11:00 A.M. Big Event Sale - 300+ Head Sell

7:30 P.M. Country Music Spectacular

A Bar Bunkhouse Band

The A Bar Bunkhouse Band of Claremore, Oklahoma, will take center stage Friday, August 14. The lively music performed by A Bar Bunkhouse Band will have the audience wanting to jump up and dance to the classic western swing tunes. All four band members are accomplished fiddle players but each has his own way on the stage with Merrit Armitage playing the guitar and singing vocals. Brother Turner Armitage joins him in singing the rousing tunes made popular by bands like Bob Wills and the Texas Playboys. Joining the two brothers on stage are cousin Landon Morgan, whose upright bass; and Jake Duncan, a renowned fiddle player who has won several contests, round out the musical group's foot-stomping sound.

Although Bob Wills and the Texas Playboys have had the biggest influence on the band's style, Merrit also cites Django Reinhardt, a pioneering European jazz guitarist and composer, as another strong impact on their style of music. "Django's music has been described as a gypsy style swing," Merrit says. "We try to draw from the style of the Big Band era but we don't have a full orchestra. We have what people around here call a ranch band, playing in a smaller setting. It's feel good music," he adds.

"We play a wide variety of songs, from show tunes that feature the fiddle to crowd pleasers like Folsom Prison Blues with a breakdown of the Orange Blossom Special," he says. "We also play everything from Ida Red to House of the Rising Sun."

Three of the band members—Merrit, Turner and Landon—took fiddle lessons from a local teacher. The three crossed paths with Jake while performing with the group Oklahoma Stomp, a Western Swing youth group organized by Shelby Eicher in 2005. Eventually, the youth group, which had played as part of the "Music across America" celebration at the Kennedy Center in Washington, D.C., broke off into smaller bands.

Since forming A Bar Bunkhouse Band, the group has performed venues, including the Day of the National Cowboy, an annual event at the Cowboy Hall of Fame in Oklahoma City. "We have opened for Red Steagall and Don Edwards," Merrit says. "The first year we performed we were on a smaller stage in a tent. But because the crowd we drew was so large, they bumped us up to a bigger stage the next year." The band has also played in Tulsa at the Cain's Ballroom and opened for the Texas Playboys. "It's neat to meet people you grew up listening to on records," he adds.

Merrit credits his love for the Western Swing genre to his parents and grandparents. "It's what I grew up listening to. I didn't listen to the music that was popular with other kids my age when I was growing up."

The band has released one album, "For the First Time." "I want to keep Western Swing alive for coming generations," Merrit says, "and to share our love of this music with others. We want to change people's perception that Western Swing is dead."

AIR TRANSPORTATION

Will Rogers World Airport in Oklahoma City is only 15 min. from the Yukon ranch and is served by most major airlines. For assistance with travel arrangements, call: Express Travel Service (800) 828-3124 or Express Ranches (800) 664-3977.

LOCATION: The ranch and sale headquarters is located west of Oklahoma City just north of Yukon, OK. Take the Garth Brooks exit (Exit 136) off of I-40 in Yukon. Go 3.5 miles north. The sale entrance is the first entrance to the ranch on the east side of the road.

Welcome to Express Ranches

On Behalf of the Funk Family and the Express Ranches' Staff

Fellow Angus Breeders,

On behalf of Bob Funk and all of us here at Express Ranches, I would like to take this opportunity to invite you to join us for our 24th Annual Big Event Angus Production Sale. We are extremely excited about the quality of cattle we are offering in this year's sale, and believe it is easily the best groups we have had from the Friday fall-calving cows and spring-calving cows with heifer calves to the donors, bred heifers, fall and spring open embryo calves, as well as the show heifers and cow-calf pairs that sell Saturday.

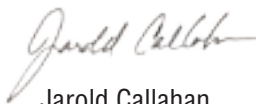

This has been the most interesting and sometimes challenging year of my 50 years in the cattle business. I'm not sure what the future holds, but I believe that I have never been more proud to be in agriculture and the cattle business than I am now. I also believe that investing in superior genetics that combine phenotype and genotype will pay dividends in the future for your cattle operation regardless of size or geographic location.

At Express, we attempt to utilize all the available tools to continue to improve our genetics for ourselves and for our customers—from DNA to EPDs to dollar indexes; and more importantly we still continue to evaluate phenotypically and listen to our customers about what is working for them.

Bob is super excited about you joining us for this year's event as we celebrate his 80th birthday and enjoy an evening of great food and special entertainment by an Oklahoma favorite and our good friends the A Bar Bunkhouse Band.

We again would like to thank our past customers and supporters and hope each of you can be with us.

Sincerely,

Jarold Callahan

Both Days...

Both Days...

HOW TO PARTICIPATE AS AN ABSENTEE BUYER...

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number." Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding program for cattle buying. Please note that high speed internet is required—this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy—go to the homepage of www.superiorclicktobid.com and follow the outlined steps to get started. Input your information and select a username and password. You will receive an email confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved by the ranch you will receive an email confirming which sale you are now registered for.

Viewing the Auction. On both days, the sale will be broadcasted on DISH 997. *Please note*, there is a short delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on. The sale will also be broadcast live on the internet at www.superiorclicktobid.com—just go to the home page and select the auction. Remember, you can call in to bid whether you watch on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid." Your computer must have Flash Media Player installed to view the auction. If you have any questions, call Superior Productions at (800) 431-4452.

Bidders who are successful in making purchases via satellite or internet will be contacted by the ranch after the sale to settle payment and make shipping arrangements.

