Cant Join Us?

We would love to see you sale day, however if you prefer to bid remotely you can bid on SuperiorClickToBid.com or by phone.

Bid by Phone:

- » Register for a buyer number on SuperiorLivestock.com.
Click on "Register for a Buyer Number" tab.
- » Print form, fill out and fax to 817-378-3380 or email to info@SuperiorLivestock.com
- » Superior will call you with a buyer's number and bid line phone number.

Bid Online:

- » Log into your existing account or create an account on SuperiorClickToBid.com.
- » Once logged in register for a buyer number. You will receive a confirmation email when approved.*Note: High speed Internet is required.

— COVID-19 —

We don't foresee any schedule changes however this has been the year of unknowns. Should there be any changes to the schedule we will post them on our website, PerezCattleCo.com or feel free to give us a call.

Dear Cattleman,

First of all, I want to thank each of you who have supported our sale in the past, and I would like to welcome all newcomers to our annual bull sale. The support and participation that we have received at the Quay Country Fairgrounds location in Tucumcari has been outstanding, yet due to the COVID-19 restrictions that the governor has put in place on all government facilities in N.M. we are unable to rent the Quay County facility. Therefore, we will be hosting the sale at the ranch in Nara Visa this year.

As I write this letter in mid-January, the forecasters are optimistic for the cattle market when looking toward fall and winter 2021, which is promising. There's never been a time like the present when quality cattle are in high demand and forward-contracting calves is the new norm. It's been rewarding to assist our customers in marketing their calves and positively impacting their bottom line. Feel free to contact us about your replacement females and commercial calves and we will do our best to help you market them to get the best price.

It's been satisfying to watch this set of bulls mature and develop. As you flip through the catalog, you'll see that quality and consistency run deeper than ever. These bulls are built for the progressive cattleman and have proven to adapt to any environment—from a high mountain range to The Gulf Coast.

We invite you to come view the bulls in person and enjoy a steak on February 23, 2021 at the ranch in Nara Visa. Please don't hesitate to call should you have any questions on the bulls. The option of online or phone bidding will again be available through SuperiorClickToBid.com. Thanks for the opportunity to be your bull source!

CATTLE COMPANY

SALE TERMS

Terms are cash. The cattle will sell under the standard terms and conditions as recommended by the American Hereford Association. Announcements from the auction block will take precedence over any catalog information. The animal becomes the property of the purchaser as soon as sold, but it shall be the responsibility of the seller to see that animals are properly cared for until delivery to the purchaser. Any death or injury after the animal is sold is at the buyer's risk.

HERD HEALTH

All cattle will be accompanied with proper health certificates for immediate shipment to most locations in the United States. All bulls are IE, HY and diluter free by pedigree and will be Trich, semen and fertility tested as well as vaccinated.

LIABILITY

Pérez Cattle Company shall not be held responsible for any injury, loss, damage, or illness.

INSURANCE

Frank Garnett, Garnett Insurance LLC....575-487-0515

SALE VIDEOS & PICTURES

Videos and pictorial pedigrees (dam, sire, MGS) of each lot can be viewed at PerezCattleCo.com.

Endure was the 2017 high selling bull of the breed. His calves, as group lead the pack here at Perez Cattle Company. Endure has an exceptional EPD profile, extra eye pigment and an outstanding phenotype. His dam who is also the dam of NJW Mighty 49C is a lead donor at NJW Polled Herefords. The sons in this sale are out of our lead donors and we are excited at the potential they have.

Herd bull candidate. 9331 and his two full brothers are the result of mating one of the best Holden cows, 1181, with arguably one of the most popular polled bulls in recent times, Endure 173D. Not only does 9331 chart very strong figures from calving ease and performance to carcass, he's very impressive to look at. 9331 is a proud, attractive bull with extra width, shape and expression of muscle.

1.3	1.4	0.054	0.61	0.15	461	545	128

Herd Bull candidate. 9368 along with his brothers are simply the right kind. The maternal power in this bull's pedigree along with his build make him a herd mover. Visually he's so deep bodied, wide based and massive in his build, the sky is the limit on the lasting effect he could have a cow herd.

9364 is one of three brothers whose dam, 1181, is one my all time favorite L1 females that we are so fortunate to own. If your emphasis is on the maternal side, make sure to mark this one. 9364 is so true in his muscle shape and always gives you a good look.

A herd bull deluxe. 9329 is a smooth polled, big, red-eyed son of Endure that will grab and demand your attention. Visually he's a nicely balanced, level topped, square hipped bull that really tracks wide and true from behind. When you combine his phenotype along with his growth and carcass figures, he's a bull that a lot of operations can put their trust in.

9328 scores really high on my card. I personally love this bull's power, length of body and muscle shape. He is a dark red, goggle eyed bull that's just plain powerful. Numerically he charts with extra growth and carcass quality.

