EXPERIENCE THE LATEST IN ANGUS PERFORMANCE GENETICS

Greater Things

For such a time as this, we are presented with one of the greatest opportunities in the history of the beef industry. We are invited to be world-changing, industry-shaping Angus cattle producers.

This invitation requires us to be great. Not in the way most people view greatness, but rather by serving others. True greatness comes by aiming for the greatness of others more than we aim for our own.

In this pursuit, we all must empower one another. Inspire others to greatness and help them get there. Serve them by providing the tools to achieve beyond their wildest imaginations.

Greatness is fundamentally connected with our interest in seeing others become great.

Let us not miss this opportunity of a lifetime!

A NOTE FROM BOB

Welcome to the 2020 Fall Sale at 44 Farms! We are so grateful for your interest in our Angus Strong® genetics and for the many expressions of friendship, encouragement and teamwork you have graciously provided. Thank you!

It is difficult to fully grasp all that has happened in America and around the world in 2020. No one could argue that 2020 has been a season of loss, tragedy, chaos and so many daily challenges. It is no surprise that many of us are left wondering what is next. Maybe more than ever, we need newness in our lives. I believe God is in the business of providing “new things.” As He says through Isaiah,

*“BEHOLD, I will do something new,
Now it shall spring forth;
Will you not be aware of it?”*

Isaiah 43:19

What does a “new thing” look like for you and me? Maybe the “new thing” looks like a breakthrough in this season. “Behold” means to see. I think God is asking us to see and respond to His hand of purpose in our lives.

The 2020 Fall Sale has a theme – “Greater Things.” I love that theme because we have seen greater things happening in the lives of many in our industry this year. The challenges we face create opportunities for Angus producers like never before. More consumers are being introduced to wholesome and delicious Angus beef. In response, they are opening their homes and inviting us to join them as they gather around their dinner table.

Friends, through Isaiah, God was calling His people out from the old and into the new. Today, I believe the Lord would say to His people, “BEHOLD, I am doing a new thing.” He is calling us to come up and out of this season of unusual circumstances and rise above our limits.

So much is on the horizon. So much lies ahead. Let’s not get discouraged by the chaos and challenges. Rather, put our trust in God through His Son, Jesus Christ, and serve others for His glory. Let us not miss this opportunity of a lifetime!

We want to invite you to be a part of something greater than anything any of us can do alone. We believe that when we work together - greater things are yet to come. Prime Pursuits is a transformational beef program designed to elevate beef production from a commodity industry to a specialized business for cattle producers, large and small.

What Prime Pursuits has that no other beef program in the world possesses is the vision, enthusiasm, and resources of Walmart, the world’s largest retailer. Their vision is to respond in dramatic fashion to consumer demand for better beef and a greater understanding of the U.S. food chain.

Walmart’s boldness and insight creates tremendous opportunities for entrepreneurial producers to thrive and connect with consumers. This producer driven program is a paradigm change for the industry and rewards like-minded cattle producers for their hard work and quality

Angus beef production. Best of all, we can bring more families and friends together around the table to build better life experiences and enjoy delicious Angus beef. Now, that is a vision worthy of following!

The way we are making Prime Pursuits great is by empowering and helping others. It all begins with great Angus genetics. This strong foundation, along with the deepest data mining in the industry through our state-of-the-art Prime Intelligence platform and other support services provides producers, backgrounders, cattle feeders and Walmart with the tools to help them succeed. The final result is the most delicious non-hormone treated Angus beef ever offered at retail at the lowest price.

Behold, Walmart customers have something new! A fresh new reason to make Walmart their grocery store of choice. Serving bold, flavorful Angus beef to family and friends is a priceless experience of joy because it is something great done for someone else. We hope that you appreciate and are encouraged by our approach to the future. In all we do, we want to serve others for the glory of God. We are so honored by your interest in 44 Farms.

If this is your first time to consider 44 Farms, or attend one of our sales, let me say, “welcome and thank you.” Please know that we are grateful for you. We never take the awesome privilege of working together for granted.

If you are a returning customer, we appreciate your friendship and teamwork. We know that you are optimistic, focused on the future, and very entrepreneurial. These characteristics produce a “winsome spirit” that gives us the encouragement to challenge the status quo.

I look forward to seeing you on Saturday, October 24th. 620 of the finest Angus bulls you will find anywhere will be offered. I don’t know of a larger offering of registered Angus bulls this year. Bulls in volume and in every price range. Please take a moment to review the great number of bulls represented in the list of Top 1% and 5% of bulls in the Angus breed. We think you will be impressed.

Please note that we will follow the COVID-19 safety measures in accordance with the Governor’s Office guidelines with regard to facial masks, social distancing & sanitization. If you will not be able to join us in person, please see check out the “Buying From Home or Barn” page in this Sale Book for all of the ways to make your buying experience fun and convenient.

