**Expected Progeny Difference (EPD)**, is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

**Accuracy (ACC)**, is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

### GROWTH

**Calving Ease Direct (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Residual Average Daily Gain (RADG)**, feed efficiency expressed in pounds per day, is a predictor of a sire's genetic ability for postweaning gain in future progeny compared to that of other sires, given a constant amount of feed consumed.

**Yearling Weight (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires. Yearling Height (YH), is a predictor of a sire's ability to transmit yearling height, expressed in inches, compared to the that of other sires.

**Scrotal Circumference (SC)**, expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

**Docility (DOC)**, is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility in a sire's offspring compared to another sire.

### MATERNAL

**Heifer Pregnancy (HP)**, is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction, and the EPD is reported in percentage units.

**Calving Ease Maternal (CEM)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

**Maternal Milk (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

**Mature Weight (MW)**, expressed in pounds, is a predictor of the difference in mature weight of daughters of a sire compared to the daughters of other sires.

**Mature Height (MH)**, expressed in inches, is a predictor of the difference in mature height of a sire's daughters compared to daughters of other sires.

**Cow Energy Value (\$EN)**, expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when

comparing two animals. Components for computing \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

### CARCASS

The genetic evaluation produces a single set of EPDs for carcass traits where the units of measure are in trait format and analyzed on an age-constant basis.

**Carcass Weight (CW)**, expressed in pounds, is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

**Marbling (Marb)**, is expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

**Fat Thickness (Fat)**, expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

### FOOT SCORE

**Claw Set (Claw)**, is expressed in units of claw-set score. A lower EPD is more favorable, indicating a sire will produce progeny with more ideal claw set, which is toes that are symmetrical, even and appropriately spaced.

**Foot Angle (Angle)**, is expressed in units of foot-angle score. A lower EPD is more favorable, indicating a sire will produce progeny with more ideal foot angle, which is a 45-degree angle at the pastern joint with appropriate toe length and heel depth.

### \$VALUE INDEXES

\$Value Indexes, reported in dollars per head, are multi-trait selection indexes where a higher value suggests more profit. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires if sires were randomly mated to cows and if calves were exposed to the same environment.

**Maternal Weaned Calf Value (\$M)**, expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

**Weaned Calf Value (\$W)**, expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. Increased selection pressure on \$W increases weaning and maternal milk traits while increasing mature cow size.

**Feedlot Value (\$F)**, expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

**Grid Value (\$G)**, expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

**Beef Value (\$B)**, expressed in dollars per carcass, represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase, and market these animals on a quality-based carcass grid

**TERMS AND CONDITIONS:** All cattle sell under the suggested terms and conditions of the American Angus Association. A copy is available at our office.

**ANNOUNCEMENTS:** Announcements from the block take precedence over any printed matter.

**VOLUME BULL DISCOUNT:** 5 or more bulls will get a 2.5% discount, 10 or more bulls will get a 5% discount.

**VOLUME HEIFER DISCOUNT:** \$500 will be deducted for anyone purchasing 40 head or more commercial heifers.

**SIGHT UNSEEN PURCHASE GUARANTEE:** Buyers unable to attend the sale may call or send their bids to Ron, Greg, or any of the representatives listed above. We provide a complete satisfaction guarantee for cattle purchased in this manner as with all cattle selling in this sale.

**HERD HEALTH:** All females have been vaccinated for brucellosis. All cattle sell with appropriate health papers for interstate shipments. All two-year-old bulls have been fertility tested prior to the sale. Our veterinarian Dr. Kelly Hall will be available on sale day to answer any questions you may have.

**DELIVERY:** Free delivery on all bulls selling in the Western United States, rest at cost.

**WINTERING:** Wintering arrangements are available on all two year old bulls for \$300 per head until April 1, 2020.

**RETAINED INTEREST:** KG Ranch is retaining a one third revenue sharing semen interest in each bull selling in the sale. Full Possession and full salvage value sells on all the bulls.

**LIABILITY:** All persons who attend the sale do so at their own risk, and KG Ranch assumes no liability, legal or otherwise, for any accidents which may occur.

**FIRST BREEDING SEASON GUARANTEE:** KG Ranch provides a first breeding season guarantee, if the bull you purchase fails to be a breeder or dies during the first breeding season, KG Ranch will credit you purchase price minus the salvage value in the next year sale or the spring private treaty sale, which ever the buyer prefers.

**ACCOMMODATIONS:** Upon request, we will be glad to make reservations for you.

## *Welcome to the annual KG Ranch production sale.*

First and foremost we would like to thank our crew for their hard work and dedication to the KG Ranch operation. The winter of 2019 presented many challenges for us and those in the ranching community; it will be one that will be remembered for generations. As the year draws to a close the cattle markets in general seem to be finding their footing. The demand for good bred stock cows increases every day and the bull end of the seed stock business continues to be healthy as commercial cattlemen understand the value of a quality product for their buyers. A live healthy calf, pounds at weaning time and a uniform calf crop will always be in demand.

