16th Annual Beef Solutions Bull Sale

September 23, 2021 • 1 p.m.

Selling **170 Performance Angus & SimAngus™ Bulls**
Ione, CA

“The only *luxury* perk
is that of having *good* cattle.”

For the past 16 years, we have been committed to bringing the very top-end of our program - *exceptionally good cattle* - to you and this year is no different. The number of sires we use is shrinking and the consistency of bulls is strong. Variety is not the spice of life when breeding cattle. Our commitment to creating larger sire groups helps remove the guess work for you.

The industry seems abuzz about the direction of genetic improvement. If you ask a group of cattlemen to define beef cattle improvement, you'll likely get as many opinions as you will folks surveyed. We see the future quite simple and the direction of our herd is clear:

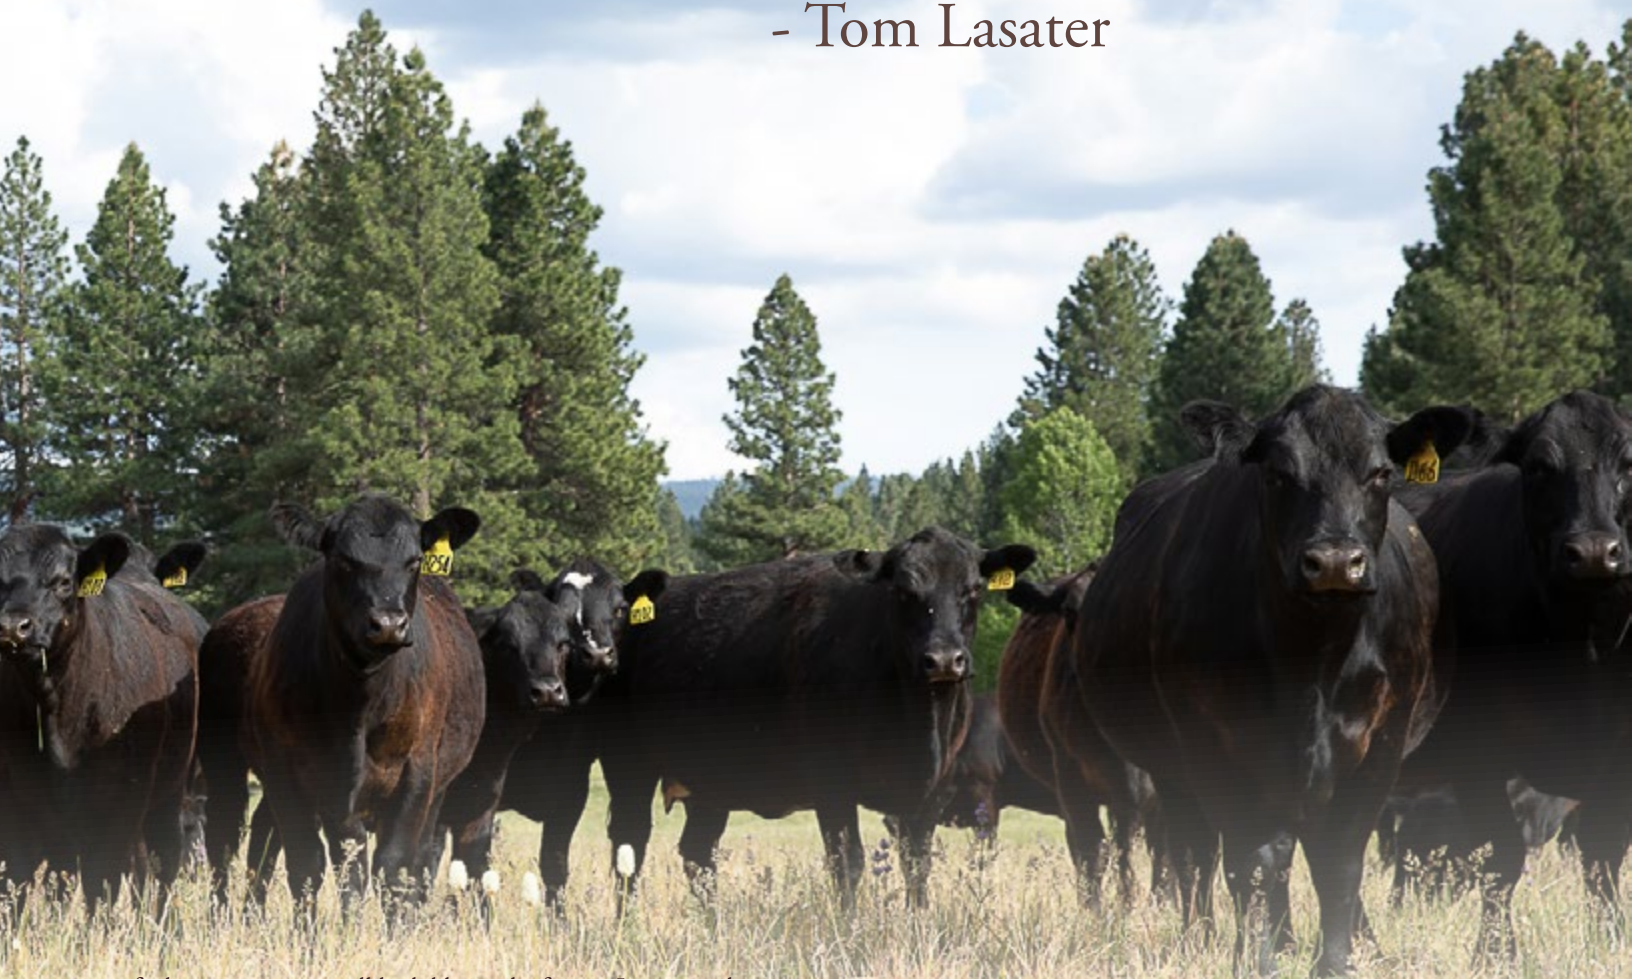

- Produce the most pounds our environment will support.

- Optimize our total cowherd performance through consistency.
- Use sires of proven maternal lineages for predictable maternal performance and efficiency.
- Produce profitable, problem-free females that leave a lasting impact for generations.
- Use EPDs and Genomics as tools to compliment, not replace, phenotype and actual production in our genetic selection.

These goals have been developed by raising livestock alongside our customers and listening to YOU. Every time we talk to commercial cattlemen we are listening and developing a plan

mitted the **RANCHER** *cattle.*”

- Tom Lasater

of what our genetics will look like in the future. Interestingly enough, most commercial cattlemen and women are saying the exact thing we have been observing in our own operations.