PURSuing GREATNESS

NORMAN D. STOVALL, III - AGRI-VENTURES CORPORATION

Graham, Texas. If you travel to Graham, a beautiful historic town of 9,000 people in north central Texas, you just might find it interesting to stop by The Graham Leader newspaper. You see, they have been around since they first began printing in 1876. They have covered a story or two about greatness in their nearly 150 years.

In 1877, 40 cattlemen gathered in Graham to form the Stock-Raisers' Association of North-West Texas to battle cattle theft in the region. We know this great organization today as the Texas and Southwestern Cattle Raisers Association (TSCRA).

If you are a fan of the Dallas Cowboys, you may not know that the greatest player in the Cowboys 60-year history and Pro Football Hall of Fame member, Bob Lilly, returned to the region of his childhood and made Graham his home for many years after his playing days concluded.

Yet, even before The Graham Leader, the TSCRA, Bob Lilly and many other great men and women of Graham, there was Col. Edwin S. Graham and his brother, Gustavus. In 1871, they settled in the area and in 1873 they established the town of Graham. The town grew as families began to move to Graham.

Norman D. Stovall, III is a great, great grandson of Col. Graham. Today, the fourth generation Texas rancher, is the steward of much of the family land and the production agriculture operations of Agri-Ventures Corporation.

“AS MOST GREAT RANCHERS, NORMAN IS AS MUCH A RESEARCHER, SCIENTIST AND NUTRITIONIST AS HE IS A FINE COWBOY...HE IS A LEADER IN DATA COLLECTION AND ANALYSIS, REPRODUCTIVE EVALUATION AND MANAGEMENT STRATEGIES TO IMPROVE THE OVERALL HEALTH AND TEMPERAMENT OF HIS HERD. HIS CATTLE CHECK ALL THE BOXES. HE GOES OUT OF HIS WAY TO DO THINGS THE RIGHT WAY. HE PURSUES GREATNESS AND HELPS OTHERS DO THE SAME.”

BOB McCLAREN

“I am so honored to carry forward the heritage of Col. E.S. Graham and all of my family that has gone before me and those I work with today,” said Stovall. “I am so blessed. I have been able to work with my dad, Norman Stovall, Jr., as my partner in Agri-Ventures throughout my career. It is because of him that I have been given the opportunities to take Agri-Ventures to the next level of quality beef production,” he added.

Q&A: NORMAN D. STOVALL, III

WHAT IS AN IMPORTANT LESSON YOU HAVE LEARNED?

Hard work will always gain you respect & success.

WHAT IS A FAVORITE CHILDHOOD MEMORY?

Gathering cattle with my friends. I loved everything about it. Being on horseback. Being among the cattle. Being with my friends.

WHAT IS YOUR FAVORITE MEAL?

44 Farms Tenderloin or 44 Farms Ribeye

HAVE 44 FARMS GENETICS IMPROVED YOUR PROGRAM?

Definitely. First you have to trust the people you work with. I trust the folks at 44 Farms. They breed good cattle over and over. I appreciate the data I get from 44 Farms.

NOTHING CHEERS ME UP LIKE?

A good rain!

Norman and his wife, Carli, have three children: Suzette, Zoe and Vos. Norman has two adult children: Sarah and Norman IV.

Together

GREATER THINGS ARE YET TO COME!

HOW THE BULLS ARE DEVELOPED...

The bulls at 44 Farms are managed and developed to reach a level of their genetic potential that will allow for an accurate comparison of individuals within their respective contemporary groups.

The bulls are developed in large pastures that allow for plenty of exercise and hand fed a high roughage feed. Excessive individual weights are not our goal but rather a practical average weight within contemporary groups that will allow for a fair comparison among contemporaries.

We are confident that these bulls will perform under any environmental conditions.

HOW THE BULLS ARE DEVELOPED...

The bulls at 44 Farms are managed and developed to reach a level of their genetic potential that will allow for an accurate comparison of individuals within their respective contemporary groups.

The bulls are developed in large pastures that allow for plenty of exercise and hand fed a high roughage feed. Excessive individual weights are not our goal but rather a practical average weight within contemporary groups that will allow for a fair comparison among contemporaries.

We are confident that these bulls will perform under any environmental conditions.

HOW THE BULLS ARE DEVELOPED...

The bulls at 44 Farms are managed and developed to reach a level of their genetic potential that will allow for an accurate comparison of individuals within their respective contemporary groups.

The bulls are developed in large pastures that allow for plenty of exercise and hand fed a high roughage feed. Excessive individual weights are not our goal but rather a practical average weight within contemporary groups that will allow for a fair comparison among contemporaries.

We are confident that these bulls will perform under any environmental conditions.
