

OHLDE CATTLE CO.

Basic **BLACKS**

**BULL &
FEMALE
SALE**

APRIL 20, 2020

PALMER, KS

The No. 1 Source for Easy Fleshing, Maternally Efficient Angus Cattle

Welcome to Ohlde Cattle Company's 30th Annual Basic Blacks Bull and Female Sale. Given the COVID-19 pandemic and the difficulty that presents with holding a standard live auction, we are working out the details to conduct the auction primarily online through Superior Productions and Live Auctions TV.

As this sale book goes to print, we anticipate that the sale will be conducted at the ranch near Palmer, Kansas this year instead of at our usual Marysville location. We can't recommend anyone travel under these conditions but we'll do everything possible to assist you remotely with cattle selection by phone or electronic means. The cattle will be available for inspection at the ranch prior to the sale and we will attempt to accommodate people who want to view the cattle in person as long as it is done on a limited basis and in a manner that maximizes everyone's health safety. Please call first of course to make any arrangements.

We ask the following of all potential buyers:

1. Plan to register and bid online through Superior Productions or Live Auctions TV.
2. Make arrangements to view the auction on the Dish Network channel 997 if you can't participate online. This Superior Productions channel is the only TV option we have at this time. Superior Productions will be able to take phone bids for people viewing on the Dish Network.
3. Register to bid well in advance of the sale. That means at least before April 17th.
4. If you prefer to bid by phone or leave a bid with us, we will do everything possible to accommodate you. Please call us in advance and we'll work out the details!
5. We are still working out the logistics, but it will be possible to accommodate some customers who want to attend the auction in person. It will be necessary to follow mindful social distancing rules and other protective measures. This possibility is subject to change as conditions warrant.

Although an online auction will be a new experience for customers and everyone at OCC, a few things haven't changed.

We continue to genetically engineer cattle that can thrive on grass and not just survive. Regardless of what Mother Nature brings us for moisture and growing conditions, our cattle are made to perform under all types of environments.

The focus here at OCC remains the same as it has for over 30 years – to produce the type of cattle that increase profit. The Basic Blacks program began with a commitment to producing low birth weight, strong maternal, cost efficient performance cattle that are thick, deep, easy fleshing, and require minimum maintenance while working in a forage-based environment. At OCC, balanced multiple trait selection has always been the cornerstone of our breeding program.

We still believe that cattle breeding is an art. There remain essential cow herd traits that are not addressed directly or accurately by performance testing and EPDs. We think a common goal should be to fine-tune EPDs that can more accurately predict the expression of maternal traits in a forage based, often low-input environment. We believe that much work remains to achieve such a goal however and are concerned that the direction of current EPD research is pulling us away from that.

We continue our steadfast commitment to producing those easy fleshing, low-input, uniform, versatile cattle that will work for you, the cowman. We still think \$W, \$EN and BW are the most important EPDs for the low-input commercial rancher. Net profit is still the bottom line. The bulls and females in this offering will transmit these attributes to their progeny. Our business is to keep you in business!

If we can assist you in any way, please give us a call.

Sincerely,

Tim, Trudy, Jake and Jordon Ohlde

***"We must remember that cattle should thrive on grass
not just survive on grass."***

Guy Peverley, The Stock Exchange 785-456-9911 or 785-456-4390

SALE LOCATION:

At the ranch, 1362 2nd Road • Palmer, KS 66962

TRUCKING: We are available to assist with trucking arrangements and will guarantee delivery for no more than \$300 per head on purchases totaling \$10,000 or more. Purchases totaling less than \$10,000 will be delivered at the cost of trucking. Call with questions.

HEALTH: Cattle sell with the proper health papers for interstate shipment.

TERMS: All cattle sell under the standard terms and conditions recommended by the American Angus Association. All sale bulls are guaranteed free of the AM and NH genetic defects. ***OCC will retain 1/3 semen and revenue sharing interest in all registered Angus bulls unless indicated differently in the individual lots.***

INSURANCE: Livestock insurance will be available sale day.

Basic Blacks and Angus II are trademarks of Ohlde Cattle Co.

How to participate on the phone or online

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HOW IT WORKS

Turn in Bids Over the Phone: This is our traditional method of buying livestock and is the suggested process for anyone who does not have excellent, high-speed internet. To get started simply go online to Superiorlivestock.com and click on the tab titled "Register for a Buyer Number." Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at 817-378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Turn in Bids Over the Internet through Click-To-Bid: This is Superior's newest way to buy cattle! PLEASE NOTE THAT HIGH SPEED INTERNET IS REQUIRED – THIS IS NOT FOR SATELLITE INTERNET OR DIAL-UP INTERNET. Registration is free, but you must become a member of Superiorclicktobid.com to sign up. Becoming a member is easy – just go to Superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction: The sale will be broadcast via satellite on Dish Network channel 997. Please note that there is a short delay if you are watching the auction on television so call in two lots ahead of the lot you are interested in bidding on. The sale will also be broadcast live on the internet at Superiorclicktobid.com – just go to the home page and select the auction. Remember you can call in to bid whether you watch on the TV or on the internet, but you must be a member of Superiorclicktobid.com to "click-to-bid".

