Dear Friends and Wagyu Breeders,

On behalf of your sale host, Misty Lane Cattle, and fellow sellers, Crossbow Cattle, Wagyu Florida and Donnarra Thoroughbreds, I would like to welcome you to Ocala, Florida. The state of Florida along with the rest of the United States, has seen in recent years a large growth in the interest and production of Wagyu Cattle, and we are proud to present this offering to you.

For generations, one of the most important things that a cattleman will pass to the next generation is to develop cow families that you can rely on and produce. As you study this catalog, I think you will find that the breeders involved in this sale have developed true and productive cow families. These are dependable, hard working cows that produce the highest of quality. This will be a great opportunity for anybody new to the Wagyu Breed to get a head start on developing a cow herd, but also a great opportunity for any veteran Wagyu breeders to improve on their herds.

It has been a pleasure to work with the breeders that make up this sale. I would like to give a special thank you to Michael Deas of Misty Lane Cattle for all of the time and effort he has put in to make this sale a success.

I look forward to seeing you on sale day. If you can not make it to the sale, feel free to watch and bid online at superiorclicktobid.com. If you have any questions, or would just like to talk about cattle, do not hesitate to contact me.

Sincerely,
Robert Schacher

	BW	Adj. WW	SCD	Tenderness
AA				6.91%

1442Y is a great way to feature Misty Lane's cow families. She is an extremely long and elegant female, that has a perfect structure and a perfect front end. Her sire is the very popular Haruki 2 known for consistent marbling, growth and milk. Haruki 2 has proven his worth by producing one of the most prominent sires in the breed, Shigeshigetani. 1442's dam is sired by one of the high selling bulls to come out of Lone Mountain Ranch in Yojimbo, that sold to Monarch Farms, LA. On the bottom side of her pedigree, she is nearly pure Tajima breeding for added milk and maternal, as well as, carcass qualities.

Genetic Defects: **FREE BY PEDIGREE**
 AI bred 4/17/2020 to FB 7719 BAR R 56T. PE 5/1-7/13 to FB 28464. Preg checked safe and due 3/6/2021. Projected Heifer.

F043's sire is TBR Mitsufuku 9028W, who is a big bodied, huge ribbed bull that has lots of muscle. Combined with her well balanced dam 1442Y, F043 projects to be a future cornerstone to any Donor program. Added Muscle, Milk, Marbling and size is tied up in a smooth shouldered, nice fronted female.

ML MS HARUKIFUKU F043 ET Sells as Lot 2.

191X is another Haruki 2 daughter that we chose to build our herd around. In the Australian Wagyu Association's Breedplan, 191X ranks in the top 5% for both Ribeye Area (Eye Muscle Area) and Retail Yield. You can tell from looking at her that she, and her progeny have plenty of muscle, which is a significant trait to improve retail yield. She is a deep bodied, larger framed cow that will add size and growth to your herd. The bottom side of her pedigree reveals that she is not only double bred Michifuku, but has Kikuyasu-400 as well. 191X is well balanced for growth and carcass.

If you are looking for foundation genetics in a powerful package, be sure to find D020 when you get here. Her sire is a direct son of Itozuru Doi (TF151) from the Fujioshi line known for excellent Marbling, structure, depth and adequate milk, and on the bottom side traces to one of the most prolific and famous cows in the breed, World K's Suzutani, the Dam of Shigesigetani and Sanjiro.

This Shigeshigetani ranks in the top 1% of the Australian Breedplan for both Eye Muscle Area (REA) and Retail Beef Yield. She is a big and powerful female that is big footed and stands on a heavy bone structure. She is very angular and structurally correct. If you look at her daughters featured here, you can see that she passes this stout make and cow look to her offspring. Keep this family together if you need added growth, weight and performance to your herd.

