Spring Bull Sale

**470 ANGUS &
53 HEREFORD
BULLS SELL**

11:30 AM (CST)

at the Ranch - Yukon, Oklahoma

Welcome!

Welcome to our 27th Annual Spring Bull Sale! We would like to take this opportunity to thank all of our past customers and welcome potential new customers to this exciting event. As we all know, one of the most important decisions and investments you make as a cattlemen is your selection of herd bulls as it dramatically effects your cow herd and its profitability.

Each year we strive to raise the best bulls that we possibly can by utilizing common sense combined with all the technology and information available. All the bulls selling have genomically enhanced EPDs and Dr. LD Barker has semen checked all the bulls selling and they are backed with a first breeding season guarantee.

Listed below is how the Express Ranches Angus Bull offering stacks up as compared to the average of the Angus Breed:

470 ANGUS SALE BULLS

EXPRESS SALE BULL AVERAGE	EXPRESS ANGUS SALE BULLS	ANGUS BREED AVERAGE
Yearling Weight 1,324 lbs.	450 Bulls Over	1,138 lbs. Yearling Weight
Yearling Wt. EPD +124 lbs.	427 Bulls Over	+100 lbs. Yearling Wt. EPD
Ribeye Area 14.73 sq. in.	423 Bulls Over	12.57 sq. in. Ribeye Area
Ribeye Area EPD +0.66	300 Bulls Over	0.57 Ribeye Area EPD
Weaning Weight 725 lbs.	370 Bulls Over	650 lbs. Weaning Weight
Weaning Wt. EPD +70 lbs.	412 Bulls Over	57 lbs. Weaning Wt. EPD
Birth Wt. EPD +1.42	213 Bulls Below	+1.2 Birth Wt. EPD
Calving-Ease Direct +7.7	338 Bulls Over	+6.0 Calving-Ease Direct
Percent IMF 5.67	469 Bulls Over	+3.82 Percent IMF
Marbling EPD +0.77	342 Bulls Over	+0.56 Marbling EPD
SWearing Index S69	410 Bulls Over	S56 S Weaning Index
SBeef Index S152	478 Bulls Over	S130 S Beef Index
SCombined Index S250.27	363 Bulls Over	S225 S Combined Index

In closing, each year we strive to continue to earn your business by listening to the needs of our customers as well as using our product in our own commercial operations. We can definitely say this is the strongest set of bulls on the Angus and Hereford side that we have produced and if Kevin, Donnie, Mark, Miles, Jason or myself or any of the crew can be of assistance please contact us at any time.

Thanks for your interest and continued support.

Sincerely,

Jarold Callahan

Jarold Callahan, Express Ranches President

EXPRESS RANCHES HERD HEALTH

Recommended by Dr. L.D. Barker, Professional Animal Health, Newcastle, Oklahoma

Calves:

- At Birth – CALF-GUARD1
 At 3 Months of age
1. Enforce 3
 2. SoliDose Respiratory (Manhemia Hemolytica, Pasturella, Multocita, Mycoplasma, Histophilus somonus - Dual Dose Vac)
 3. Calvary 9
 4. Multimin

At Weaning:

1. Bovi-Shield Gold 5 VL5 HB
2. Calvary 9
3. Pinkeye/Footrot Vac (SoliDose)
4. Deworm
5. SoliDose Respiratory (Manhemia Hemolytica, Pasturella, Multocita, Mycoplasma, Histophilus Somonus - Dual Dose Vac)
6. Multimin

1 Month Post Weaning:

1. Calfood Vac- Heifers
 2. Bovi-Shield Gold 5 VL5 HB
- Cowherd:

Open- 30 Days Pre-Breeding:

1. Bovi-Shield Gold 5 VL5 HB
2. Calvary 9
3. Multimin
4. Deworm

Cows at Preg-Check:

1. 5 way Lepto
2. Deworm
3. 1st-Calf Heifers – Scour Guard 4KC at 6 weeks and 3 weeks prior to calving.

Bulls - 30 Days Pre-Breeding:

1. Breeding Soundness Exam
2. Bovi-Shield Gold 5 VL5 HB
3. Calvary 9
4. Deworm
5. Multimin

1 Rota-corona virus vaccine administered prior to nursing.

2 May be given to calves nursing pregnant cows if cows have been vaccinated within the previous year with Bovi-Shield (or PregGuard).