Our commitment to customer satisfaction starts with our genetic selection and at the Beef Solutions Bull Sale, you will find sires that have been hand-picked, by us, from all over the country. Many of the reference sires have been raised and developed by us to thrive in this foothill environment. For us to use a sire, he needs to check all of the boxes that directly affect our cow/calf customer base. These new sires represent cow families that are fertile, great footed, problem-free and possess the “Beef Solutions look” that you have come to expect.

Cattle will be available for inspection beginning Tuesday, Sept. 21 through the conclusion of the sale.

Fellow Cattlemen and Valued Customers,

2021 is a year to remember, both for some things good and others not so good. Fortunately, it taught us to prioritize the things of true value in life. Faith, family, community and good cattle. It's been said that the California rancher is one of the most sophisticated in the world. Nowhere else do producers have to juggle the combination of drought, fire, sky-high costs, regulation, bureaucracy and the challenges of being a long haul away from most of major feeding operations. With many choices and styles of cattle available, we humbly thank you for your consideration and returned business.

We have always believed that a packer-centric approach to breeding livestock would ultimately lead to the path shared with the hog and chicken industry. For the better part of a decade, breed improvement has been measured by how much IMF EPD can be crammed into one or how much larger of a carcass can be made. It has led to herds with higher maintenance costs, larger cull rates and less profitable producers.

