# welcome

Our family would like to welcome you, your family, and friends to our 48th Annual Bull and Female Sale on Monday, January 18, 2021. I guess you could say 2020 was a year for the books - an open mild winter and spring for calving. We received early spring rains to get our grass started, then summer hit with extreme heat and not much rain. We put up very high quality hay, but not quite enough of it. We weaned the calves earlier than normal with their 205 day weights within a couple of pounds of normal. The cows are in very good shape going into winter.

With the select and choice spread in the beef market at higher levels it just makes sense to raise higher marbled cattle. This year's entire sale bull crop set at the top 15 % of the Hereford breed in marbling ability. We have worked at this slowly as we feel that marbling and fleshing ability are antagonistic. Balancing the two are essential to maintaining a practical and profitable cowherd.

With all the changes in the cattle market one thing is certain and more important than ever- high quality feeder cattle are worth more. With inputs continually rising, fast growing, feed efficient feeder cattle and replacement females are key. We feel that our type of easy fleshing, growthy Hereford cattle will add efficiency to most any cow herd. Our cow herd is managed without special treatment. We maintain our cow herd exactly as any good commercial operation — as inexpensively as possible. Our cows graze with no supplement nine months a year and calves receive no creep feed. As you look through the catalog, you may notice subtle differences in the bulls, but from top to bottom, they all have certain things in common: efficient mother cows with good, trouble free udders; thickness over the back; big hindquarters; balanced EPDs; long, strong backs; straight sound legs; Hereford libido; eye appeal; deep ribbed; good hair; good fertility and unconditionally guaranteed. This is a very powerful set of bulls. The quality runs deep through the entire offering. If you need heifer bulls, you will find 50-60 heifer bull prospects in this year's offering. We offer free delivery with a bull purchase of \$5,000 or \$100 off your bull if you haul them yourself. We offer delivery on the heifer calves at cost. In approximately two weeks, you will receive a fact sheet with the offerings' final weight, pelvic measurements and scrotal circumferences. Ultrasound data on the bull calves will be available in early January. We will post it to the website and will be available sale day. We will retain a quarter semen interest in all sale bulls. Cattle will sell in catalog order.

**TERMS AND CONDITIONS.** Van Newkirk Herefords offers an unconditional guarantee. Satisfied, repeat customers are important to us. We feel that we own these bulls through the first breeding season, so if you have a problem, call us. We also retain 1/4 semen interest in each sale bull. All animals, of breeding age, are guaranteed breeders. Animals failing to breed after a trial of six months may be returned to us.

Terms of the sale, cash. All settlements must be made at close of sale or arrangements made with Van Newkirks. Any dispute as to the bids or bidders will be settled by the auctioneer, whose decision shall be final. Extreme caution has been taken in copying each pedigree to avoid errors, but we are not to be held responsible for any error which might appear and which is beyond our control.

# The Bulls

## WHAT SETS

## CATTLE APART?

**Van Newkirk bulls are in the top 2% of the breed for Milk and Growth!**

**LENGTH:** *Bottom line, you sell by the pound. The extra length of Van Newkirk bulls adds serious pounds and profits to your calves. Length helps you maintain calving ease with heavier calves.*

**LONGEVITY:** *Structural correctness and easy fleshing ability have been bred into Van Newkirk bulls since 1947. Van Newkirk bulls are working from south Texas to Canada, Virginia to California. Their easy fleshing ability and structural correctness allows them to perform well in any environment.*

**CONSISTENT QUALITY:** *It takes generations of breeding and culling for quality genetics, otherwise you end up with one hit wonders that don't breed consistently. When you walk thru a sale offering every bull should look the same-no bottom end. That's a sign of how those bulls will breed and how their calves will look. Even, consistent calves make you money. Van Newkirk bulls breed predictability. They are backed by 70+ years of quality genetics. The quality of Van Newkirk bulls runs deep, there is no bottom end. Every bull selling is raised by his natural mother in commercial cattle conditions.*

**DOCILITY:** *Easy going, quiet cattle is important. It impacts your safety, as well as your calves efficiency and rate of gain and carcass quality.*

**BREED LEADING CARCASS:** *Several sale bulls are in the top 1% of the breed for marbling. The marbling average of 217 bulls is in the top 15% of the breed. With more cattle selling on the grid; and tracking of feeder cattle, marbling matters.*

**BULLET-PROOF TWO YEAR OLDS:** *Van Newkirk two-year old bulls are ready to go to work and breed a lot of cows in any environment. They hold up really well and don't require any special treatment, because they weren't overfed as yearlings.*

**THE COWHERD:** *Van Newkirk bulls breed predictability. They breed strong because of our 70+ years of using top-quality genetics. Not one hit wonders. These bulls are raised by their own mothers in realistic conditions. We have never sold off our top females. Our cows are some of the best in the breed.*

*Yearling Bulls* This elite group of bull calves represents our latest and freshest genetics. Many of these calves could be used on heifers. We think you'll appreciate their length, thickness, and performance. They will not be highly fitted, but should weigh 900-1,000 lb. by sale day. Ultrasound data will be available on Facebook and our website in early January as well as sale day. These pictures were taken in November; you may want to check out their individual videos at [www.VanNewkirkHerefords.com](http://www.VanNewkirkHerefords.com).