SUPERIOR CUSTOMERS, call (800) 431-4452 if you need assistance.
LIVEAUCTIONS.TV CUSTOMERS, call (817) 725-8595 if you need assistance.

“Express Kind”

Express Ranches recognizes that the true value of breeding females is created and sustained by their potential to produce bulls that have the genetic essentials to see widespread use across the beef industry and to positively move the industry forward with increased profitability due to improved genetic inputs.

The great success in the pen and carload show in the Yards at the National Western Stock Show, the great popularity of Express bulls with spectators and eventual buyers and the demand for the “Express Denver Bulls” has been a result of the consistent leadership of those bulls for the basic growth traits that all phases of the industry get paid for along with more muscle than can be found in most Angus bulls in the population while maintaining levels of marbling genetics that allow their descendants to qualify for numerous premium programs with high USDA Quality Grade specifications.

Selling 1/2 Interest with the option to double the price and own full interest.

Flushed four times for a total of 19 high quality embryos. Checked safe to E&B Plus One. Approx. due date 8-24-20.

Member of the Top 7 among 348,081 active Angus dams for Yearling Weight EPD with a lower Birth Weight EPD than six of the eight dams with a higher Yearling Weight EPD than her.

The female chosen to sell as Lot 1 of the 2020 Big Event exemplifies the “Express kind” as she ranks Number 7 among 348,081 active Angus dams for Yearling Weight EPD with a lower Birth Weight EPD than six of the eight dams with a higher Yearling Weight EPD than her. One of the only two others is the Express donor EXAR Blackcap 0896 that has three daughters featured in this 2020 Big Event by EXAR Rolex and EXAR Pay Up.

The first natural calf from Lot 1, EXAR Grenade 9152B, was the Lot 10 anchor bull of the 2020 National Western Grand Champion Carload of Bulls and after selling two-thirds interest for \$50,000 in the 2020 Express Spring Bull Sale, he is currently the Number 1 bull featured at ORigen for hot Carcass Weight EPD and Number 2 for \$Weaned calf value index, Weaning Weight EPD and Yearling Weight EPD in combination with a double-digit Calving Ease Direct EPD.

Among the 55,847 non-parent Angus bulls with his 11 CED or higher, EXAR Grenade offers the Number 5 Yearling Weight EPD and the Number 5 Weaning Weight EPD. As a young sire with the genomic-enhanced power to move the beef population towards increased profitability, EXAR Grenade has been heavily sampled in America’s largest seedstock operation and appears destined for widespread use throughout the beef industry.

Individual average progeny weaning ratio of 1 at 106, average progeny yearling ratio of 1 at 107 and average progeny %IMF ratio of 1 at 142, dam’s average progeny yearling ratio of 5 at 102.

This female offers elite genomic-enhanced EPD data on the right edge of the bell-shaped distribution curve for Weaning Weight EPD, Yearling Weight EPD, Carcass Weight EPD, Residual Average Daily Gain EPD, \$Weaned calf value index, \$Feedlot value index and \$Beef value index.

Lot 22

A heifer pregnancy that will produce a full sister to the very popular young sire Gardens Opus, a marbling genetics leader with a +1.86 Marbling score EPD as of this writing that is seeing widespread use in top breeding programs from coast to coast after topping his calf crop at the Green Garden program that is a "Mecca of Marbling" in the Angus breed. The Pathfinder donor dam of this pregnancy is line-bred to the foundation marbling genetics sire at Express, Gardens Prime Star, whose dam Green Garden Jilt C242 S1 was a \$280,000 feature of a past Big Event at Express, this Pathfinder Dam offers an opportunity to create new genetics for marbling, the ONLY trait in beef production that has NO point of diminishing return.

Gardens Opus

From the \$425,000 top-selling and record-setting donor female ever produced at Gardiner Angus Ranch that has at various times in her life been the Number 1 active dam of the Angus breed for \$Beef value. Best known as the dam of the great carcass sire G A R Early Bird, she is also the dam of the \$31,500 half interest Deer Valley Inevitable who topped the 2020 spring bull sale at Deer Valley and is now working for ABS and Express and a maternal sister to this heifer calf is the dam of the great Growth Fund bred heifer featured as Lot 39 in this 2020 Big Event.

Donor dam was the highly proven \$160,000 selection of Express from the record-setting 2019 sale at Spruce Mountain Ranch that was originally purchased by Spruce Mountain Ranch in 2017 with her first natural heifer calf at side for \$100,000 and in the 2018 Spruce Mountain Ranch Sale, half interest of that heifer calf sold for \$115,000 to High Roller Angus in Texas and her first embryo transfer daughter sold for \$115,000 to Riverbend Ranch in Idaho. In the record-setting 2019 Spruce Mountain Ranch Sale, three daughters of her sold for an additional \$162,000 to push her progeny sales total to \$392,000 with one for \$100,000 to Pollard Farms in Oklahoma and another for \$50,000 to Edisto Pines Farm in South Carolina and there were 14 sons of Rita 527 sold in the 2020 Bull Sale at Riverbend Ranch for an average of \$8,893 with her top son selling for \$17,000 to the Semex Alliance in Ontario for international semen sales. Sire was the \$45,000 top-seller at Sunny Slope in Minnesota in 2019 and many consider him among the most powerful and promising sons of the ORGen record-setter SydGen Enhance.