Here, we choose to be different. For 16 years now we have stayed committed to a goal, our balanced trait breeding philosophy starts with the cow-calf producer and the backbone of their herd, the mother cow. Our selection is centered around cows that work for a living; they don't cause problems, wean big calves and are of a phenotype that predicts they will perform as cows in the hills and produce calves that thrive post weaning for their buyer.

Our cattle work the foothills of California, and we breed with a no-nonsense approach to sire selection and culling. In our operation cows must have an udder of quality to last beyond ten and into their teens, but enough production to raise a heavy calf every year. We refuse to give second chances for any reason and are vigilant about foot quality. With these criteria, it is increasingly difficult for us to source outside genetics of predictable pedigree and performance that meet our standards. Thus, you will see many cattle sired by bulls that sold right through this very sale. We use many sires bred and raised right here, in our programs, with the sole purpose of leveraging the predictability of performance within this environment and management.

We are proud as ever to share these genetics with you, we believe they are consistent, they are predictable, and they are built to last.

Please join us for a pre-sale casual dinner at 5pm on Wednesday, September 22 at the sale facility. We look forward to seeing you at the Circle Ranch for the auction on Thursday, September 23 where a prime rib lunch and refreshments will be provided throughout the day. Please contact Tim or Joe with any questions or regarding room accommodations for out of town visitors.

BID IN CONFIDENCE

All sight unseen purchases guaranteed.

ANGUS BULLS: Lots 1-69
SIMANGUS™ BULLS: Lots 81-181

Hotel Accommodations:

Comfort Inn, Galt, CA (209) 744-7800
 Holiday Inn Express, Jackson, CA (209) 257-1500

Sale Site: The sale will be held at Circle Ranch in Ione, CA. See map on back cover.

Herd Health: All bulls in the sale have been Anaplas vaccinated and have been tested free of BVD persistent infection. Health protocols available from either producer detailing the timing and brand names of vaccinations and worming upon request.

Semen Testing: All bulls selling have passed a rigid semen test and fertility evaluation by an accredited technician.

Retained Semen Interest: The Beef Solutions breeders are retaining one-third semen interest on all bulls selling in the sale, unless stated otherwise. Buyer receives possession and full salvage value on the bulls.

Supplemental Information: A supplemental sheet, with complete up-to-date performance information on all bulls, is immediately available from either producer. All performance information is available sale day in hard-copy form, this sheet and any announcements from the block will take precedence over the printed material in the sale book.

Angus Genetic Information: All potential carriers for known genetic conditions: AM, NH, CA, M1 and DD have either tested free or are excluded as possible carriers by pedigree.

Bid and Buy Online: This sale will be broadcast through Superior Production's Click-To-Bid internet service. For details about how to participate, turn to page 33.

Livestock Insurance: An agent is available sale day to facilitate any insurance needs you may have. Please see Joe for details.

Bull Delivery: Free delivery in California and adjoining states up to 300 miles. All deliveries are made at the buyer's risk. Take \$100 off the purchase price for every bull hauled home sale day.

Hospitality: Refreshments and food are available on Wednesday afternoon and all day on sale day.

Bull Guarantee: All bulls selling have passed a Breeding Soundness Exam prior to sale. To insure your investment, the Beef Solutions Team will guarantee all bulls against breeding injury, and to be sound breeders for the first breeding season. Breeding Season is defined as the 90-day period following the first turnout of bulls. If a problem arises, contact us immediately and we will provide a replacement bull if available, or if the buyer prefers, credit toward a bull will be given for the upcoming sale, less salvage value of the injured bull. Notification of an injury or problem PRIOR to bull being sold for salvage is required for the actions of the guarantee.

Terms & Conditions: All purchases are to be settled for SALE DAY unless prior arrangements have been made. Cattle will all sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).

Disclaimer: The Beef Solutions Breeders and Circle Ranch assume no liability for accidents, injury or Covid-19 exposure that may occur. Attend the sale at your own risk.

