Dear Cattlemen,

First of all, we want to thank each of you who supported our sale in the past and would like to welcome all newcomers to our 3rd Annual Bull Sale hosted in Navasota, TX. We personally would like to thank the John Atkinson family and the staff at Mid Tex Livestock Auction for their friendship and work towards to the success of this sale.

Breeding quality Hereford cattle is our family business, passion and livelihood. We don't take this lightly as it would not be possible without the support of our many friends and valued customers.

Genetic selection is the key to profitability and sustainability of each and every cow herd in the country. There's never been a time like the present where quality cattle are in high demand. Solid cattle, proper vaccination programs, and sound management decisions are paying off and have become the new norm of what cattle buyers are expecting. Now is the time to focus on your future. The genetics that you select today will impact your herd and play a key role in determining the success of your program for decades to come.

We are excited to offer you our deepest, most useful set of 18-month-old bulls to date. These bulls are built for progressive cattlemen and can adapt to any environment. We promise you'll be impressed with the quality and condition that the bulls are in. These bulls will fit into any purebred or commercial operation with a focus on adding weight to your calves and value and quality to your "keep" heifers.

We know you have many choices when it comes to buying bulls and we would be honored to have your consideration. Please don't hesitate to call should you have any questions on the bulls. Thanks for the opportunity to be your seed stock source.

