs can be viewed at www.angus.org

Calving Ease Direct (CED) EPD

is expressed in percentage of unassisted births, predicting the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth (BW) EPD

is a predictor of progeny birth weight attributed to the parent.

Weaning (WW) and Yearling (YW) EPDS

are predictors of the animal's ability to transmit weaning growth and yearling growth to its progeny.

Milk EPD is a predictor of an animal's genetic merit for milk and mothering ability.

Scrotal Circumference (SC) EPD

expressed in cm., is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

SW	65.78	SF	77.29	SG	14.02	SB	140.97		

Index values are expressed in dollars per head

Weaned Calf Value (\$W) is the expected average difference in future progeny performance for preweaning merit and includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Feedlot Value (\$F) is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires.

Grid Value (\$G) is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B) is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

Carcass Weight (CW) EPD

is expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling (Marb) EPD

is expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area (RE) EPD,

expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness (Fat) EPD,

expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib of a sire's progeny compared to progeny of other sires.

Calving Ease Rating (CE)

- ★★★★ Excellent calving ease, use with confidence on any type of heifers.
- ★★★ Superior calving ease, should work with most heifers and most situations.
- ★★ Moderate calving ease, most people will use these bulls on cows, but they can be used on heifers if calving ease is of less concern.
- ★ We recommend these bulls just for use on cows.

Cattle Delivery

We encourage all of you to stop by and coordinate delivery plans before leaving the Sale. If you are buying off-site, please let us know of any special instructions as soon as you can. Otherwise, we will contact you regarding date of delivery. Your cooperation in taking delivery is greatly appreciated.

Bull Delivery

We are happy to announce that after 50+ years of selling bulls, we are still delivering in Montana for free. We charge a nominal delivery charge for the surrounding tiers of states. Please use the map below to determine this charge. We would like to emphasize that we do our best to keep delivery costs to a minimum and we are offering a volume discount if you can assist in creating full loads with minimal drops.

The delivery cost will be added to invoice at check out.

We will continue to offer a pickup credit of \$100 per head for all bulls picked up within 7 days of the sale.

To our neighbors to the north, we are happy to bring you your bulls, however due to increasing scrutiny at the border, having the Canadian resident present, eases the process. If meeting at the border is not possible, we ask to share in a portion of crossing fees. For that reason, we are charging \$100 to our Canadian friends. Thank you for understanding.

FIRST YEAR BREEDING GUARANTEE

In lieu of a commercial "loss of use" policy, we would like to offer our own First Breeding-year Guarantee. For bulls selling for \$5000 or more, and does not complete a full breeding season, we will share in the replacement cost up to 50% of the value of the injured bull. Breeding season is defined as 90 days after turning out the bulls.

50% of the value of the injured bull, minus salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2019.

Example 1: An \$8,000 bull is injured, a credit of \$4,000 minus any salvage value will be given to the buyer.

Example 2: A \$6,000 bull is injured, a credit of \$3,000 minus any salvage value will be given to the buyer.

Example 3: A \$4,000 bull is injured, no credit is given. Buyer retains all salvage value.

Applicable credits honored from our Breeding Guarantee are to be used within one year of submission.

STEVENSON ANGUS RANCH

REWARDS

We would like to offer two forms of discounts, one to our faithful year-in and year-out customers and the other to our volume purchasers.

LOYALTY REWARD

We honor our customer's loyalty with a 5% discount on every bull purchased by any single customer that has purchased bulls in TWO consecutive sales prior to this offering. In order to qualify, purchases need to have been made from both of our sales in Hobson from the Fall 2018 and Spring 2018 offerings.

VOLUME REWARD

In respect to our volume purchasers, we would like to offer a 50% discount on delivery cost to buyers of 10 to 19 bulls. For anyone purchasing 20 or more bulls, complete delivery is for free.

Any and all discounts will only be honored with full remittance of purchase payment on sale day. Discounts are only applicable to bull sales.

Female purchases are not subject to the Stevenson Angus Rewards offer.

Applicable credits honored from our Breeding Guarantee are to be used within one year or two sales after submission.

Bull mortality and ASD coverage-- in case you need it.