Photo Credits: Special thanks to Logan & Stevie Ipsen for bull photos; Savannah Molina for bull and landscape photos; Rick Raef at Working Ranch Photography, Kati Roberti and Grant Company for landscape photos.

 Solen, N.D. • (701) 290-3886

We humbly Thank You

FOR YOUR CONSIDERATION AND RETURNED BUSINESS

We are continually amazed by the **resiliency of the American rancher and their cattle**. In 2021 you've persisted amidst drought and fires, regulatory challenges and more to help one another, acting with integrity no matter the cost. **We pray you will continue to forge forward, confident in your ability to overcome whatever challenges arise**, with faith and hope, *embracing the gift of a brand new day.*

Self reliance, honor, confidence and optimism: these are the values that built America and, by your example, will continue to mold our great nation into a bright and prosperous future. Keep fighting the good fight, friends.

**WE'LL BE RIGHT HERE WITH YOU,
EVERY STEP OF THE WAY.**

RANGELAND RAISED • *Environmental Adaptability* • *W*

— BR Bruin Ranch —

The heart of our program is building a cowherd to work within our western rangeland environment that leave commercial cattlemen and women with replacement females that are trouble free and last a long time. Cows that are long lived, productive and fertile continue to drive profitability. **Maternal efficiency doesn't happen by chance, it needs to be selected for through predictable pedigrees, phenotype and actual production.** By blending together maternal lines that have proven to outperform others in our environment with sire lines that bring the power, performance and phenotype we have put together cattle that have topped the special feeder calf sales and video markets for years. We consider this offering our best yet, with the highest concentration of predictable performance cattle from outstanding maternal lines built on reputation and integrity.

Maternal Efficiency • **LONGEVITY** • *Weaned Calf Value*

The Fischers - Joe & Abbee, Bennett, Paxton, Myles and Marydith

FROM OUR FAMILY *To Yours*

This offering of our breeding program is a commitment from our family to yours. The breeding program is centered with our genuine passion for the improvement of traits that meet the goals of commercial cattlemen and women. We are thankful for the pride and years of loyalty of Wyatt Durham and excited for the future of our Intern Josh Whiting. Both have allowed our program to grow into the vision we have always worked toward and have helped to build an outstanding culture for raising our children in this business.

Calving Ease Performance \$EN \$WN

A bull worthy to start the offering. A phenotype stunner, this calving ease prospect brings a balanced EPD profile that is sensible and practical by modern standards. His dam is the rare combination of extreme fleshing ease and productivity. It's a long story as to why he is the one of two Envy sons in the offering but expect many more of Envys in the future, representing the second largest sire group for 2022.

Envy 7248 daughter and first-calf heifer

Bruin Envy 7248 • Sire of Lot 1

Bruin Envy 7248
 Bruin Ranch raised sire and owned with Open 8 Cattle and Crouthamel Cattle
 Envy was the only bull we have ever pulled from a sale and elected to use natural service for our own program. Since then, we have watched hundreds of progeny, born across several states, thrive within the progressive programs that have used him. The calves are born light and quickly display presence, natural thickness, center body dimension and have that signature level topline and hip that Envy has. His first daughters have calved at Bruin Ranch and display outstanding fleshing ease, maternal type and tremendous udder quality. Owned with Open 8 Cattle in Montana and Crouthamel Cattle of Washington He is currently a leadoff sire in the Breeder Link semen stud.

LD Capitalist • Sire of Lots 2-8

LD Capitalist 316

After four calving seasons and three sales worth of sons, we can say 316 is the most heifer safe bull we have ever used. After countless calves in our operation, we have never pulled a single calf for any reason. Most of the sire line of 316 is a solid choice for outstanding calving ease, predictable growth and cattle that have a tremendous look. Sons with birth weight numbers more appropriate for cows have a little more punch and muscle but still have the outstanding profile of their sire.

