WELCOME TO CARDINAL CHAROLAIS

As we read back through our past letters and try to come up with something new and interesting to say, we realize this year is like no other. Businesses will reopen, beef and paper products will be abundant on the store shelves again, and cattle markets will recover and even go higher. We have added Superior Click to Bid as a phone or internet option along with LiveAuctions internet bidding and extra people to man the phones for your convenience.

The USA Cattlemen are Tough, it is in our DNA!

WHY DO WE DNA LEPTIN TEST OUR BULLS?

The Leptin TT Marker allows for an increased rate of fat accumulation. Other benefits include cattle that are easier fleshing, more docile and more fertile. These cattle are lower maintenance and offer more longevity. TT allows for highest marbling ability - about 9% of all cattle exhibit this marker. Cardinal Bulls are 63% TT. CC causes lean marbling - 55% of cattle are in this category. Cardinal Charolais Bulls are less than 1%. CT is a combination of the both and 36% of cattle tested are in this classification. Cardinal Bulls exhibit 36% CT's. Cardinal Charolais performs this test through Quantum Genetix, Saskatoon, Canada.

The new buzz word is Genomically-Enhanced EPD's or a DNA test used to increase the accuracy of an animal's EPD, especially when buying young bulls. Cardinal Charolais is performing this test through Geneseek in Lincoln, NE.

WHY DO WE USE CANADIAN GENETICS?

Cardinal Charolais was built with good doing, easy fleshing, fertile and docile cows! The same criteria is applied for our herdsire selection and the only out-cross genetics we could find that also test for the Leptin TT marker are up in northern United States and Canada. We knew we would sacrifice in the EPD number game but they are great out-cross cattle. The EPD Adjustment Factors between Canada and the American Charolais Association puts us at a disadvantage. Any cattle with Canadian Genetics will have higher birth weight EPD's and lower Weaning, Yearling and Calving Ease EPD's. The number of sires and dams with Canadian genetics in the Cardinal Charolais herd is too numerous to mention, but we feel like our mating criteria will produce the best bull for you out in the real world.

Thank You and just let us know what we can do to help with this year's bull sale.

Pat, Luan and the Cardinal Crew

Chisum is our Canadian Outcross! His sire, Time Out, is a popular and proven bull up North. His damn H303 was one of Pat's favorite cows and a top producer. The Chisum group of bulls are powerful, long bodied, big topped and easy doing. He tested TT for the Leptin marker.