6 PCC 6020 173D ENDURE 9372 ET

Each year there always seems to be an individual that continues to gravitate to the front. 0155 grabbed my attention on day one and still has it. He's a high performing, huge ribbed, long sided, wide based bull that just shouts Herd Bull Potential. His EPD profile is so strong with emphasis on performance, udder quality and carcass merit with a CHB index of 132! His dam, 7009, has proved herself on this first set of ET calves to be the best up-and-coming donor on the ranch. Big time potential here.

Easily one of the highest quality bulls in the sale with herd bull potential. I just love the presence and balance this bull offers. He's so extended up front, strong topped, square hipped and perfect in his structure. His dam, 7009, is a powerhouse female that has a beautiful udder and has definitely proved herself on this first set of transplant calves. As you glance at his EPD spread, it's hard to get this kind of combination from birth to yearling to maternal and to carcass.

0159 is a fast-growing, big outlined, dark red Endure 173D son who has the look of a herd bull. You'll love his dark red color, big red eyes and huge testicles. 0159 charts with one of the highest YW EPDs at 117 with a very impressive CHB index of 138. His dam, 7037, is a beauty of a female and will continue to play a major role here at PCC.

A big outlined, powerful, performance Endure 173D son that has just exploded since weaning. You'll really like his deep, dark red color and big red eyes. 0186 reads with power from every angle and steps out with substance and authority. Genetically his high performing offspring should excel in their carcass traits and maternal strengths.

Impressive would be the best way to describe Mighty 49C calves. His bulls are extremely well balanced, heavily muscled and very correct in their structure. His daughters are huge-ribbed, wide-based, attractive cattle that really maintain well on natural range conditions. He has proven to be a GREAT choice for our Hutton daughters. His progeny have been in high demand by both seedstock and commercial producers. Conventional and sexed heifer semen is available. See page 50.

Striking and powerful are the quick words that fit this Herd Bull candidate. This Mighty 49C x Shelia 457Y mating always works. This bull moves and always stops and poses with such a commanding presence. 9379 reads great on paper and truly has the Herd Bull look. We have three full sisters to 9379 that have already made the donor pen with more to come.

Herd bull alert. 0211 is a solid marked, deep red, heavily pigmented, horned Mandate son loaded with mass and dimension. He is a really loose structured, sound moving bull that carries himself with a lot of presence. On paper you'll see he has a big spread bull from birth to yearling and reads very strong on his indexes.

A Mandate son that really excites me. This bull is so correct in his balance and design and yet packed full of meat and moves so true when put in motion. His dam, 4006, is arguably our most consistent producer and seems to click with every mating. The balanced EPD profile and phenotype 0210 offers make him an excellent herd bull choice.

Ribeye 6105 was our high selling bull in the 2018 bull sale selling to NJW Polled Herefords. He is backed by an extremely strong cow family and his calves are powerfully designed and stout made with a lot of rib and volume. Look to him to add weight to your calf crop and keeper heifers. Conventional semen is available. See page 50.

We can't say enough about the true impact this bull has had on our cow herd. His daughters are low maintenance, productive females that are just the right kind of brood cows. His calves are vigorous at birth, offering true calving ease and expressing explosive growth. The Hutton 109Z bull calves are loaded with muscle and performance and can hold their condition throughout the breeding season in the toughest terrains and conditions. Conventional and sexed heifer semen is available. See page 50.

If your needs in a bull are moderation, width, mass and volume, be sure to circle 9350. It's hard to put this kind of muscle and rib in a bull while keeping calving ease and longevity in play. His dam, 5036, is among our best females with unmatched udder quality. Hutton 109Z has truly left his mark on the Hereford breed and in our cow herd. This is your chance to acquire one of his most complete sons yet.

9815 will have a lot of friends on sale day. He's the bull my dad always gravitates to and comments on. He's a long fronted, big outlined, attractive bull that's easy to find in the pen. His steer calves will be sure to weigh heavy, yet he's the kind that you'll want to retain every female out of.

I really like the beef-bull look found in 9813. High performing, long sided, and massive designed are just a few words that describe this guy. He's one that could really add some mass and weight to a set of steers and yet put that do-ability, maternal look in a set of heifers. This bull is out of a purebred cow that is not registered so he will sell as a commercial bull without registration papers.

I put a high mark on this powerhouse individual. 9849 really gives you a nice profile and yet has a huge top, stifle and quarter. If you feed out your steers, this guy could really improve the yield grade in a set of feedlot cattle.

71 PCC 3079 6848 RAINDANCE 9807

Something different here. We bought a group of Red Angus heifers from Ludvigson out of Billings, MT. If you're in search of a Red Angus bull that has a lot of middle, width and power, take a look at his guy. Watch him walk away and you will see the true width and mass he offers. This bull can be registered if desired.