Calving Ease Performance \$WN

A bull that has excelled at everything. When you study him, he is long and attractive fronted, balanced in his body depth, long bodied, big hiped and thick. Not only will his photo attract the most critical stockman but if you're into data, this bull did everything right. Ratioing a modest 88 Birth Ratio (actual 73) he went on to excel his contemporaries at weaning (112) and most recently his RFI data is off the charts. Lot 5 was our number two RFI and number two feed conversion ratio bull. His dam is quickly rising to prominence in our herd, she is a model of maternal quality. She balances a perfect udder with outstanding milk production and fertility, settling AI both times attempted.

Bruin 2217 Dixie Erica 7357 • Dam of Lot 8

SAV Rainfall 6846

The Rainfall progeny have proven to be some of the most consistently practical cattle we have produced. The calves come easily at birth and have plenty of vigor. Their outstanding phenotype is visible from an early age and their soft, easy fleshing appearance is a time-tested indicator of range land adaptability. This sire line will make a sensible cross on many of the bulls we have sold in the past. Rainfall is our largest sire group on the ground this fall, this is a sire group you can tie to for a couple of years for herd consistency and value.

Performance \$EN

This bull is power from all angles. As a calf, he was impressive with his muscle shape, length and performance but the kids will remember him for his gentle disposition. The dam of Hardcore was as powerful as we could make one, loads of performance coupled with outstanding confirmation and feet quality.

Calving Ease \$EN

Bruin 5261 Torque 0120 is the most intriguing calving ease Torque son we have raised to date. From a young age we had high hopes of him passing on the same maternal value and quality as his sire, but in a calving ease option. His Dam has extreme body depth and calving ease in a moderate and productive package. She is our multi-generational model of maternal quality and function.

We use EPD's and genomics as tools to
COMPLIMENT, not replace,
phenotype and actual production.

REAL. *Candid.* RELATABLE.

Showing our cattle in their natural state, under very typical management has always been our priority. Professional photography around here is Dad and the kids in the early morning light or in the evening. It's hard work, but we believe it is worth it to bring the reality of our herd to you for consideration.

Bruin Fellow 8224

Fellow was our top seller going to Roberti and Questo Ranches in our 2019 sale. We had him collected before the sale and used a small sample that first year. They were born light and unassisted out of virgin heifers and then exploded with growth. His mother is our highly regarded Blackbird 8616 cow, who is still in production at 13. The Fellow progeny were our highest performing sire group, they are long bodied, deep sided, good footed and gentle. We retained every Fellow sired female to breed this fall and they are stunners. We are excited to use Fellow aggressively in our AI program.

Miss Charlo 2074 • Dam of Lots 31-32

2074 was brought into our program to offer a fresh outcross to the Blackbird female line. While she maintains our type and kind, her own production and pedigree offers tried and true maternal value for our operation. The consistency of these bulls is remarkable and will work as an outcross on nearly anything that has been purchased through our sale before.

A pair of flush brothers bred for outcross replacement female potential. If you have been using our cattle for a long time and need to freshen up pedigrees intent on keeping heifers, this combination of 2074 and 702 should really fit the bill. We have one sister that calved this fall, she is about as beautiful of a female as you can make and is doing a great job with her bull calf.

CCA Emblazon 702 • Sire of Lots 31-32

SAV Prosperity 9131-

This is our second year of offering sons of Prosperity and we have just finished calving the first daughters. The daughters have been some of our favorite we have ever calved, they are wedge shaped females with pathfinder type milking ability, picture perfect udders and nice dispositions. The sons are fantastic in their foot shape and heal depth, long spined and big topped. Prosperity has proven to be a logical choice for the purebred and commercial producer, providing cattle with long term range value and multi-trait excellence proven through progeny production. Lately, Prosperity has grown in major breed popularity and semen can be difficult to acquire. Every cow we breed to Prosperity is intentional, breeding for females to retain and sires to use back in our program.