Bidders who are successful in making purchases via satellite or internet will be contacted by the ranch after the sale to settle payment and make shipping arrangements.

OCC Rear End is a very deep, heavy muscled bull with unbelievable style, balance, and excellent feet and legs. His sire has done it all when it comes to calving ease and maternal quality with longevity. His grand sire, OCC Joker, sires moderate-sized females with excellent fleshing ability and great udder quality. Rear End has had great acceptance in Argentina with more than 1,000 progeny.

His progeny have demonstrated to us that Emblazon is a worthy replacement for 6807 in our program. Emblazon has established an impressive set of low birth, superior growth EPDs, similar to those of his sire. Emblazon daughters are proving to be sound, easy fleshing females with beautiful udders.

A very long-bodied, big-scrotaled, wide-based bull that is four generations from the 6807 bloodline. Very linebred to F0203. Will make an excellent cross and complement intensely bred 6807 cattle and still be able to maintain the thickness and phenotype. BW 75 lbs. WR 106 YR 111. His Anchor granddam is also the granddam of OCC Legend 616L. Paternal brother to Homer and Hunter. His daughters are phenomenal and his genetic influence has topped many sales in the last few years!

763Y was our pick of the Paxton sons out of the great Anchor-sired donor cow, 944H. 944H went to 18 years of age with good feet and udder. She weighed 1,200 pounds. She produced six herd bulls for us. Truly one of the best cows we've bred.

A real sleeper here in this Paxton son. His 14 year old dam raised many great ones, including the herd sire OCC Y Not 388Y. He was a little short on weaning weight but gained exceptionally well to the yearling stage. A sure-fire heifer bull with thickness and balance.

Wow! This Best Yet 766B son has thickness and stoutness to spare. Moderate birth with solid performance. Don't miss this bull!

The OCC Fleckvieh-Angus Program

We selected 20 Fleckvieh cows in the 1,000-head Arnold Brother's dispersal in 2001. The cows we picked were smaller framed, dark red, very easy fleshing, good uddered and in the top 10% in production records.

We knew the cows were good, but they proved to be way better than we hoped. I selected and imported a group of these Austrian Fleckvieh in 1972-1974. The 10 best females of this group went to the Arnold Brothers and they were the basis of many of the cows I bought from them in 2001.

We then bred these cattle to our OCC Angus bulls and the result is our Fleck-Angus cattle. These are not typical Simm-Angus cattle. They are more range oriented. The frame, muscle, fleshing ability, udder quality and calving ease nearly match our Angus and Angus II cattle today. I warn you, if you try these cattle you might become addicted to them. They are GOOD!

A truly outstanding moderate framed Red Angus bull with excellent calving ease. We

have maintained a small herd of Red Angus cows built around his dam, Vanessa 604C, and her full ET sisters. The dam of lot 99 is sired by OCC Red Grazer 610Z, a bull that sires those moderate, sound, big volume, good uddered cows that everyone is searching for.

Lot 99 — OCC Forefront 750F

"I purchased my first Simm x Angus bulls from Tim Ohlde in 2005 and many since. I have found these cattle to be exactly what I was looking for. They have low birth weights, exceptional new calf vigor, heavy muscling and they are easy fleshing. The feeder buyers and feed yards love these cattle. They gain and grade well in addition to having exceptional ribeyes and yield grades. They fatten with less grain than most continental crosses. The females we've kept are really good, with excellent udders, thickness and true fleshing ability. I couldn't be more satisfied."

— Dale Sansom, Superior Auction Field Rep

Vogler Semen Centre, Inc.

'Your Semen Freezing Specialists'

Is it a Bull or a Heifer *You Decide!*

Vogler Semen Centre has teamed up with Sexing Technologies to provide the Midwest with the latest technology in *Sexed Bovine Semen*.

27104 Church Rd Ashland, NE 68003 402-944-2584
www.voglersemen.com

The females offered this year represent OCC's three main breed groups: registered Angus, Angus II and Fleckvieh-Angus. These females, including the yearling heifers, have grazed out all winter and have not received supplemental feed prior to the sale. The offering includes a mix of open yearling heifers, a group of late spring calving heifers, and a few fall bred females. We think these females are ready to go to work and excel in any forage-based system.
