**WELCOME**

**THANK YOU FOR JOINING US THIS YEAR!**

**We hope you enjoy our events and know we look forward to bringing you the best mules in America.**

The consignors we have at our sale are here because they continue to bring the kind of mules our buyers need and deserve. The new consignors are required to send a video of their mule(s) before they are allowed to consign to the sale as a screening process in an effort to keep the saddle mules at their highest and best quality for you, our buyers. **Please be sure to talk with the consignors, investigate the mules qualities and be honest with yourself about your abilities to get matched up with the right mule. Please be sure the mule fits your abilities.**

The events that we include in this year's MULE DAYS are held as an effort to show the best qualities of the breed, and each year we feel we have accomplished this by bringing you better trained and better minded mules to our sale. Our goal is to bring together the best quality mules in the industry, while having fun. We want our buyers happy with their purchases, and we want them to continue to consider **Jake Clark's MULE DAYS** as **THE PLACE** to come for **America's Finest Select Saddle Mules.**

Our thanks to our friends and neighbors that have donated both financially, their valuable time, and suggestions to bring you this year's Mule Days.

**We are especially grateful to the friends & family that pull together to bring you Mule Days.**

He is the first one at the gate to be caught, loads by himself in the trailer, will stand tied all day and has impeccable ground manners and ground work. Well started in the show ring, both western and English. He will continue to be shown until sale day. He's great in the arena but even better in the mountains, he will cross water, logs, and brush with confidence. Has been started on heel-o-matic and out of the box and has great cow sense. Consignor has been with us:

- Year Started: 2014

• Wyatt is the most awesome sorrel john mule. He's big enough for the biggies and gentle enough for the littles. He is one of the BEST mules we have ever had the pleasure of offering. And for being only 7 years old we are beyond impressed with Wyatt. Literally everyone we have put on him loves him! He is 16 hands of "come and find you and hang out with you." He wants to be your best friend. He is kind to dogs and kids but will ride around for the more advanced rider as well. He will travel down the trail perfectly and with ease. Because he was the first one to the gate in the middle of the night when I got the call that my steers were out, I climbed on him bareback and we got to lope through the deep snow, in the dark to gather them and bring them back in. You can even rope one off him if you want to. I believe there is not a more loving, gentle mule around. You can catch him anywhere, if he doesn't catch you first. Pack anything on him with no worries or concerns. He lopes with a low head and is as smooth of a ride as you will find. He's good to shoe, clip and bathe. Loads and hauls quiet. Great with his ears and easy to bridle. He has a great back to hold a saddle but will take a britchen or a crupper but does not need them. Watch for additional videos and FMI call Jesse 307-699-1191.

Well trained, responsive to both leg and hand cues. Will stop, back, side passes easily. She is smooth riding with a show quality trot and collected canter. She has a light neckrein to lope circles and guide her through any trail you want. She's awesome on the ground easy to catch, loves being groomed, stands perfect to saddle and mount, willingly moves to a mounting block and waits on your cue to walk off. • Dillon is a nice 3-year-old buckskin dunn colt out of a registered AQHA cremello mare that stands 15 hands and our Scooter Bred Jack "Chancellor" and Double Bred Doc Bar breeding plus Three Bars and Iron Bars lineage. He was born gentle and really likes people. He will be lightly started to ride by sale day. He should mature to 15.2 hands and be able to do anything you would ask of him when he is finished with his training. He is one of those hard to find prospects that is country fresh. Don't pass up on this mule, he is going to continue to fill out as we feel he is about done growing taller and we look forward to seeing how much more of a heavy hip and front end his mama is going to contribute. He comes to meet you at the gate or in a pasture, wondering what treat you have for him today, yes just a little itching is a great treat. You'll see one picture when he was first born with his cremello mama and the picture of Dillon with granddaughter Dally. Dillon's summer of his birth year, Dally when she was 2-years-old. The mule colts all come over to check out this mini human, them in the big pasture, Dally in her yard. I'd say these colts like people, wouldn't you? Check out the mare's registration papers as well as the All Breed Query showing 5 generations on the mares side. Good Breeding makes a good minded colt! • Kate will be as pretty a mule as I have ever owned, She was bred and raised by our good friend Duane Peterson who is known for raising some of the best quality mules and Donkeys in the business, Kate stands a solid 15.2 hands and has as pretty a head and nice of conformation as there is, I have used her for everything here on the ranch and in the mountains, She is easy to catch, shoe, is both picket broke and hobble broke, She has been used all last summer moving cows and packing salt on a grazing permit in the Bighorn Mountains, and all fall hunting elk and deer, Katy has been shot off from and has packed meat and horns, She has been used to lead the pack string and to wrangle horses along with flag and halter break colts. I have hauled her to Arizona and trail ridden her exploring the desert country, She is very sure footed and will cross the bogs, logs, rivers and mountain passes with ease, She is good about her ears and likes people but is not a in your face pushy kind of mule. She gets along great with all the other mules and horses and is good around dogs. I personally really like this mule and she has been a lot fun, She has a real good one handed neck rein, is soft in the face and mouth, will side pass with ease. picks up her leads, lopes nice collected circles and is a very smooth riding mule. We have currently been working on some liberty training and are learning together there will be videos posted on our website as we get closer to the sale. Katy has real nice bone and a good sized foot, A big pretty eye and nice rounded hip. For more information or to come to the ranch and see Kate please call Jeff at 307-752-9319.