Prosperity Flush Brother -

A very complete set of flush brothers offered from Blackbird 4264. These bulls are certain to command the attention of the most discriminating producer. They are long bodied, high performing, exceptional footed and from a female lineage proven to produce outstanding daughters. To date, we have only offered 4 sons of 4264. Two of which, Envy 7248 and Forgiven 8226, both serve as major herd sires for purebred operations in Montana, Washington and North Dakota. The other two sold as sale features to leading programs Emigh Livestock and Bell Cattle. These brothers offer a fresh chapter in the 4264 story and we plan to use one back into our herd extensively in the AI and ET program.

Flush of Prosperity X 8616 - A flush of bulls whose brothers highlighted the sale season last year with our co-top seller Bruin Guardian 9230 leading off the flush and going to Revolution Genetics semen company. These bulls are the cattleman's kind, they check all the boxes for modern day commercial production. They are moderate and easy fleshing, yet powerful and functional. The sisters to these bulls have been some of our favorite first calf heifers to ever calve at Bruin Ranch and we are certain they will be foundation quality pieces in our program for the coming years. For producers serious about raising females that are the right size but still milk hard and breed back, tie into these sons.

Horizon has intrigued the Angus purebred world from a series of social media posts early in his life. His royal pedigree is packed with breed legends known for producing fault free, long-lasting females with phenotype and maternal production. His maternally oriented pedigree is supported by his tremendous body shape and look. He is long and angular fronted, big middled and sound structured. Uniquely, Horizon combines his outstanding phenotype with EPDs that predict him as a fail-safe option for virgin heifer breeding projects.

Koupal Advance 28 • Three-quarter brother to Lots 54-55

Koupals Ebonette 734 • Maternal Sister to Lots 54-55

SAV 004 Density 4336 • Sire of Lot 56

Bruin 7301 Princess 9248 • Dam of Lot 57

A page dedicated to maternal legends. If replacement quality females of proven lineage are your goal, look no further. Lots 54 and 55 are from one of the best cows to ever reside in the Koupal program in South Dakota, providing for outstanding production, phenotype and fertility. Lot 56 is a 3/4 brother to Torque and if there is one we have scratched our head considering to keep this year, it is him. He reminds us a lot of his Torque, but with the 8616 cow as his mother, his four sisters are ideal. The dam to Lot 57 is one who just wont go away. At 12 years old she continues to always raise the top replacement heifers while sticking AI every year, 57's full sister is one of the favorite heifers we calved this fall.

Bruin Torque 5261

Easily the most proven sire we have ever raised is Torque. He has been used in nearly every corner of the globe with outstanding success. After using him for 5 years, he continues to please us as a problem free sire. His daughters are now hitting their stride and are incredible. Milking daughters display gorgeous udders with appropriate teat size, udder suspension and milk production. Our largest percentage of retained females this year are Torque daughters. If you need a sire to consistently add proven maternal value with added length and performance in your calf crop, Torque has done this better than any sire we have used.

Bruin Torque 5261 • Sire of Lots 20, 58-63

Bruin Friction 8231 - We used Friction natural service and were thrilled with the performance he adds. Friction brings outcross potential with length, power, payweight and he stands on a correct and large hoof. He is a little higher octane in our program and crosses well with many of our traditional lines.

A flush of brothers referred to as the "super terminals." This set of bulls was created for folks with a desire to capture grid premiums or for those who direct market beef to a consumer. They should add payweight to a calf crop and loads of terminal end value. The carcass predictors and feedlot gain potential of these flush brothers will rival any in the entire Angus population.

Beef Solutions Benefits

- First breeding season guarantee
- Large Sire Groups in Volume
- Free Delivery in California and adjoining states up to 300 miles
- Free Bull Drawing at the conclusion of the sale
- Year round customer service and marketing support
- Cowherd run like commercial cattle on range in the Foothills
- Family owned, Family managed
- Sight unseen satisfaction guaranteed
- Phone, Internet and In person purchasing options

Win a **FREE BULL!**

Immediately following the conclusion of the sale, there will be a drawing for a **FREE BULL**. After the gavel drops on the final bull, we will draw a lot number from a pot and that bull will be given a credit towards the purchase price equal to the final sale average. If the bull selected is less than the average, then the bull is FREE with no cash compensation.

