Welcome to the 2020 GDAR Bull Sale

All of us here at Gartner-Denowh would like to welcome you to our 2020 bull sale. We are very excited about the bulls in the sale this year, and we hope you will take the time to look at what we have to offer.

We would like to take this opportunity to thank all of our valued customers and friends who have supported us throughout the years. Without your continued support and faith in our program we wouldn't be in business today.

For the fourth year we are offering 250 replacement heifers along with the bulls. They are a great set of heifers that will make really nice cows and we encourage you to take a look at them. The bulls look better than ever. We have some exciting new bloodlines to offer this year, and top to bottom this set of bulls is more uniform and stout than ever before.

The bulls have all passed a breeding soundness and fertility exam performed by Dr. Gary Schieber of Sidney, Montana prior to the sale. The bulls were fed a high roughage, moderate gain ration to ensure structural soundness and longevity. As in the past, we have tried to gather as much useful information as possible to help you in your bull buying decision. If you would like any additional data that isn't in the catalog please log onto our website or contact us and we will get it to you.

Please feel free to contact us at any time if you have any questions about the catalog, our cattle, or our program. The bulls and heifers can be inspected any time, just let us know and we will be happy to show you around.

Thank you for your interest in our program, we look forward to seeing you on sale day.

Don't forget our pre-sale supper at 6:00 on Wednesday evening.

Sincerely,

The Denowh's

Welcome to the Gartner - Denowh Annual Bull Sale

If you saw or heard any of the GDAR advertising leading up to the sale you got a message about longevity in our industry. To be six decades into breeding registered Angus cattle is a tremendous accomplishment. To do so on the scale that GDAR has done it is phenomenal! Since they started performance testing in 1957, GDAR has marketed 8500 Bulls, had 41 bulls in A.I. Bull Studs and recorded nearly a quarter of a million records for birth, weaning, yearling and ultra sound. And as the ad states "Generations Of Satisfied Customers".

The Denowh family has cultivated a respect and appreciation that carries with it a no questions asked seal of approval from their customer base and the feeders that purchase their customers calves.

The GDAR bull sale always features large sire groups of bulls, allowing commercial producers the opportunity to purchase half and three quarter brothers. Consistency in your calf crop begins with buying bulls of like phenotype and genetic make up.

GDAR has always prided itself on focusing on the traits that are most important to their commercial customers. Live calves, weaning weight, maternal, calves with eye appeal and end carcass merit; just to name a few traits that are front and center at GDAR. As we approach the sale if I can be of any assistance in your preparation for this event please give me a call.

250 Replacement Heifers

Straight Out of the GDAR Program

Producing better cows generation after generation has been the goal of the GDAR program for 60 years. GDAR cows are functional, fertile, easy fleshing, moderate framed, feminine, and possess the genetics to produce profit at every stage of the beef industry. This is the chance to put some of these females to work on your operation.

Over half of these heifers are out of GDAR AI sires with the remainder being out of GDAR bulls. All heifers were raised at GDAR, most on the commercial operation, with a few being out of registered cows. They have a similar genetic package to the bulls selling, and all of the maternal excellence GDAR is known for.

All heifers sell as commercials. They will be sorted and lotted by size and will sell in lot order in groups of 5 or more. Approximate weights will be available to estimate load sizes. They can be viewed any time, they are only a few minutes from the ranch, and will be on location for sale day.

GDAR Donors

GDAR donors are a very elite group of cows. We only select 1 or 2 additional cows each year, and cows must prove themselves in our program before being considered.

We want our embryo program to produce females. We pick cows with the best udders, best feet, best look, and best production because we want daughters. While matings are picked to produce great females, we seem to end up with some exceptional bulls each year too. Look for the bulls with "Embryo Transfer" in the footnote, to access the most elite genetics here at GDAR.

Dollar value indexes, or \$Values, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

\$W Weaned Calf Value

Provides expected difference in preweaning performance from birth to weaning, assuming 20% of female progeny are retained.

\$M Maternal Weaned Calf Value

Predicts profitability from conception to weaning in a self-replacing herd model, replacing 25% of females the first year and 20% in subsequent generations. Cull females and all male progeny are sold.

\$B Beef Value

Represents the expected difference in postweaning and carcass performance. This index assumes all male and female progeny are weaned, retained through feeding and sold on a quality-based grid.

Starting the big contemporary group with one of the most eye appealing bulls in the sale. He was a standout since spring. This is the natural calf of the great Miss Wix donor cow, and she shows why we chose to flush her. Don't miss this herd bull prospect.

We start the 4th pen of bulls with one of the most impressive Leupolds in the sale. He scanned the largest REA in the entire sale and was one of the top at gain with a ratio of 122. Has the 4th largest \$W which puts him well into the top 1% of the breed, just check out his birth to yearling spread. His great grandam is the dam of the Heisman bull who stands at Select Sires.