This pregnancy from the \$320,000 half interest record-setting female at Spruce Mountain who is a flush sister to the \$580,000 record-setting Colonel, is a maternal sister to two heifer pregnancies that sold for \$50,000 each to Pollard Farms in the 2018 Big Event with two more pregnancies from her dam selling for \$25,000 in the 2019 Bases Loaded Sale and \$20,000 in the 2019 Stars of Texas Sale. A flush sister to the donor dam produced an \$85,000 half interest heifer in the 2018 Spruce Mountain sale where two heifer pregnancies from her sold for \$50,000 and \$45,000 and a maternal sister to the dam sold half interest for \$160,000 in that same sale where another maternal sister produced a \$60,000 half interest heifer calf. Isabel C234 balances a birth ratio of 99 and a weaning ratio of 120 on first natural calf with an average progeny %IMF ratio of 25 at 105. Sire is an outcross source of EPD excellence that has been used across several breeds in the beef industry for his solid and balanced EPD profile.

A full brother-in-blood was the \$33,000 third high-selling bull of the 2020 Bull Sale at Riverbend Ranch and a full sister-in-blood sold for \$75,000 in the 2019 sale at Spruce Mountain Ranch with a maternal sister sold for \$30,000 to TK Cattle in the 2019 sale at Spruce Mountain and another sold for \$30,000 in the 2019 Big Event to Deer Valley where a third sister sold for \$25,000 to XL Angus Ranch. A maternal brother to this heifer was the \$16,000 second high-selling bull of the 2020 Express Grass Time Sale and she is also a maternal sister to two heifer pregnancies that sold for \$50,000 each to Pollard Farms in the 2018 Big Event with two more pregnancies from her dam sold for \$25,000 in the 2019 Bases Loaded Sale and \$20,000 in the 2019 Stars of Texas Sale. Donor dam is the \$320,000 half interest record-setting female at Spruce Mountain that is a flush sister to the \$580,000 record-setting Colonel and she balanced a birth ratio of 99 and a weaning ratio of 120 on first natural calf with an average progeny %IMF ratio of 25 at 105. This female offers elite genomic-enhanced EPD data on the right edge of the bell-shaped distribution curve for Weaning Weight EPD and Yearling Weight EPD.

Flushed 4 times for a total of 21 high quality embryo. Checked Safe to SydGen Enhance. Approx. due date 08-09-20.

A young Express embryo donor with exceptional calving ease genetics that make her ideal for matings to superior growth and carcass sires with a Birth Weight EPD that is higher or Calving Ease Direct EPD that is lower than the buying public prefers. Descending from the legendary multi-million dollar producing Blackcap 2328 donor that set at record at Vintage when she came to Express, the foundation female backing this young donor is the only full sister to the famous herd sire G A R Grid Maker and she gives this unique female a solid and predictable foundation of breed-leading genetics. Individual average progeny URE ratio of 3 at 101 with her dam recording a progeny weaning ratio of 1 at 106, a progeny yearling ratio of 1 at 110 and an average progeny URE ratio of 6 at 103. This female offers elite genomic-enhanced EPD data on the right edge of the bell-shaped distribution curve for Carcass Weight EPD, Residual Average Daily Gain EPD, \$Feedlot value index, \$Beef value index, \$Combined value index, Calving Ease Direct EPD and Birth Weight EPD.

Dam's average progeny birth ratio of 2 at 94, average progeny yearling ratio of 2 at 102 and average progeny %IMF ratio of 7 at 109. A maternal sister to the \$200,000 EXAR Stallion, top-selling bull his fall calf crop from the powerful proven donor that sells as Lot 12, this flush sister to Lot 99B is a maternal sister to Lot 12A that offers the most dynamic genomic-enhanced EPD profile of this 2020 Big EventSire also topped a past Express Fall Bull Sale and this young ORlgen sire is the top son of the now-deceased Spruce Mountain and Express daughter of the legendary Vintage foundation Blackbird 8809 that is one of the Angus breed's all-time top income producers.

CONGRATULATIONS TO THE

EX 463 JUNIORS NATIONWIDE WHO HAVE PURCHASED HEIFERS FROM EXPRESS RANCHES AND HAVE RECEIVED NEARLY \$4,362,000 IN SCHOLARSHIP AWARDS

EXPRESS RANCHES SCHOLARSHIP PROGRAM

INTRODUCTION

The Express Ranches Progressive Junior Scholarship Program is designed to help America's youth to continue their education by enrolling in undergraduate courses of studies at an accredited two or four year college, university or vocational technical school. It is designed for juniors who want to accumulate scholarships year after year.

ELIGIBILITY

1. The animals must be purchased from Express Ranches at public auction or by private treaty.
2. The animals must be bought and registered by a junior and be in his/her name.
3. The year of purchase and receipt of payment determines which year you will qualify under the graduated program: If you purchased and paid for an animal in calendar year 1995, that is year one. Animals purchased and paid for in subsequent calendar years qualify you for additional years. If any year is missed, the future purchase will be credited to the next year of purchases. (i.e. If you purchased in 2000 and 2002, the 2002 would be the second year of purchases.)

4. The year of purchase (one, two, three, four or five), not the year of the show, will determine which scholarship year will be honored.
5. If the animal wins more than one year in the same show, the scholarship winnings will be honored both years from the year purchase was made.
6. In appreciation for purchasing cattle from Express Ranches in 1994, we will count 1994 as year one for those wonderful buyers. Thank you for your confidence in us.

To qualify for each scholarship, the student is required to submit the proper information of verification on the Express Ranches Verification Form and provide proof of winning. The calculation for the Junior Scholarship will begin in the month the verification papers arrive at Express Ranches.

Each **Express Ranches Progressive Junior Scholarship** will be funded by Express Ranches in the name of recipient in the Express Ranches Scholarship Program Account.