NOTES

No more than three gram (-) vaccines administered at one time "5-way" Lepto administered twice annually (~ 6 month intervals) in "high risk" herds and once annually in "low risk" herds Bovi-Shield may be used in calves nursing pregnant heifers/cows or in pregnant heifers/cows if the heifers/cows were vaccinated within 12 months. Bovi-Shield must be given initially to open females. ScourGuard 3 (K)/C should be administered pre-calving if calf scours is a problem. This should be administered twice (at least two weeks apart) the first year, with the second dose given 2-3 weeks before calving. A single annual booster may be given 2-3 weeks before each subsequent calving. Heifers' calves are twice as likely to develop scours as calves born to mature cows.

HOW TO ABSENTEE BID

Live Internet Bidding will be available for the Express Ranches' 2021 Spring Bull Sale

Technical Support:
(682) 816-4900
Techsupport@liveAuctions.tv

Details on Page 136

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' a call-in service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at...

www.superiorlive.com or www.liveauctions.tv

Please refer to the detailed how-to-bid information which can be found on page 136 of this sale catalog.

All the bulls selling have genomically enhanced EPDs and are free of all known genetic defects by pedigree or genetic testing.

DIRECTIONS TO EXPRESS RANCHES

The ranch and sale headquarters is located west of Oklahoma City just north of Yukon, OK. Take the Garth Brooks exit (Exit 136) off of I-40 in Yukon. Go 3.5 miles north. The sale entrance is the second entrance to the ranch on the east side of the road.

EXPRESS RANCHES BREEDING GUARANTEE

We guarantee that all bulls sold by Express Ranches are fertile to the best of our knowledge and have passed a Breeding Soundness Exam 30 to 45 days prior to the sale. Although all bulls have passed a BSE, we know certain problems can arise after you receive your purchase. To help ensure your investment, Express Ranches will guarantee all bulls selling against breeding injury, and to be sound breeders for the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. We will provide you with a satisfactory replacement, if available, or issue you a credit equal to the bull's purchase price minus the salvage value received for that bull. This is not a life insurance policy however. We will not replace a dead animal if it is killed or dies for any reason. Each year we strive to raise the best bulls we possibly can by utilizing common sense combined with all the technology and information available. All the bulls selling have genomically enhanced EPDs and are free of all known genetic defects by pedigree or genetic testing. Dr. LD Barker has semen checked all the bulls selling and they are backed with a first breeding season guarantee.

FREE DELIVERY TO CENTRAL LOCATIONS (BULLS ONLY)

Express Ranches offers its customers free delivery to anywhere in the lower 48 states. As a part of that delivery we work with reputable livestock transportation companies that we feel comfortable with in the handling of your cattle in both a professional and conscientious way. Express Ranches will do everything possible to deliver your cattle to a central location that is convenient for both you and the trucking company. Central locations for delivery will include auction barns, vet clinics and ranches that offer to serve as a delivery point. We will map out the route after the sale and do our best to get your bulls to you as quickly and conveniently as possible. If you would like to insure your cattle, you can do so on sale day. Most of the cattle to be delivered from the sale are delivered within 30 days after the sale. If you have any questions on delivery, please notify Kevin Hafner at (405) 641-8100.

Please assist us by leaving the correct contact people and numbers so our staff can keep you informed as to the status of your delivery.

We will also be offering a **\$50 PER HEAD REBATE** (bulls only) for customers who arrange to pick up their bulls here at our sale location within one week of the sale.

VOLUME DISCOUNTS

In an effort to show our appreciation to our loyal customers, we once again will be offering our VOLUME DISCOUNTS! Remember, if you need a large number of bulls we have you covered!

5-9 BULLS, 5%

WE'LL TAKE OFF 5% PURCHASE PRICE AT SETTLEMENT

10 OR MORE, MAKE IT 10%

WE HOPE THIS WILL MAKE IT A LITTLE EASIER TO FILL THE TRUCK!