Previous **FREE BULL** winners:

Congratulations to Jim and Jennifer Perry, center, on WINNING A FREE BULL in 2020!

Thank you to these fine sponsors for this generous donation!

How to PARTICIPATE as an ABSENTEE BUYER

Our absolute favorite part of sale day is visiting with you in person! However, we recognize that with this year's unique public health situation, some of you may feel more comfortable to purchase your next herdsire from the comforts of home. **This is why we have also made preparations for bidding by phone as well as bidding through Superior Productions' "Call or Click-To-Bid" service.** Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

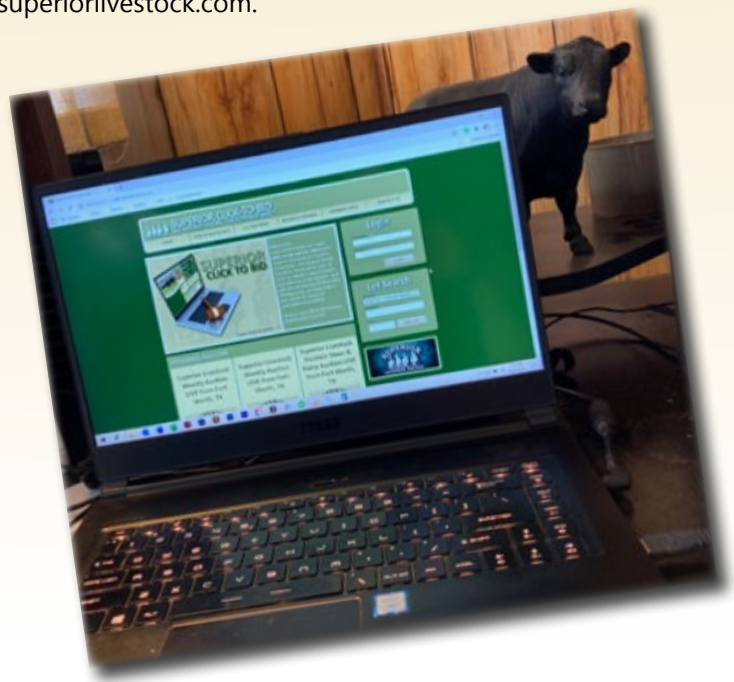

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 3783380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign-up.

Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are 2 places to view the sale broadcast live on the internet:

- www.superiorlivestock.com, or
- www.superiorclicktobid.com.

Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

***If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.**

Circle Ranch

Environmental adaptability is one of the most important breeding goals at Circle Ranch. Cows should work for their owners, not the other way around. We run our cows in a similar fashion to the majority of our customers to help ensure they will work in a variety of environments and promote profitability. That, too, is part of the reason we harness the power of heterosis to create a more durable genetic product capable of breeding and lasting longer regardless of the environmental challenges posed. We absolutely have a herd target for mature size that we think best fits the majority of our customers and the larger beef industry. The lions share of our bulls hit that target dead center and many of our customers prefer them. On the edges however you will find genetics here that can produce power house performance for higher resource situations as well as some lines created to minimize maintenance requirements for low-input regions.

From left: Cameron, Austin, Jill, Tim, Taylor and Savannah

*California's largest supplier of
SimAngus™ bulls!*

**“It has never been easier to market
SimAngus™ Sired Feeder Cattle”**

*Feeders and packers across the country are turning to SimAngus™ sired
calves to improve yield grade and growth, along with fewer health problems.*