The **Express Ranches Progressive Junior Scholarship will have a 5% to 10% Scholarship Award added annually which is set based on market conditions, and will be reviewed annually by the advisory board**, from the month of beginning until the funds are properly distributed to the accredited two- or four-year college, university or vocational-technical school. The Express Ranch Scholarship Program will process scholarship awards, to the schools, in mid-August and mid-December. Checks will be made payable jointly to the recipient and to the educational institution and must be endorsed by both. Qualified expenses include tuition, books, related fees, and room and board. Qualifiers must complete their education at the accredited college, university or vocational-technical school of their choice on or before their 30th birthday or the remaining portion of their Express Ranches Progressive Junior Scholarship fund will be forfeited. There will be a third party advisory board administering the scholarships. The board will be appointed by Express in staggered terms. The current advisory board is: Kyle Haley, Jack Stuteville, Eddie Sims, Ryan Cotton and Sonny Booth.

This scholarship will be non-transferrable unless approved by the advisory board. Any questions or changes will be decided and or approved by the advisory board. The Express Ranches Scholarship Program will be audited annually.

The dam of EXAR Frontier Gal 1140 is none other than the \$1.9 million dollar producer EXAR Frontier Gal 3734, and she appears to have struck again with EXAR Frontier Gal 1140. Selected to lead off the show heifer division, 1140 is blessed with tremendous eye appeal, depth of rib and flank, stoutness of bone, and is beautifully proportioned with an attractive feminine front end. This February prospect possesses the soundness of structure and appears to be the right size to compete at all levels.

EXAR Frontier Gal 1340 has been a favorite of those who have visited the ranch. Produced by the \$2.5 million dollar producer EXAR Frontier Gal 1405, this tremendous prospect is amazing to evaluate as she successfully combines so many desirable attributes including substance of bone, tremendous stoutness and strength of hip and hind leg, good depth of rib and flank, and possesses an excellent neck attachment with an attractive front end. This February prospect should continue to impress and be a major contender.

EXAR Princess 1200 is a beautifully designed daughter of EXAR Princess 5381 and is a maternal sister to Carter Ward's National Junior Angus Show reserve grand champion female. This late January-born female excels in balance, depth of rib and possesses an exquisite front end attaching high in her neck and being clean chested. Additionally, EXAR Princess 1200 is nearly flawless in her structural makeup as she is level hiped, strong topped, and stands and moves extremely well on her feet and legs.

We conclude this year's show heifer section with an outstanding early March prospect. EXAR Queen 0708 is powerful in her makeup and stands on a strong hind leg. The dam of this exciting and attractive show-ring contender, EXAR Queen 0476, was a 2016 Express Big Event feature purchased and shown by our good friends the Nowotny family from Texas.

EX

More than just a prefix or a distinctive brand.

It's a Program!

EXPRESS RANCHES

As semi-annual updates to the National Cattle Evaluation conducted by the American Angus Association and annual updates to the rolling average variables used in their bio-economic indexes have happened over the course of decade and a half, the actual number values of EPDs and indexes often change. But in programs like Express that collect volumes of phenotypic weights and measures in large contemporary groups in addition to genomic testing every animal born in each year's calf crop, the ranking of the good cattle within the herd and within the breed continues to be strong.