0118X is a perfect example of the Fujiyoshi line of genetics with her perfect structure, length of body combined with depth and shape to her rib. Fine marbling and good milk. This line is also considered very fertile, and this is evidenced with eight progeny from this cow family to sell in this sale. On the bottom of her pedigree she has an added shot of Tajima to increase marbling. 0118X ranks in the upper 20% for growth traits and 5% for milk according to Breedplan.

D058 is a full sister to C137. She is a huge bodied cow with size, volume and a giant rib-cage. Her genetics, as her full sister, are very well balanced in carcass, growth and maternal traits. With her dam in the upper echelon for growth and Milk, and her sire in the top 5% of Breedplan for both Marbling Score and Marble Fineness. If you are looking for proof of what kind of cow she is, look no further than the twin daughters she raised as lots 17 and 18.

ML MS YASUFUKU 2 F035A Sells as Lot 17.

These are natural twins out of D058. By adding Itoshigenami to the already well balanced pedigree, you promote a very high end carcass. These females have muscle, length, proven marbling genetics, and the ability to raise calves.

F093 is the only daughter of 0202X in this sale, but I believe that you have to appreciate the outstanding look that she brings. She is a very structurally correct female that has nice clean joints, and an exceptional stride. Very feminine through the front end, and she is the kind that cattlemen fall in love with visually. She has a nice pedigree that is a unique blend of Tajima and the finest in Takeda Farms genetics.

ML MS HIRASHIGEMACHO F093 Sells as Lot 23.

184X Family

The Matron of the 0184X family is certainly one that you will recognize when you go to your pasture. She has a distinguished look with her sound frame and structure, her level and powerful hip and a perfect angle to her shoulder to provide for longevity. She is safe in calf to Marbling and Carcass King 30T with a projected heifer calf, you can start your own 0184X family with a powerful calf like this. Stout, sound and clean jointed with a great stride, continue the legacy of 0184X.

9337W is heavy Tajima bred for excellent marbling and meat as evidenced by her higher EBV's for muscle, marbling and marble fineness. She is a moderate sized cow that is very deep in her rib and maintains that depth from end to end. As you will see from the females in her family, she passes these traits with ease.

G084's sire is Kousyun, one of only two bulls that the US had access to that are son of the most famous bull in Japan, Yasafuku 930. Kousyun daughters are rare, so this is a real opportunity to build a donor program around this 782T cow family. As G084 grows you will see depth of rib and excellent muscling.

ML MS KOUSYUN G084 Sells as Lot 51.

707T Family

Four flush sisters implanted in consecutive years make up the 707T Family. They offer a nice blend of Fujiyoshi and Tajima for excellent carcass, marbling, marbling quality, Milk and size. As you can see, the Fujiyoshi influx has created females with extra length, depth and muscle. Whether you are wanting females to start a herd around or produce high quality, high yielding carcasses, these full sisters should be kept together!

 Safe in calf for early spring to CX4 Kitaseki 102Z (FB14088).

2058Y was bred in the Triangle B Ranch program of Don Brown's. Don is known for the best use of Tekada Farms genetics, and 2058Y is no exception. Itomichi 1/2 was a direct import to Tekada farms from the Fujiyoshi line. The Dam is high Tajima and as you would expect from this mating, you get a larger framed, power cow with the ability to produce progeny with High quality, highly marbled carcasses with pounds and performance.

Sumo Cattle Co Michifuku F154, FB23407 whose main sire influence is by Fukutsuru-068, Michifuku, Haruki 2 and Takazakura. The sire F154 is probably the best sire to come available in the USA with no genetic diseases. He has a 2.0 Marble Score, .51 Marble Fineness, a \$302 Self Replacing Index which are all in the top 1%! If that weren't enough he also has a 38 Carcass Weight putting him in the top 6% for that category. We have his calves on the ground already and they are strong, great looking heifers! Here he has been mated to a well balanced female who shows sire influence from many of the breeds leaders. This young cow flushed 25 Grade #1's in her first flush! Quality embryos destined to produce extremely fertile progeny.