*Michael & Kyle Pérez*

# Take advantage of hybrid vigor by capitalizing on Hereford genetics.

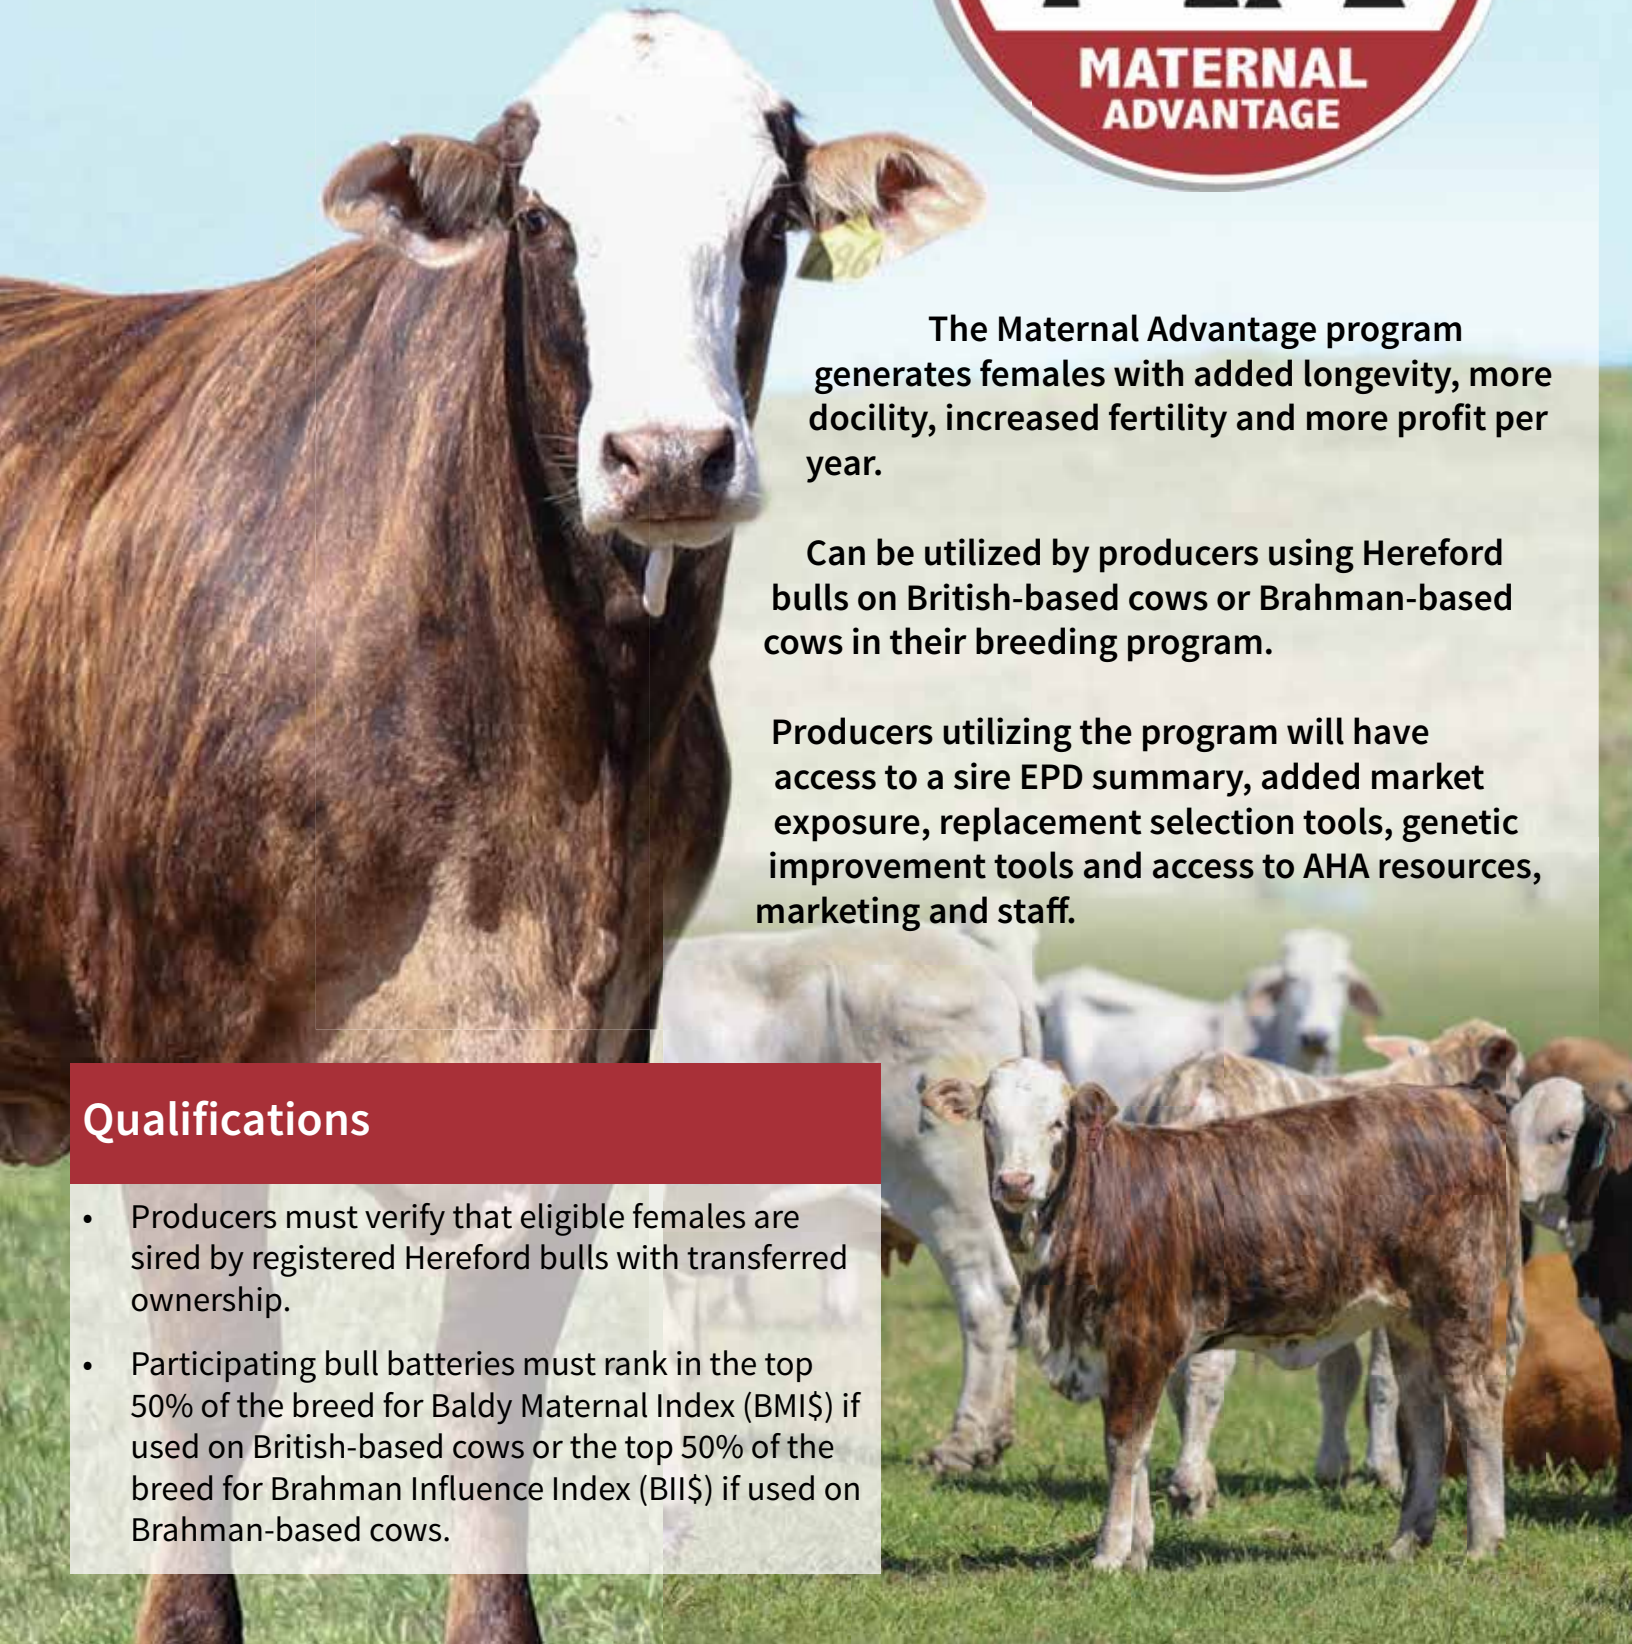

The Maternal Advantage program generates females with added longevity, more docility, increased fertility and more profit per year.

Can be utilized by producers using Hereford bulls on British-based cows or Brahman-based cows in their breeding program.

Producers utilizing the program will have access to a sire EPD summary, added market exposure, replacement selection tools, genetic improvement tools and access to AHA resources, marketing and staff.

## Qualifications

- Producers must verify that eligible females are sired by registered Hereford bulls with transferred ownership.
- Participating bull batteries must rank in the top 50% of the breed for Baldy Maternal Index (BMI\$) if used on British-based cows or the top 50% of the breed for Brahman Influence Index (BII\$) if used on Brahman-based cows.

*Stand out with Proven Genetics*