• This is a nice all-around mule with a great mind and good looks. LG (Little Girl) has always had a willing attitude and is fun to be around. She spent a year and a half with Paul Garrison in Medina Texas. She's mature enough to lead a pack-string or be in the string, cute enough for the show ring and confident enough to ride alone or in a group. LG is broke to britches, cruppers, ropes, traffic, bikers, hikers, wildlife, cattle, kids and more. She has an amazing amount of endurance. She seems to love carrying riders up mountains and will get you to the top faster than mules that are 2 hands taller than her. She does everything a good mule should and more. When she arrived to the Rocky Mountains last winter from Texas, she hadn't been rode for several months, it was 15 degrees and 6" of snow on the ground. We saddled her up and were trotting circles in the round pen 5 minutes later with no hump in her back. I have no problem trusting her around my kids or trail riding off alone to the middle of nowhere with no phone reception. As a mule trainer, I have the pleasure of spending many hours with many different mules. There have been a few that I "have" to train/ride, however, LG has always been one that I "get" to train/ride and I look forward to spending time with her. Her buyer receives a free, fun, private clinic with Whitehorse Mules and free lifetime phone support, which will help her buyer safely enjoy this mule as much as we have. See photos of LG's life on Whitehorse Mules Facebook and Instagram pages and a video on Whitehorse Mules YouTube Channel. Feel free to come try her before the sale, we are 2 hours W of Denver, Colorado. 509-366-7133.