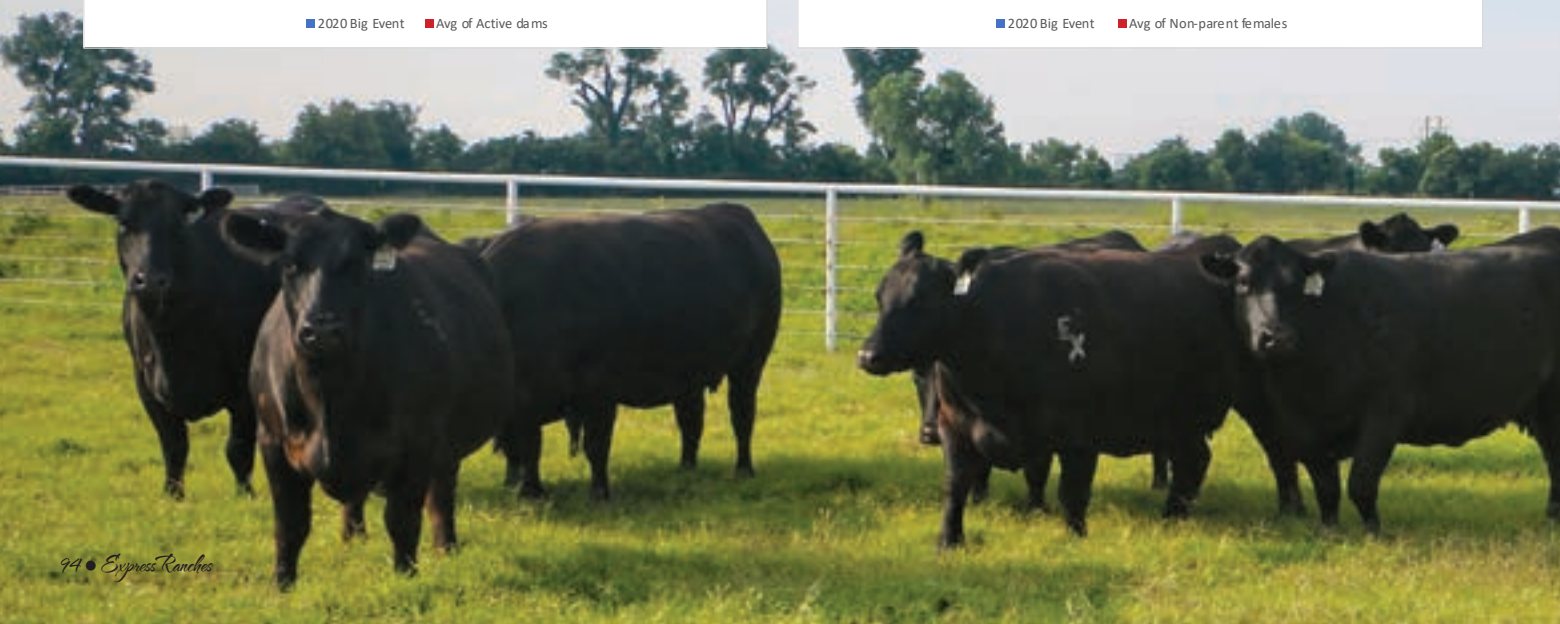

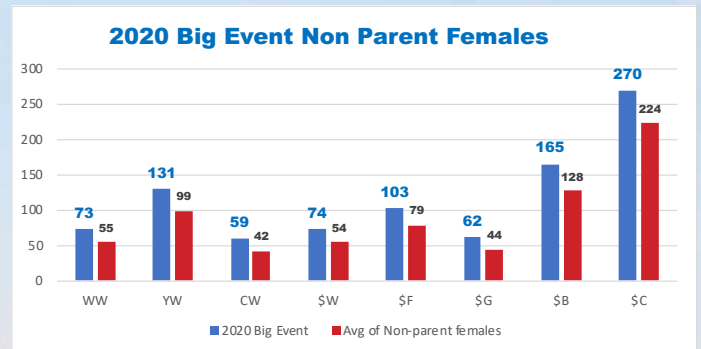

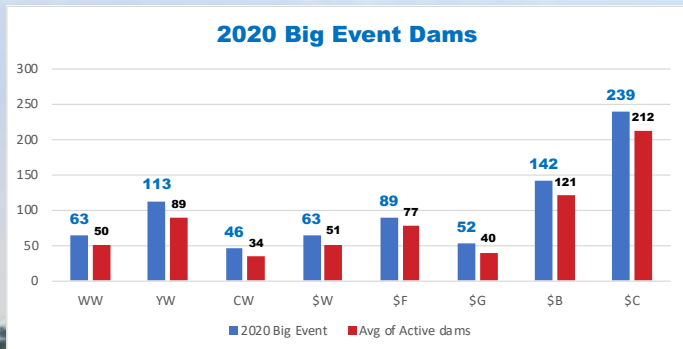

The release of the latest update on May 29, 2020 validated that the data being collected in programs like Express is a significant ingredient for adding and maintaining the value of quality Angus seedstock. There are two classic examples of how the combination of science and the eye of the master can make Angus cattle unlike any that have come before them.

Used in the Express breeding program as high performance yearling bulls with a strong genomic-enhanced EPD profiles, the young herd sires Stevenson Big League and Deer Valley Growth Fund

sired a set of progeny that included the highest performers and most popular members of the 2020 National Western Grand Champion Carload of Angus Bulls and Grand Champion Pen of Three Angus Bulls that were bred and exhibited by Express.

When the ratios earned by the Big League and Growth Fund progeny at Express were incorporated into the American Angus Association database, Stevenson Big League earned the Number 1 WW EPD of the Main Report of the Fall 2020 NCE with 208 progeny in 37 contemporary groups recording an average weaning ratio of 104 and 86 yearlings in nine contemporary groups also earning an average ratio of 104 to earn him the Number 3 YW EPD of the report.

Tied with Big League at Number 1 for WW EPD with the Number 2 YW EPD was Deer Valley Growth Fund. His 380 progeny with weaning data and 76 with yearling data are headlined by the lead bull of the Grand Champion Carload of Bulls EXAR Fundamental, the \$120,000 two-thirds interest top-seller at Express in March.

As previous updates have been, this newest edition in 2020 is an affirmation that the Angus breeders who have focused on combining growth and end product merit with functional cow sense were much closer to right than many believed or speculated.

The May 29, 2020, update was the official introduction of the new bio-economic index that has become known as \$Combined Value (\$C), that is expressed in dollars per head, includes all traits that make up both the new Maternal Weaned Calf Value (\$M) and Beef Value (\$B). By combining maternal and terminal traits into a single multi-trait genetic selection tool, it is believed that producers will have improved ability to make genetic progress in several different traits at once while accounting for the interrelationships among these traits which may pull costs and revenues in different directions. This concept assumes that commercial producers replace 20% of their breeding females each year with replacement heifers retained from their own herd with the ongoing assumption that the remaining cull heifer and steer progeny then go to the feedlot where they eventually sell on a quality-based carcass merit grid.

The charts that appear in this publication graphically demonstrate the strength of this sale offering as compared to their two age categories in the entire Angus population, but they do not really show how dominant the outliers really are that have been identified in the herd of the largest registered seedstock operation in the nation that has collected more genomic records that likely any herd of beef animals anywhere in the world.