EXPRESS RANCHES BULL DEVELOPMENT

All bulls are developed on a high roughage ration from weaning until sale time in large traps allowing them to get out and be bulls! We feed to obtain optimum performance while not sacrificing longevity! While extreme weights are impressive, we feel keeping cattle sound and functional are equally important. We have spent countless hours developing a feeding program that not only allows us to amplify the genetic potential, but keeps the cowman in mind that purchases him. All Bulls are on a 40-45% hay-based ration fed not over 3% of body weight. After all scan data is retrieved, bulls are backed off of feed, and hardened up to first turn out condition. This allows us to eliminate the bulls that fail to respond when conditioning for the upcoming sale.

To sum it up, we try to get the bulls into the same shape we like to buy them in!

EX COOPERATOR BULLS

Express Ranches works with a select set of cooperators that purchase genetics from Express Ranches. We consult these programs on breeding and management decisions. The resulting bull calves that meet our requirements are sent to Express Ranches at weaning and are raised, developed and marketed through our program. These bulls are a designed product of Express Ranches and are bred to be consistent with what is bred and born on our ranch. These bulls are sold with the same strict standards, 100% guarantee and terms that every bull sold here carries. Express Ranches owns these bulls with each producer, but in some cases the breeder on the certificate may not show up as Express Ranches. They will all carry the EXAR name and be branded EX.

Best Six Head

YOU'VE DONE THE WORK.

Get paid for it.

You've invested in good genetics.
You've kept all the records.

AngusLinkSM combines USDA Process Verified Programs with a Genetic Merit Scorecard that gives buyers confidence in your calves. From age and source verification to cattle care and handling, you choose which programs make the most sense for you.

Group Age & Source: Verifies the group age and source of the cattle

Angus-Sired Genetics: Verifies calves are sired by 100% registered Angus bulls

Non-Hormone Treated Cattle: Verifies cattle have never received hormones

NeverEver³: No antibiotics, no hormones, no animal by-products ever

Cattle Care & Handling: Documents proper management, demonstrates quality commitment

Calf Management: Documents preventative health program

Genetic Merit ScorecardSM: Measures the genetic merit of calves for feedlot performance and carcass merit.

**Optional, not part of the PVP claims*

Easy and affordable, our customer service representatives walk you through the process.

EXAR Vanguard 0614B was selected to be the lead-off bull in this year's Cattlemen's Congress Reserve Grand Champion Pen of Five Bulls. Vanguard was extremely popular due to his outstanding phenotype, feet and leg structure, and off-the-chart growth EPDs, and all of this in an extremely well-balanced, attractive package. Proclaimed by many to be one of the most outstanding herd-sire prospects ever produced by Express Ranches. EXAR Vanguard 0614B will see heavy use at Express Ranches and has the ability to be an excellent semen seller.

Selling 100% Possession & 2/3 Semen Interest

EXAR Jetsetter 0613B combines moderate birth and explosive growth in a very attractive, structurally correct package. Jetsetter has double-digit calving-ease with a yearling weight EPD of 143. Jetsetter also has an excellent yearling scrotal circumference with over a 16 square inch ribeye. He also displays that extra width and dimension that the commercial industry is seeking.

3-Star Calving-Ease

Selling 100% Possession & 2/3 Semen Interest

EXAR Vast 0604B is a very rare and valuable individual in that he combines outstanding marbling genetics in a big-bodied, wide-made package. His sire, EXAR Monumental, has been a mainstay of the Express breeding program and EXAR Vast 0604B will continue that influence. His scrotal circumference and UIMF of 9% is also relatively unique. We believe this is a true herd-sire prospect with vast potential.

4-Star Calving-Ease

Selling 100% Possession & 2/3 Semen Interest

EXAR Strut 0043B is superior calving-ease posting a 17 CED with a negative 1.4 BW EPD, and he combines that with superior growth and an adjusted ribeye area of over 17 square inches. Don't overlook this young herd sire as he is a can't-miss heifer bull that still possesses phenotype, growth and muscle.

EXAR Expressive 0681B is a phenotypic standout that combines an amazing front end with a strong top and a powerful level hip. Sired by the popular Conley Express 7211 who is rapidly making his mark as a standout sire of winning show progeny, this February son descends from EXAR Lady 1414 who is a past reserve grand champion female of the National Junior Angus Show. Not only is EXAR Expressive 0681B an attractive, well-balanced bull, he is also excellent on his feet and legs and possesses excellent spring of rib.