• I watched Buckshot being born at my house on April 20, 2015. His momma was my mare, Sunkist, a calm mare with a good disposition, bred to a nice calm riding jack "Nate" owned by Sherry Pledger, Wyandotte, Oklahoma. Buckshot was imprinted and has been handled since birth. We have worked with him in hand and with a saddle on until he was 4 years old. We started riding in saddle at 4. He's been trail riding in Texas, Oklahoma and Arkansas, including 9 days at the National Championship Chuckwagon Races where we carried the American flag at the opening celebration. He will meet you at the gate, or anywhere in the pasture, whether you have a halter in your hand or not. Very calm and always ready to go. Buckshot stands well, is good with feet, been shod, good with clippers and enjoys being groomed. He is well built with a nice hip. Good with other equine, cows, dogs, cats, chickens, geese, bikes, ATV's and heavy equipment. He is ponying mules that are being trained as well as checking and moving cows. Buckshot walks off alone when asked in any environment, and has been riding in public arenas with lots of activity. He loads into any type of trailer and travels well! He is a very agreeable partner! If you are looking for your forever mule that can adapt with you and your adventures, then Buckshot is your mule! He is open minded and a willing partner to anything he is presented with. He will be 6 years old in April and has a great foundation for a long, successful life. He is good for any level of rider. We will miss him and his personality when he leaves. • SPORT is a good looking Sorrel mule with some cool chrome. He is a QH cross mule. He has tons of heart and is very tough. He can work all day long on the ranch helping you find, gather, pen, sort, rope and doctor your cattle. He can take you on a long, wonderful, breathtaking trail ride, short spin around the ranch or ride to the local coffee shop. He'll be there when you get back and that's the best part of all. We had the privilege to start this nice mule as a 3 yr old for a good friend. We rode him several more times on several occasions for the previous owner. We put lots of hours on him riding at the sale barn and lots of miles on the trails. The previous owner and his family did a great job thru the latter years of owning him. He has been used for many mule team ropings and several horse team ropings. He is a seasoned at Team Roping on both ends. A lot of people of different ages have roped on him thru these years. They also rode him at the National Championship Chuckwagon Races in Clinton, AR every year since he was 4. He was seasoned there to loud music, crazy people hoopin' & hollerin', all types of wagons large & small clanging and banging along, flashing disco lights, rode day & night, waded thru deep rivers, climbing thru rocks, going off steep ravines, rode to Downtown Clinton for a fish fry, gathered wild horses, rode around barking dogs and little kids running around. While there he was tied on a tie line, kept behind paneled corrals, white hot wire tape, & even spent some of the time just tied to the trailer. All these things thrown at an equine at one time help season them and desensitize them in a special and unique way. We had told the previous owner if he ever sold him, to please give us first shot and he did. We are very happy to have him with us and to represent him at the best saddle mule sale in the nation. We never try to say any equine is bombproof but he's real close. A rider can brush, clip, pick his hooves, halter, bridle, saddle, mount and ride off this mule with confidence. They can also load him, haul him and ride him in different places. We have been using him on the ranch, for our cowboy camps, riding lessons, parades, hunting, packing and all types of trailrides. He is really a special mule and we know he will be the type that someone will keep forever. We are located in Okolona, AR. If you would like to come test ride him here or ride him at Jake's before the sale, just give us a call. We have a YouTube video of SPORT attached. If you are interested in buying him and have questions, give us a call. If you would like to see other things in our videos, please let us know. • Molly is a pretty dun mule with barring all over her legs, stripe down her back and across the withers. She stands a little over 15.1 hands tall. She has been with my family since she was three years old. She's now nine. Molly's been used in the local livestock barn penning, sorting, gathering pens and loading trucks. I have used her to day work, gather big hilly pastures, rope, doctor, and catch some not so willing mother cows. She pulls good from the horn. She's even done well for me in a few ranch rodeos. She will run hard after unruly bovine. Crosses ditches and rides through brush (even when the tree limbs are so low they pull the bridle off). This past winter it had froze just enough that the creeks had a layer of ice just barely covered with snow. She broke through the ice when crossing, she crossed for me everytime. She enjoys going for a easy ride down the gravel road or out in the pasture. We took her to a parade summer of 2019, my best friend was eating potato chips. That's where her love for potato chips began. Molly's sound. She saddles good. Not ear shy. She loves having her mane clipped. She loves a good ear rubbin to. We sure do love her she's one of a kind. • Gunny's dam is an own daughter of Playgun and a granddaughter of Smart Chic Olena on the bottom side. He is by Jake Clark's "Big Jake" jack who sired a lot of good mules. The sire stood 14.2 hands and was easy to handle. We would imagine Gunny will turn out to be 15.2 hands with lots of bone and heavy muscle. Gunny has loved people since he was very young. He's meets you at the gate and is always looking to be with you. He was started riding this past winter and has been easy to be around. He's gentle and kind. Watch for videos of his progression as we get closer to the sale. FMI call Jesse 307-699-1191.

She's great going over downed trees, bridges, through water, riding with dogs and has been around lots of wildlife. She's rides around all kinds of farm equipment, 4 wheelers, traffic and doesn't bat an eye. Rose has been great with tarps, bull whips, balloons, flags, tarps gunfire and is patient and willing when being exposed to any new experience. On the ranch she's great opening/closing gates, packed antlers in a snowstorm and moved lots of cows. Rose is as sweet, quiet and gentle as they come. Leave her off for a time and just catch, saddle and go. No silly business with her! She rides confidently by herself, is good leading or following in a group. • Lexie is about the sweetest and brokest molly mule you will ever meet. She is 15.2 and 1200 pounds. We bought her at Jake's sale in 2017 and his prediction that she would be headed to Bishop was correct. We showed her at Bishop in 2018 where she won her halter class which had about 30 head in it and placed 4th in a giant class of 30 green western pleasure mules. We went back in 2019 when she again placed in her green western pleasure class and again won her halter class, this time beating 41 head of mules.