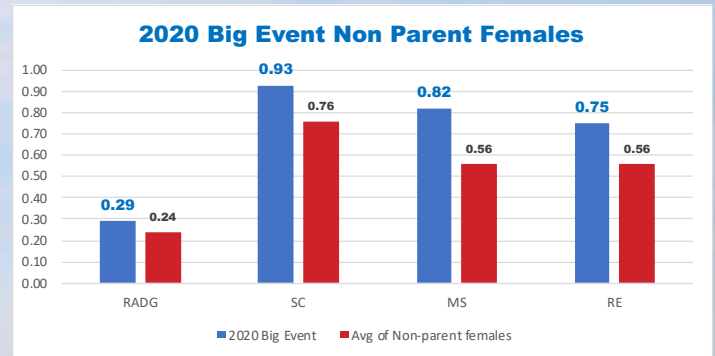

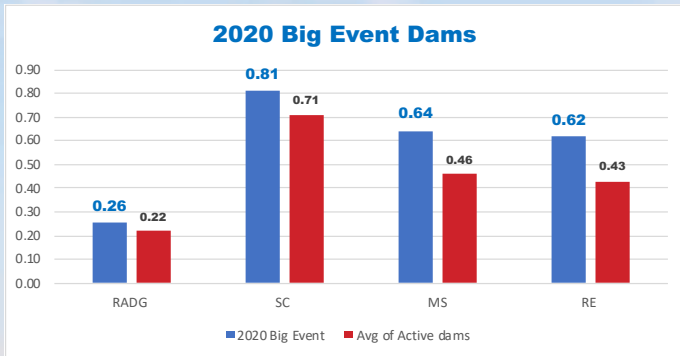

This sale offering includes 61 females in the top 1% of the Angus population for \$Beef and 176 in the top 5%, 75 in the top 1% for YW EPD and 221 in the top 5%, 68 in the top 1% for \$Feedlot and 190

in the top 5%, 68 in the top 1% for WW EPD and 195 in the top 5% and 178 in the top 5% for \$Weaned calf .

The right edge of the bell-shaped distribution curve represents the elite top 5% of the entire Angus population for each EPD or index and in this 2020 Big Event offering of production females, 40% of the them rank in the top 5% for YW EPD with 35% in the top 5% for WW EPD which puts 34.5% among the top 5% for \$Feedlot , 32.5% among the top 5% for \$Beef , 32% among the top 5% for \$Weaned calf and 30% among the top 5% for \$Combined . Study this set of cattle carefully, there is no where else in the world to find this volume of females with this ranking in the Angus breed.

With a management team led by a man who has spent nearly five decades intimately involved in the cattle feeding industry in addition to his time in the academic community as a judging team coach and professor and his tenure as the executive officer of the Oklahoma Cattlemen’s Association, it comes as no surprise that the focus of the breeding program at Express Ranches is producing cattle that perform in the feedlot and earn premiums on the rail.

Jarold Callahan will tell you quite simply, “we want cattle that do it all.” Jarold has made structural soundness, mobility and carcass composition critical inputs in the Express breeding program and since Jarold assumed the leadership role of the team at Express, creating performance cattle with the “Express look” has been the unwavering goal of this breeding program. That goal has been met and surpassed with this unique and powerful presentation of sale females!

The Story of **EXPRESS RANCHES**

written by Dick Beck

Robert A. “Bob” Funk was born and raised in Duvall, Washington, where his father worked for the county highway department and he was raised in a family of modest means with a strong Christian foundation. Bob’s exposure to cattle began with his work on his cousin’s farm at 14 years of age and he continued working at the dairy through his high school years. It was there that Bob developed his agriculturally based work ethic and his love for cattle.

After high school, where he was a member of FFA and played basketball and tennis, Bob enrolled at Seattle Pacific University where he completed a Bachelor of Arts degree in business administration and theology. Following his undergraduate studies, Bob completed graduate work for his advanced degrees in business administration and theology from Seattle Pacific University. An integral part of his graduate work was a year’s study of theology at the University of Edinburgh in Scotland—quite an experience for a young man from a rural community in Washington.

A true “people person,” Funk spent the first 17 years of his early career in the personnel business working for Acme Personnel, a Washington-based personnel services firm, starting as a personnel consultant and rising to first vice president. When the company’s president died unexpectedly, Funk and two colleagues purchased and operated several franchises of Acme which ultimately became Express Personnel Services. In 1983, the partners began arranging to franchise Express and that first year generated gross revenues of \$2 million in spite of the depressed economy created by the devastating downturn in the oil industry.

In 1983, as a result of the bankruptcy of Acme, the partners acquired the franchise rights to 23 Acme offices across the United States. The number of Express Personnel Franchise has grown from this modest beginning to more than 800 franchises. Having spent his youth working with cattle, when the opportunity to buy land and get involved in the cattle business presented itself, Bob Funk jumped in with the same drive and determination that he used to build his primary business and he selected Limousin cattle for his first venture into the purebred seedstock business.

More than two decades ago, an important chapter of in the

history of Express Ranches began with the addition of Angus cattle as Bob Funk and Jarold Callahan negotiated the purchase of the B&L Ranch near Shawnee, Oklahoma, and the B&L Angus cow herd from the Oklahoma Cattlemen’s Association Foundation. With that transaction, Angus cattle became a major part of the growth and expansion of the Express Ranches enterprise.

A few years later, after his tenure in academia as both an animal science professor and judging team coach at Oklahoma State University and a successful stint as the Executive Vice President of the Oklahoma Cattlemen’s Association, Jarold Callahan joined Express Ranches as the Chief Executive Officer and the growth of Express Ranches moved into high gear.

Today, Express Ranches is an active participant in every phase of the beef production process and has fed as many as 50,000 head of cattle per year and owns an interest in the 30,000 head capacity Xcel Feedyard near Watonga, Oklahoma.

The addition of the historic UU Bar Ranch located just outside of Cimarron, New Mexico, added over 164,000 acres of high-altitude rangeland to Express Ranches. A production unit of 1,500 commercial cows and calves plus 4,000 to 5,000 yearlings have allowed the testing of Express genetics under these semi-arid conditions that are not unlike that experienced by many of its commercial customers.