Selling 100% Possession & 2/3 Semen Interest

EXAR Southern Charm 9821B has a tremendous cow for his mother that is featured in the Express embryo program. A maternal sister to this herd-sire prospect was a \$28,000 feature in the 2020 Express Ranches Big Event Sale. Posting a balanced set of EPDs, this son of Southern Charm is really good phenotypically.

Selling 100% Possession & 2/3 Semen Interest
3-Star Calving-Ease

EXAR AIRBORNE 0220 is a full sib to EXR Bankroll 8130 ET who is doing an outstanding job. This low birth weight son of BR Bell Air 6011 who was a two-time Denver Champion bull is long bodied, very correct and is red to the ground. His dam is rapidly becoming the top income producer at Express Ranches and this young herd sire prospect has the ingredients to be a great sire. *Top 5% Milk, Top 10% SBMI, Top 10% SCHB, Top 10% DMI, Top 10% UIMF, Top 10% UREA, Top 15% SBII, Top 15% BW, Top 20% Stay, Top 25% M&G*

EXR LEXUS 4208 ET • Dam of Lot 250

EXR BANKROLL 8130 ET • Full Brother to Lot 250

**Selling 100% Possession & 2/3 Semen Interest
3-Star Calving-Ease**

EXR Stash 0228 is a moderate birth extremely correct son of EXR Bankroll whose first sons sold very well at Churchill Herefords and this big scrotal herd sire prospect has been very popular among the visitors at Express.

XCEL FEEDYARD LLC

WATONGA, OKLAHOMA

Offering custom cattle feeding with competitive cost of gains and performance!

Common sense bull development with the ability to collect ultrasound data on site!

Replacement female development and breeding, with data collection on site!

Whether it's finishing your feeder calves, or developing purebred seedstock, Xcel has the technology and knowhow to get the job done.

Xcel prides itself on quality by offering rations that utilize steam flaked components adding palatability and utilization! Whether it's cost of gain or cost per day, we strive to maximize your investment while minimizing stress for you the producer!

We now specialize in heifer development, and can tailor a program to fit your needs to have them ready to breed on your target date!

Bull development is another area we now offer. We can maximize performance while paying attention to costs incurred and not sacrifice Bull longevity. By utilizing rations that will get the performance needed and not targeting maximums, we have kept cost per day figures much cheaper than most on the farm rations. This is mainly due to volume purchasing power, while not sacrificing quality of ingredients!

Take advantage of our centralized location, state of the art feeding technology, and knowledgeable staff with over sixty years combined experience in the cattle feeding and specialized programs industry.

Xcel, striving to earn your business by offering new programs to fit your individual feeding needs!

Understanding The Numbers...

PRODUCTION EPDs

Calving-Ease Direct (CED) is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW) expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW) expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW) expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

Dry Matter Intake (DMI) expressed in pounds per day, is a predictor of difference transmitting ability for feed intake during the postweaning phase, compared to that of other sires.

Scrotal Circumference EPD (SC) expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

Docility (Doc) is expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility. It predicts the average difference of progeny from a sire in comparison with another sire's calves. In herds where temperament problems are not an issue, this expected difference would not be realized.

FOOT SCORE EPDs

Claw Set EPD (Claw) is expressed in units of claw-set score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal claw set. The ideal claw set is toes that are symmetrical, even and appropriately spaced.

Foot Angle EPD (Angle) is expressed in units of foot-angle score, with a lower EPD being more favorable indicating a sire will produce progeny with more ideal foot angle. The ideal is a 45-degree angle at the pastern joint with appropriate toe length and heel depth.

MATERNAL EPDs

Heifer Pregnancy (HP) is a selection tool to increase the probability or chance of a sire's daughters becoming pregnant as first-calf heifers during a normal breeding season. A higher EPD is the more favorable direction and the EPD is reported in percentage units.

Calving-Ease Maternal (CEM) is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk) is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

Mature Weight EPD (MW) expressed in pounds, is a predictor of the difference in mature weight of daughters of a sire compared to the daughters of other sires.

CARCASS EPDs

Carcass Weight EPD (CW) expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

Marbling EPD (Marb) expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area EPD (RE) expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness EPD (Fat) expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire's progeny compared to progeny of other sires.