Anyone can ride Lexie but if you are a skilled rider you will really appreciate this talented molly. She is a Cadillac and a true one hand bridle mule. She has a perfect slow legged western pleasure lope and jog and will also go English. Lexie can do flying lead changes and has an excellent stop and a good spin. She will make a great cowboy or western dressage mule and would be an excellent show mule for an amateur. A novice and even a child could get along with this mule, but her talents aren't limited to the show ring. Lexie is also an excellent trail mule, a pretty handy cow mule and we have even used her for hunting. You can swing a rope on her and she will carry a flag. On the trail she is quiet and steady. She has ponied colts and will cross water, downed trees and other trail obstacles without a fuss. She is easy to clip and bathe and loads up and hauls quietly. Lexie is a sweetheart of a mule who is talented enough to be competitive at the highest level yet easy enough to ride for an amateur, a beginner or a child. We've used her all over the mountains, doing everything and packing everything. She's a great size for getting on and off without finding a log or stump. She is very good going through the mountains, down the trails, crossing creeks, logs. She's good with dogs. She holds a saddle great and does not need a brichen or crupper but will take them with no issues. She's a really nice "QH" built mule. She shoes and clips, loads and hauls. • SIERRA is a very sturdy & athletic mule. She has tons of stamina and go. She is smooth as can be and has a real nice lope. We have done obstacles and all types of other show type events on her and some gymkhana events. She has been used for regular ranch tasks and tons of trailriding. She is very sure-footed doing both. She has been rode in rocky, boggy and heavy brush areas. She has been used for hog hunting and packed. She trucks right on thru with no hesitation. We believe she had some unkind treatment way back in her past. She does have a skeptical personality at first until she gets to know you. We want to be honest about that. But she is easily won over with good ole' kind treatment. She is definitely a one owner type mule. She has been rode by herself and with others and she has no problem riding off by herself. She bridles, loads, saddles, hauls, baths and shoes well. You will have no problems with her there. We are very proud to bring her to this sale for your consideration. Call and come to Arkansas prior to the sale or ride her before the sale at Jake's. Consignor has been with us:

• Meet Chavez! GENTLE FOR ANYONE and LOVES EVERYONE. Chavez is our go to when we need an animal we can rely on. He has carried guides and hunters, and packed meat, and gear, and led pack strings in the Bridger Teton, and Shoshone National Forest wilderness for several years. We even trust him enough to carry a puppy into hunting camp! Montana born and raised, he has done every job on the ranch and excels at everything he does. Roping and dragging calves at branding is his favorite! Along with all the attention! He is a great babysitter whether it be children, dogs, or someone inexperienced. We have no problem putting friends and family on him when they come to help. He has also been used to wrangle the outfitter string in hunting camp and stays calm and collect following the herd in. Whatever the task may be Chavez is up for it. His willingness to please is endless. He rides off by himself, and crosses any type of terrain, rocks, trees, and water with ease, always picking his route carefully and mindfully. He's as sure footed as they come. There is nothing that scares him, not even grizzly bears! The ultimate trail mule! He is the kind that comes to meet you, whether it's in the corral or the middle of the wilderness. Besides being easy to catch, he is also great to shoe, load, bathe, and clip. He does fine with time off and will saddle up and ride off quiet every time. Ride him with or without a crupper, or breeching, he holds a saddle very well. Rides bareback too! Neck reins and travels at any speed you ask, not pushy but not lazy either. Chavez is put together right, stout enough to carry a heavy load, with good bone and feet. He gets along great with other horses and mules. We have owned Chavez since 2013, and love him as much or more than any critter we own, horse or mule. It's hard to see him go but we sincerely hope Chavez finds a good home where he can be enjoyed. I can't say enough good things about this mule, he has the biggest personality and his ability and experience speaks for itself. No buck or bad habits. If you're looking for an honest, eager companion, that is SAFE, SANE, SOUND, and RELIABLE, then look no further. Chavez is your man. 15 hh 1050 lbs 13 year old brown john mule.