The genetics developed, tested and marketed by Express are designed to satisfy the needs of every step in the production chain. Carloads of bulls shown at the Denver Stock Show and the sale of

junior project cattle that compete in every level of competition have led to an ongoing emphasis on phenotype and structural soundness in the Express breeding programs.

As the new millennium arrived January 1, 2000, a new era at Express began with the arrival of the first calf crop by Bon View New Design 1407, the bull who would become the icon of the Express Angus program after selling a one-third interest for \$275,000 at the 2000 Bases Loaded Sale at Coors Field during the National Western Stock Show. New Design 1407 has become one of the most widely-used sires in Angus history and is the true standard of combined growth and carcass excellence that has been at or near the top of the Angus breed for progeny registered for most of the first decade of the millennium. Regardless of how he and his progeny have been measured—harvest data, ultrasound data or DNA analysis—New Design 1407 comes to the top.

On April 5, 2002, a new record was set at the famous Midland Bull Test when the bull that would be renamed BR Midland sold for \$202,000 to the partnership of Express and Whitestone Krebs that also have shared the ownership of New Design 1407. Used with

phenomenal success as the bull to add another generation of marbling greatness to daughters of New Design 1407.

On January 1, 2005, another important day in Express history began with the birth of the bull that would be named EXAR 263C after two-thirds interest of him sold for \$263,000 to set a still standing record at the 2006 Express Bull Sale. This son of New Design 1407 from a dam by Midland was the next step forward at Express.

The search for the next source of superior marbling genetics to mate to daughters of Midland from dams by New Design 1407 led Express to Ellsworth, Kansas, in the spring of 2005 to the Green Garden herd that was among the first in the Angus breed to concentrate on creating and selecting cattle that excel in the marbling traits that is one of reason the Angus breed dominates the beef

industry in the same manner that the Holstein breed dominates the dairy industry. The bull that would be named Gardens Prime Star recorded an adjusted IMF score of 9.10% for a ratio of 177 in a herd where marbling has been the primary focus. Marbling genetics is a cornerstone of the Express Angus foundation.

From his experience feeding cattle, Jarold Callahan is acutely aware that the feeding industry's greatest frustration with Angus genetics is having enough muscle in Angus-sired harvest cattle to allow the cattle to be fed to 1,000 pound carcass weights that optimize profit potential in the feedlot without suffering the on-the-rail discounts for Yield Grade 4 and 5 carcasses. A concentrated effort to make sure that was not a problem with Express Angus bulls brought the Emblazon descendants BC 7022 Raven 7965 and Rito 6EM3 into the Express herd sire battery to address the need for more muscle in Angus cattle.

The addition of Basin Franchise P142 to the program in 2005 added another foundational cornerstone to the carcass excellence of the Express program and produced bulls that helped the exponential expansion of the Express bull marketing program.

The success of Jarold's efforts to add muscle to the Express Angus herd and the entire Angus breed have been quite apparent as the bulls bred and exhibited in the yards by Express have set new standards for ultrasound ribeye area measure. With a bull exhibited in 2019 measuring a 19.5 sq. in. ribeye area as a member of the first Pen of Three Bulls ever exhibited at the National Western where all three bulls recorded a \$Beef value index of +200 or more, no breeding program in the Angus breed has more effectively integrated phenotype and genotype than Express Ranches.

The search for genetic advancement for Express took another giant step forward in the spring of 2010 when Express joined forces with SandPoint Cattle Company to make Connealy Consensus 7229 the \$210,000 top-selling bull of the 2009 calf crop in the Angus breed and a record-setter at Connealy Angus Ranch. Daughters of Consensus have made him an annual leader in both the total number of his daughters and the percentage of eligible daughters that have qualified to be named Pathfinder Dams by the American Angus Association.

Shortly after the 2010 National Western, a bull was born that would lead the way to another new set for records for Express NWSS Grand Champion Carloads of Bulls. The bull named EXAR Upshot 0562B was the lead bull of the 2011 NWSS Grand Champion Carload of bulls and went on to sell half interest for \$200,000 in the 2011 Express Spring Bull Sale.

On New Year's Day of 2012, one of the very first sons of EXAR Upshot 0562B was born at Express from a daughter of the previous record-seller EXAR 263C whose dam was a maternal sister to the Midland Test Station record-setter BR Midland. The bull calf

that would be named EXAR Denver 2002B became the first ever second-generation lead bull of a National Western Grand Champion Carload of Bulls in 2013 when he sold a one-third semen interest for a new Express record price of \$340,000 to make him the highest-valued bull in the history of the program.

As three of the top-selling semen sires of the past decade, Upshot, Denver and Consensus have all been recognized as Pathfinder Sires and their genetic power is interwoven into the fabric on the current Express cow herd and this sale offering.

In the spring of 2015, Express Ranches and Sitz Angus purchased a \$50,000 yearling bull named 3F Epic 4631 that quickly brought a new level of post-weaning performance to the Express program with adjusted yearling weights in excess of 1,500 pounds to as much as 1,700 pounds adding another dimension to the program. EXAR Monumental is the bull chosen to advance the sire line and as the \$80,000 two-thirds interest feature of the 2017 Express Spring Bull Sale, he followed the foot-

steps of EXAR Upshot and his first calf crop produced the second-generation top-selling bull of the 2019 Express Spring Bull Sale when his son EXAR Guru sold half interest for \$80,000 as the top-selling bull.