\$VALUE INDEXES

\$VALUE INDEXES an economic selection index allows multiple change in several different traits at once pertaining to a specific breeding objective. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires if the sires were randomly mated to cows and if calves were exposed to the same environment. [More Info](#)

Maternal Weaned Calf Value (\$M) an index, expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W) an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics from birth to weaning. The underlying objective being producers will retain 20% of the female progeny as replacements and sell the rest of the cull

females and their male counterparts as feeder calves. Traits included are as follows (in no particular order): birth weight, weaning weight, milk, and mature cow weight.

Feedlot Value (\$F) an index, expressed in dollars per head, to predict profitability differences in progeny due to genetics for postweaning feedlot merit compared to the progeny of other sires. The underlying objective assumes producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis, but with no consideration of premiums or discounts for quality and yield grade. Traits contributing directly to the index are as follows: yearling weight (gain), carcass weight and feed efficiency.

Grid Value (\$G) an index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for carcass grid merit compared to progeny of other sires. The underlying objective assumes producers will market cattle on an above-industry-average carcass grid. Traits included in the index are as follows (in no particular order): carcass weight, marbling, ribeye area, and fat.

Beef Value (\$B) a terminal index, expressed in dollars per carcass, to predict profitability differences in progeny due to genetics for postweaning and carcass traits. This terminal index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a carcass grid. Traits included in the index are as follows: yearling weight, dry-matter intake, marbling, carcass weight, ribeye area and fat.

Combined Value (\$C) expressed in dollars per head, is an index which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid. Expected progeny differences (EPDs) directly influencing a combined index: CED, CEM, WW, YW, Milk, HP, DOC, MW, Angle, Claw, DMI, Marb, CW, RE, and Fat.

Retained Interest In Bulls Selling

Please Note: We are selling 100% interest and full possession in all bulls unless noted in the footnotes or on sale day.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person sale day. Please note: All of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have consistent, high-speed internet. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form. Fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the

form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding platform for cattle buying. Please note: High speed internet is required—this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy—just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an email confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an email or call confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast via satellite on Dish Network channel 997. Please note: There is a delay if you are watching the auction on television so be sure to call in a couple lots ahead of the lot you are interested in bidding on. The sale will also be broadcast live on the internet at both www.superiorlivestock.com or www.superiorclicktobid.com. The video feed on the homepage of www.superiorlivestock.com looks the same as the video feed on TV and can be watched over a smartphone or tablet. Remember, you can call in to bid whether watching on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid".

Buyers will be contacted by the ranch after the sale for payment and delivery details.
IF YOU NEED ANY ASSISTANCE, CALL SUPERIOR AT (800) 422-2117.

Technical Support:

 TechSupport@LiveAuctions.tv

HERE'S HOW IT WORKS

Go to www.LiveAuctions.tv. Please note: you do NOT need an account to watch the auction, but you do need to register an account and request a buyer number if you wish to bid. If you have not created a new account since September 1, 2020, you will need to click "Register" in the top right corner of the homepage and create a new account. Once you have completed the form on this registration page and hit the "Register" button you will receive an email with a place to click on to verify you have entered a valid email address. Once you have completed this registration process, find the auction you are interested in on the homepage and click on it (sales are listed in chronological order). You should then see a box that says Login. Now that you have an account with LiveAuctions just type in your email Address and Password. You will now see a hyperlink at the top that says "Request a Buyer Number". The first time you request your first buyer number on LiveAuctions it will send you a text message with a verification code in it. Type the code from the text message into the area requiring it and you will then see your name along with a buyer number listed at the top of the webpage where the live video is and you will be able to bid. You will only have to complete this two-step verification process one time. After that you will be able to immediately request a buyer number on any auction without verification through an e-mail or text message again.

LiveAuctions no longer requires an app. If you wish to view/register/bid on a smartphone just type LiveAuctions.tv in whatever web browser you use. The registration process is the same as it is on a desktop computer, but the website is built mobile friendly. Click on the three lines in the top right corner to access the menus.

Buyers will be contacted by the ranch after the sale for payment and delivery details.
 If you need help registering to bid or to view the auction, call:
Technical Support at (682) 816-4900 or email us at TechSupport@LiveAuctions.tv.