This year's offering of bulls has excelled from day one and we think you'll be impressed come sale day. Our home raised KG Justified sire has done an excellent job here at KG Ranch, and at the other owners operations: Gartner Denowh Angus Ranch and Arntzen Angus Ranch. Justified will continue to be used across the country as he is a complete no holes sire. Justified has made his mark at the above mentioned breeders by siring the top selling groups on any given year. In 2018 at the KG Ranch Sale Justified sired the top selling bull purchased by Hinman Angus.

Other headlining sires are Sitz Asset, Sitz Reponse, and HA Double 07. Asset and Reponse are flush brothers that bring in a new blood line for us, SAV Resource. Asset is a power sire that has few equals in putting pounds on the ground at shipping time. Response is an elite heifer bull that sires eye appeal and outstanding females. Double 07 was purchased to carry on our High Regard line of cattle that have worked extremely well here at KG Ranch.

The bred heifers will once again be a sale feature and will not disappoint. We will also offer all of our 2011 model cows, cows that have served us very well, and have plenty of productive years ahead of them.

Each year we look forward to seeing our repeat customers and our friends. It is the highlight of the sale. We are grateful to each and everyone of you that have placed so much faith in our breeding program. If you are a new customer please introduce yourself. We would be happy to learn about your program, and answer any questions you may have about ours. We appreciate the relationships forged through our programs and would be grateful to add new names and faces.

We hope you can join us on December 6th and if there's a question please feel free to contact us.

# ABSENTEE BUYERS

## HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. **Please note that all of the lots in the sale will also be available for viewing online prior to sale day at [www.superiorlivestock.com](http://www.superiorlivestock.com).**

### HERE'S HOW IT WORKS

**Turn in Bids Over the Phone.** This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to [www.superiorlivestock.com](http://www.superiorlivestock.com) and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

**Click-To-Bid.** This is Superior's online bidding program for cattle buying. **Please note that high speed internet is required – this is not for dial-up or satellite internet.** Registration is free, but you must become a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to sign up. Becoming a member is easy – just go to the homepage of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

**Viewing the Auction.** The sale will be broadcast via satellite on Dish Network channel 997. *Please note that there is a delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on.* The sale will also be broadcast live on the internet at both [www.superiorlivestock.com](http://www.superiorlivestock.com) and [www.superiorclicktobid.com](http://www.superiorclicktobid.com). The video feed on the homepage of [www.superiorlivestock.com](http://www.superiorlivestock.com) looks the same as the video feed on TV and can be watched over a smartphone or tablet. Remember you can call in to bid whether watching on the TV or on the internet, but you must be a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to "click-to-bid".

**Buyers will be contacted by the ranch after the sale for payment and delivery details. IF YOU NEED ANY ASSISTANCE CALL SUPERIOR AT (800) 422-2117.**

 KG MISS MAGIC 6560

Owned with Gartner-Denowh Angus Ranch, Sidney, MT & Arntzen Angus Ranch, Hilger, MT.  
 Leased to Genex Cooperative Inc, Shawano, WI.

Justified topped the 2014 KG Ranch Annual Bull Sale and has been instrumental in the success of each owner's sale since the first calves hit the ground. His pedigree combines three sires that have played a large part in the genetic make of the KG Ranch cow herd, Connealy Judgment, Sitz Wisdom and KG Traveler 8180 8171. Justified is an excellent calving ease sire with plenty of growth. His daughters excel in maternal traits and are some of the best young cows in the breed today. Justified has built an impressive EPD profile that ranks him in the top 1% \$M, Claw; 2% Angle; 3% BW; 4% \$W; 5% SC; 10% MB & HP, 15% \$G; 20% DOC, among parent sires. Justified excels in the newly developed epd for foot structure ranking in the top 1% claw and 2% Angle.

*Owned with JC Heiken and Sons, Broadview, MT & Sitz Angus Ranch, Dillon, MT.*

Asset is a powerful son of SAV Resource 1441 and out of the dam of Sitz Investment. Asset progeny possess more frame than most SAV Resource sons, and his progeny crush the scales at weaning. If you're looking for pounds on the ground look no further. Asset is a flush brother to Sitz Response 405C. Asset ranks top 1% Claw; 2% WW, 3% YW, CW; 25% SC; 10% RE; 20% \$W; 30% \$F; 35% Angle.

Owned with Cory Poser, Denton, MT & Sexing Technologies, Nasasota, TX.

Response is a flush brother to Sitz Asset. A moderate framed calving ease bull, he is sired by one of the breeds most popular sires, SAV Resource 1441. Progeny carry a lot of punch for a calving ease sire. Young daughters have the Montana mamma cow look to them. Response produces cattle that flesh up easy and can handle the tough Northern environment. Response ranks top 10% CED; 15% RADG; 20% BW, SC, Milk; 30% YW, Doc, Claw.