Joining forces with the Wilks Ranches that have become one of the largest ranch owners and operators in North America, Express Ranches purchased the \$350,000 Montana record-setting yearling HA Cowboy Up and the \$221,000 Montana record-setting bull calf Stevenson Big League in December of 2017. Used in the Express breeding program as a yearling with a strong genomic-enhanced EPD profile, Stevenson Big League earned the Number 1 Weaning Weight EPD of the Main Report of the Fall 2020 NCE with 208 progeny in 37 contemporary groups recording an average weaning ratio of 104 and 86 yearlings in nine contemporary groups also earning an average ratio of 104 to earn him the Number 3 Yearling Weight EPD of the report.

Deer Valley Growth Fund another young power bull from the same calf crop as Big League sired a set of progeny that included several of the highest performers and most popular members of the 2020 National Western Grand Champion Carload of Angus Bulls and Grand Champion Pen of Three Angus Bulls that were bred and exhibited by Express. When the ratios earned by Growth Fund progeny at Express were incorporated into the American Angus Association database, he tied with Big League at Number 1 for Weaning Weight EPD with the Number 2 Yearling Weight EPD in the Main Report of the Fall 2020 NCE. His 380 progeny with weaning data and 76 with yearling data are headlined by the lead bull of the Grand Champion Carload of Bulls EXAR Fundamental, the \$120,000 two-thirds interest top-seller at Express in March, one of the most complete combinations of genotype and phenotype ever bred at Express.

EXAR Stock Fund 9097B is a young superstar who came charging to the top of the spring 2019 calf crop at Express with a phenomenal adjusted 365-day weight of 1,630 pounds and an adjusted 365-day UREA measure of 18.9 sq. in. to balance a BR of

91 with a WR of 109, a YR of 116 and a UREA ratio of 115 as his dam's first natural calf to be a significant contributor to the first calf crop from his sire earning Stock Fund's sire the Number 1 WW EPD and Number 2 YW EPD of the 2,391 high accuracy sires in the Main Report of the Fall 2020 NCE.

As a feature of the six sons of his sire that sold for an average of \$34,833 in the Spring 2020 Bull Sale at Express, this \$45,000 paternal brother to the lead off and top-selling bull Lot 1 EXAR Fundamental 9186B, was a sale-day favorite of those who study EPD profiles and value superior individual performance along with visual eye appeal and power, and he ranks Number 4 at ORigen for DOC EPD and top hot CW EPD, Number 5 for RADG EPD and top 10 for \$W, CED EPD, CEM EPD, WW EPD and YW EPD.

As of this writing, there are only FIVE non-parent Angus bulls among more than 250,000 in the American Angus Association database that combine a +11 CED EPD with a +175 or higher YW EPD and EXAR Grenade 9152B, the Lot 10 anchor bull of the 2020

National Western Grand Champion Carload of Angus Bulls who sold for two-thirds interest for \$50,000 and offers a unique and valuable EPD profile and an outcross pedigree for many of the breed's most popular sire lines, is one of that Fab Five!

Sired by the \$190,000 record-setting Casino Bomber N33 who is on his way to being recognized as the top breeding son of KM Broken Bow, his dam, who raised him as her first calf, is sired by the Pathfinder Sire Sitz Top Game whose daughters include the dam of the \$70,000 two-thirds interest EXAR Jet Fuel 9706B and the \$165,000 fall 2019 Sitz top-seller Sitz Resilient. Number 1 at ORigen for hot Carcass Weight EPD, Number 2 for \$Weaned calf value index, WW EPD and YW EPD, EXAR Grenade 9152B can move a broad spectrum of any EPD profile more dramatically in one generation than many other Angus bulls in existence.

A crowd favorite as Lot 3 of the 2020 National Western Grand Champion Carload of Angus Bulls and the lead and top-seller of his sire group commanded an average price of \$10,000 on 29 spring yearling bulls that included a very popular \$22,000

three-quarter brother to him, EXAR Jet Fuel 9706B ranks Number 5 at ORigen for hot CW EPD and RADG EPD and top 10 for \$B and CEM EPD, combining an adjusted 365-day UREA measure of 17.4 sq. in. with

a 119 ratio for %IMF and an adjusted scrotal circumference of 39.74 cm, this high performance young sire exemplifies the traits that have made his young ORigen sire one of the breed's new stars.

The donor dam of EXAR Jet Fuel 9706B is now working in Mississippi for Lane Smith Farms. She is a daughter of the deceased Express and Sitz foundation Pathfinder Sire Sitz Top Game 561X whose daughters also produced the \$165,000 top-selling bull for the Sitz program in 2019 and the \$50,000 half-interest EXAR Grenade 9152B and his grandam has produced numerous productive full and maternal sisters to the dam that include the \$120,000 top-selling female of the 2020 Bases Loaded Sale in Denver.

Express Ranches has been recognized by the beef industry's score-keepers at CattleFax as the largest producer of registered seedstock for the past decade.

From 2010 through the closing of the fiscal year of the American Angus Association in September 2019, Express Ranches has registered more Angus cattle each year than any other member in this country.

Being named the Roll of Victory Angus breeder of the year for the 2011-2012 show season, Express has won that honor again EVERY year since then.

Serving eight years as a director and officer of the American Angus Association, Jarold was instrumental in the creation of the Angus Genetics Inc. subsidiary of the association that collects and processes the phenotypic and genomic data for the Angus breed and manages the largest combined beef cattle genetics genotype and phenotype database in the world.

As an early adopter of the use of genomic testing to eventually lead to higher accuracy genomic-enhanced EPD data for improved breeding and selection of Angus cattle, Express has collected and invested in having nearly 25,000 DNA samples processed and tested from its registered Angus herd.