# THE HEREFORD ADVANTAGE PROGRAM

Increase added market power and brand recognition with feeder cattle sired by a Hereford bull battery ranking in the top 50% for CHB\$ index.

## PROGRAM BENEFITS:

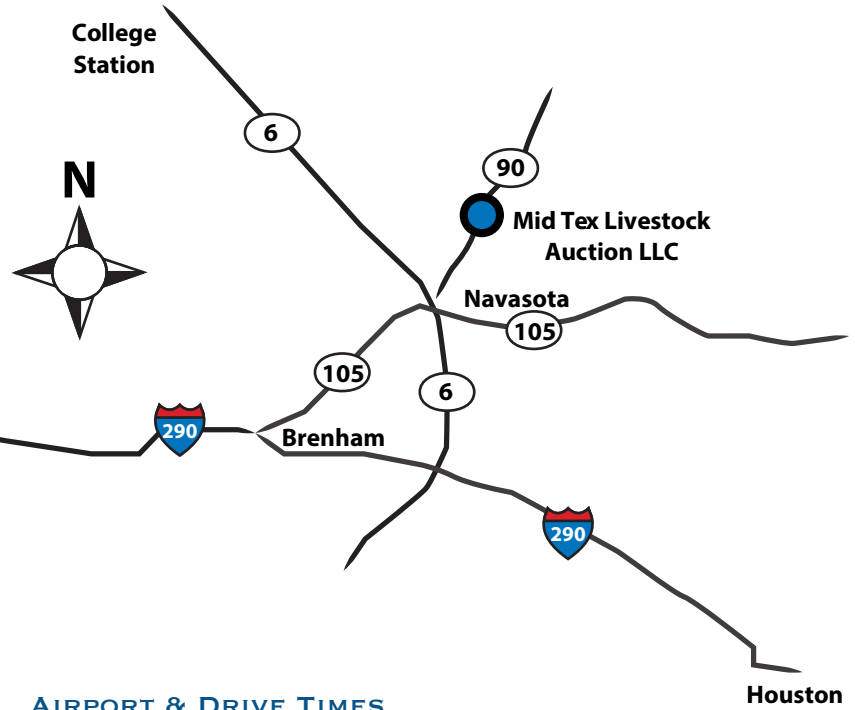

- ✓ EPD ranking summary
- ✓ Added market exposure
- ✓ Genetic improvement tool
- ✓ Access to AHA resources
- ✓ Get started at [HerefordFeederCattle.com](http://HerefordFeederCattle.com)

“The Hereford Advantage program helps us to focus on providing the best quality genetics that we can possibly provide to our customers - the cattle feeder. We try to select bulls who will sire calves that will excel in the feed yard.”

**-NANCY BOWLING**  
BOWLING RANCH, NEWKIRK, OKLA.

Certified Hereford Beef Index(CHB\$) is a terminal sire index that is built on a production system where Hereford bulls are used on Angus-based cows with a focus on feedlot performance and end-product merit. To qualify for the Hereford Advantage program, cattle must be sired by registered Hereford bulls with transferred ownership, and the Hereford bull battery must have a CHB\$ value ranking in the top 50%.