PayneWest
INSURANCE

PayneWest offers a unique one-year policy for 10.3% of the purchase price on bulls valued up to \$1,000,000 with 100% mortality payout, 80% accident sickness or disease (ASD) claim payout.

- Impressive balance, WEIGH UP was introduced into our breeding program as a bull to add performance, carcass and maternal. He is doing just that!
- Moderate BW with explosive growth, WEIGH UP progeny excel for every measurable traits.
- This is our fifth calf crop by WEIGH UP. His sons continue to be a top-performing sire group with outstanding interest. Our oldest daughters are now on their third calf and proving to do an impressive job. They are moderate framed with good udders.
- Added volume and substance with a moderate mature frame.
- What might be most impressive about WEIGH UP are the 'unmeasurable' traits that we've witnessed and go unnoticed by the data base and EPD ranking system. For natural service, we multiple bull breed nearly every group of females. After three years and in testing several sons, we've noticed incredible breeding stamina. They are tremendously athletic with hardly an injury. Through parental DNA testing, we have discovered their breed up in competition with older bulls is very impressive. This breeding vigor and ability to hold-up has big value.
- Structure and soundness – WEIGH UPs are impressively athletic with good feet.

Stevenson-Easy-Money-70688

son of WEIGH UP

- Sire summary standout, his data continues to strengthen offering breed leading performance and \$ Values.
- One of the truly elite bulls of the industry, WEIGH UP continues to separate himself as an all-around breeding bull.
- Sire of sires, through his sons and daughters WEIGH UP will longtime be considered a monumental influence within our program

- New generation herd sire, CATALYST 60554 exemplifies the optimum balance we aim for. He checks all the boxes while improving phenotype, body dimension, structural soundness and maternal opportunity.
- From one of the most legendary flushes created at Stevenson Angus, CATALYST 60554 and four full brothers were retained for in herd use. This offering proudly displays their breeding prominence.
- Superb maternal legacy, his dam is from the prevalent herd bull producing PRIDE cow family. She is a sister to STEVENSON ROCKMOUNT RX933, STEVENSON HERO I216U and STEVENSON CE DELUXE 1914.
- Full brother to \$70,000 featured GENEX sire STEVENSON TURNING POINT.
- Full brother to \$37,500 high selling two-year-old from Fall 2017 Sale STEVENSON PREMIUM 60374 selling to Joseph Angus, SD.
- Maternal brother to \$28,000 high selling two-year-old from Fall 2014 Sale STEVENSON TEMPLETON 3308 to VinMar Angus, NE now featured at BEEF 360.
- Tremendous maternal, expect his daughters to be the foundation kind!
- Multi-trait leader for calving ease and performance
- Fault free design, clean fronted, powerful hip and big bodied
- Athletic, easy fleshing and graceful in motion

Stevenson Angus Reference Sires

Fortress

- One of the most elite spread bulls in the Angus breed with high accuracy data you can rely on
- A proven calving ease sire that consistently sires strong-topped cattle with added depth of body and extra performance
- Calves are born light and easy, they display extra vigor and are all black
- His first daughters reported are stellar, having a brood cow appearance with excellent udder design
- Sons have created a lot of interest from both the commercial and purebred sectors
- Multiple trait leader offering a fresh pedigree to many of our bloodlines

Yearling Bulls

These yearling Angus bulls represent our most progressive genetics born and are primarily out of first-calf-heifers. We have tried to put together a large selection of calving-ease bulls for your next year's calf crop.

Weaning weights were taken in September and yearling weights were taken the last week of January. EPDs are accurate to the day of sale book production.

These bulls are guaranteed breeders. They have all passed a breeding soundness evaluation including a semen test.

Retained Interest - we are selling Full Possession and 2/3 revenue-sharing interest in every bull in this sale. The bull you purchase is completely in your control regarding how you handle the bull and your natural service use. You receive 100% salvage value of the bull. Retaining 1/3 revenue-sharing semen interest simply allows Stevenson Angus the right to share in collection of semen, use of semen in our herds and the right to share in semen sale revenue if semen sales become a possibility.

Realistically, we will collect semen on a very small percentage of the bulls selling. It will be an even smaller number of bulls that will market semen. However, we realize that many promising bulls are identified after they have proven themselves in natural service. If you have any questions or concerns about our retained interest policy, please contact Stevenson Angus.