Owned by KG Ranch, Three Forks, MT

Countdown C219 was purchased from Vermilion Ranch as one of the top selling sons of Connealy Countdown, who has made such a strong impact on their program. The Countdown bulls are moderate at birth, have good growth and strong Dollar Values. Countdown C219 sons should be well accepted for their shape and style. Countdown ranks top Claw 10%; RADG, Doc 15%; YW 20%; WW 25%; CW, \$W 30%.

Owned with Hinman Angus, Malta, MT.

Double 07 is truly unique son of KG High Regard. The second-high selling bull in the 2016 Hinman Angus sale, Double 07 continues to work extremely well here at KG ranch. His dam is a moderate framed daughter of SAV Net Worth and is currently in the embryo transplant program at Hinman Angus. He is a moderate birth weight sire that ranks in the top 20% for WW & YW. Double 07 progeny have been very well accepted by the commercial cattlemen. Double 07 ranks top 15% Claw; 20% CW, \$W; 25% YH, Milk; 30% CED, SC, Doc.

*Owned with Mytty Angus Ranch, Florence, MT & Raymond and son Inc, Helix, OR. Leased to Genex Cooperative Inc.*

Source was the top selling bull at the Annual Mytty Angus Bull Sale in 2015. One of the most talked about bulls of the 2015 fall sale season, he was selected for his ability to transmit calving ease in the very popular SAV Resource line of cattle. Source sons have been very popular with commercial cattlemen, his progeny come easy, grow quickly and have a lot of eye appeal. Mytty Source ranks in the top 30% CED, WW, Claw; 25% BW, RE; 20% Fat; 10% SC.

Owned with Sexing Technologies, Navasota, TX. Sitz Angus Ranch, Dillon, MT. Raymond and Son, Helix, OR.

Dividend was a featured Barstow Cash son in the 2016 Sitz Spring Bull Sale. A big-time heifer bull prospect that has proved to be just that. Dividend is the perfect choice for large heifer projects, where labor is a factor. Dividend is one of the elite heifer bulls in the breed today ranking in the top 1% BW; 3% CED; 10% HP; 15% \$M; 25% RADG, Doc; 35% \$F.

Owned with Genex Cooperative Inc, Shawano, WI. Richard Ranch, Belfield, ND.

Topping the 2011 sale, Solution was the highest selling bull in KG history at the time. Richard Ranch selected Solution to be the cornerstone of their new registered Angus herd. His light birth and high growth EPD profile combined with excellent carcass traits attracted interest from around the country and the major AI Studs. Genex Cooperative Inc. purchased an interest in Solution the following winter. Solution sons have been popular where ever used and topped many sales. In 2015, Hilltop Angus and Accelerated Genetics teamed up to purchase KG Resolution 4042, the top selling son of Solution. Another of the first breeders to sample Solution was Himman Angus. HA Outside 3008 later sired the \$350,000 HA Cowboy Up. Solution remains one of the most popular sires in the breed today. Solution ranks top 10% HP; 15%, SW; 35% RE, SF.

Owned with Sitz Angus Ranch, Dillon, MT; Genex Cooperative, Shawano, WI.

First and foremost, Logic was purchased for his ability to add maternal strength. Logic's pedigree combines two of the greatest cow families ever to grace the pastures at Sitz Angus Ranch, the Everelda Entense and Forever Ladies. Both cow families have contributed mightily over the years throughout the entire Angus breed. Logic progeny are long, powerful cattle. Stamped in the same mold as their sire, his progeny are moderate at birth with tremendous growth. In 2015, Logic sired the second highest selling bull purchased by JC Heiken and Sons Angus, Broadview, MT. In 2016, Logic sired the top selling bull purchased by Richard Ranch, Belfield, ND. Logic ranks top 1% SC, Angle; 10% RADG; 20% YW, Milk, \$W; 30% WW; 35% \$F.

Owned with Sitz Angus Ranch, Dillon, MT.

Wisdom has been the cornerstone of the KG Ranch program for the past decade. When selecting proven Angus sires that check the box on every meaningful EPD, Wisdom comes to the top. Factor in feet, legs and structure and consider that his daughters in production are a body condition score better than the rest of their contemporaries, we believe he has few equals as a "complete" sire. Wisdom ranks top 2% Angle; 3% RADG; 5% SC; 25% YW, \$F, \$B; 30% CED, Marb, Claw; 35% \$G.

Owned by Adam Clark, Harrison, MT

Purchased as one of the top selling bulls in the 2013 sale, 2162 was an elite son of Connealy Contrast who is a foundation sire for KG Ranch. 2162 produces very sound, functional progeny with excellent feet and fleshing ability. KG Contrast ranks top 2% SC; 10% Milk, HP; 20% Claw; 25% BW \$W, Doc; 30% \$M; 35% CED.