Thank you

Stand out with Proven Genetics

THE HEREFORD ADVANTAGE PROGRAM

Increase added market power and brand recognition with feeder cattle sired by a Hereford bull battery ranking in the top 50% for CHB\$ index.

PROGRAM BENEFITS:

- ✓ EPD ranking summary
- ✓ Added market exposure
- ✓ Genetic improvement tool
- ✓ Access to AHA resources
- ✓ Get started at HerefordFeederCattle.com

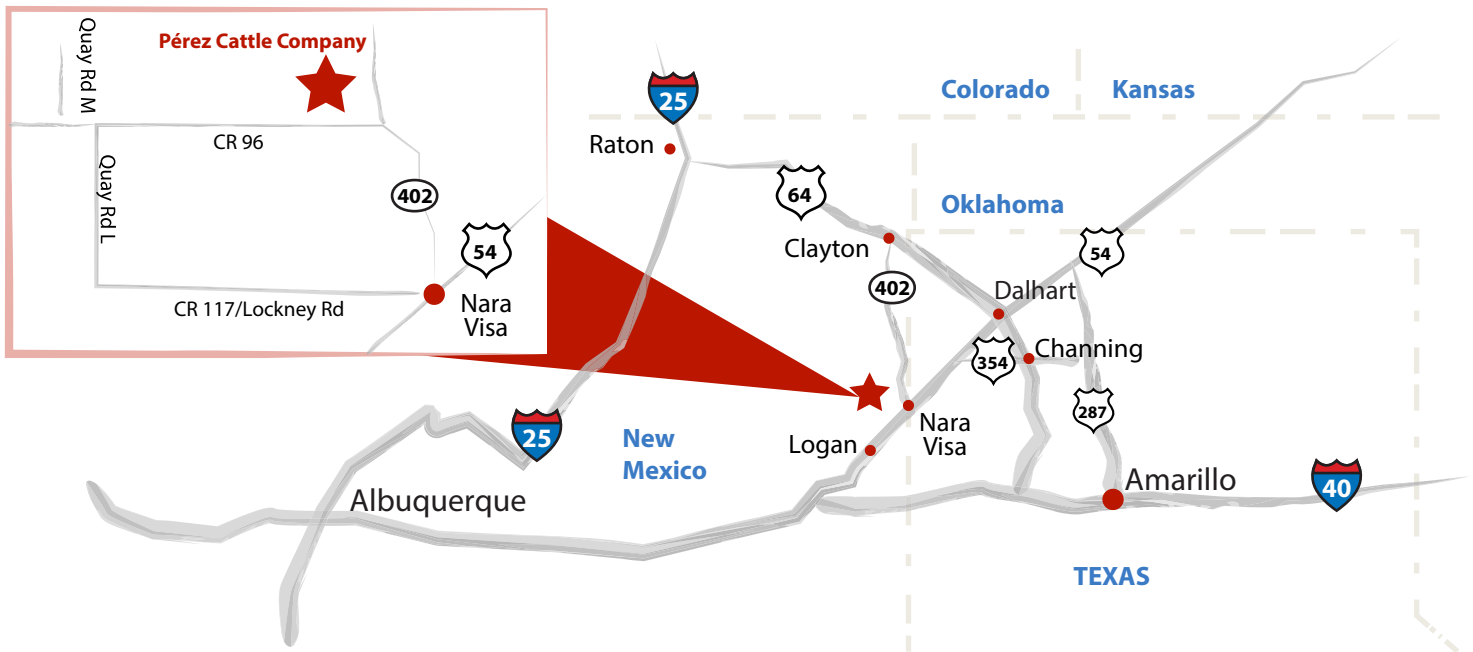

“The Hereford Advantage program helps us to focus on providing the best quality genetics that we can possibly provide to our customers - the cattle feeder. We try to select bulls who will sire calves that will excel in the feed yard.”

-NANCY BOWLING
BOWLING RANCH, NEWKIRK, OKLA.

Certified Hereford Beef Index(CHB\$) is a terminal sire index that is built on a production system where Hereford bulls are used on Angus-based cows with a focus on feedlot performance and end-product merit. To qualify for the Hereford Advantage program, cattle must be sired by registered Hereford bulls with transferred ownership, and the Hereford bull battery must have a CHB\$ value ranking in the top 50%.

Sale Day Location

NEW SALE LOCATION

Pérez Cattle Company
901 Quay Road 96
Nara Visa, NM 88430

From Nara Visa, NM head north on HWY 402. Follow for 3.5 miles to Quay Road 96, turn left (west). Follow dirt road for 2 miles, sale location will be on the right-hand side.

From Clayton, NM head south on HWY 402. Follow for 58.5 miles to Quay Road 96, turn right (west). Follow dirt road for 2 miles, sale location will be on the right-hand side.