Bull Development

This is our third year developing our bulls at home. Last year we added two additional large pens in a rolling oak woodland area to again assure the bulls have plenty of shade and room to roam. The larger pen sizes gives the bulls a better chance to travel, stay loose jointed,

athletic, and better prepared for turn out day . Our ration which includes nearly 50% haylage from our own irrigated pastures, helps us reach our goal of a slower more consistent rate of gain that we feel extends the years of service of the bulls for our customers. Again on

sale day you will notice the bulls that are slightly lighter in weight and condition but are freer moving and more athletic and will not lose as much weight during the breeding season. Because the bulls are right here at home they are available for viewing any day from May until sale day.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

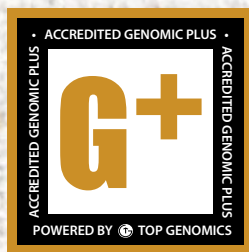

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we’ve never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It’s simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

Lot 81 • CIRCLE THE BASES H58

Circle the Bases - Circle the Bases was purchased in our 2018 sale by Bell Cattle Company in Petaluma Ca. Sired by Circle Old School and out of our donor dam W11 he has risen to the top of the 45 bull calves she has produced to date. Our largest and highest selling sire group in 2020 he was well received by our commercial customers. His value continues prove out and calving his first daughters this fall gave us some of the best uddered females we have ever raised.

KBHR D010 We purchased the Gravity son D10 from Kellers Broken Heart Ranch in North Dakota in 2017. Today as a five year old he is as athletic and easy fleshing as the day we bought him. When we saw his Cowboy Cut dam in person we immediately purchased a flush and those offspring hit the ground this fall including 8 full sisters by Circle the Bases.

TJ Teardrop 783F
Sire of Lots 105-109

TJ Teardrop 783F - When we saw Teardrop in 2019 and he was the high seller at the Triangle J Bull Sale we were struck not only by his great phenotype but also his rock solid EPD profile. Heavy muscled but loose hid and easy moving we felt he met the goals of our breeding program.

TJ Franchise 451D -
When we toured Triangle J ranch in 2019 the Franchise sons were the most impressive sire group there. Rapidly becoming one of the most used SimAngus bulls in the industry his sons are heavy muscled but still maintaining eye appeal and the daughters can be described the same way. He is the first Cowboy Cut son we have used and his Net Worth dam seems to be the right combination to make ideal SimAngus halfbloods.

We are continually amazed by the resiliency of the American rancher and their cattle. In 2021 you've persisted amidst drought and fires, regulatory challenges and more to help one another, acting with integrity no matter the cost. We pray you will continue to forge forward, confident in your ability to overcome whatever challenges arise, with faith and hope, embracing the gift of a brand new day.

Self reliance, honor, confidence and optimism: these are the values that built America and, by your example, will continue to mold our great nation into a bright and prosperous future. **Keep fighting the good fight, friends. We'll be right here with you, every step of the way.**

TJ Franchise 451D -
 When we toured Triangle J ranch in 2019 the Franchise sons were the most impressive sire group there. Rapidly becoming one of the most used SimAngus bulls in the industry his sons are heavy muscled but still maintaining eye appeal and the daughters can be described the same way. He is the first Cowboy Cut son we have used and his Net Worth dam seems to be the right combination to make ideal SimAngus halfbloods.

Circle Old School

In 2013, we made an agreement with Tom Hook of Hook's Farms in Tracy, Minn., to flush one of his high-valued Simm-Influenced females that fits our program to a tee: Hook's Extravaganza 7X, a moderate, deep-bodied GW Lucky Man daughter with excellent foot and udder quality. We mated her to the maternal great Leachman Right Time. The mating produced our 2015 high seller: Circle Old School B62 that went to our cooperators, Wang Ranch of Baker, Mont. Wangs have AI'd more than 800 cows to Old School, who has become a cornerstone of their program. Old School sires high-value females, as well as stout, heavily muscled bulls.

SAV Rainfall 6846 - Occasionally we will use a Purebred Angus bull on high percentage Simmental cows and it is usually a bull that Bruin Ranch also uses because our breeding philosophies are so similar. This was the case with Rainfall. We saw scores of sons when we toured Schaff Valley Angus and we were impressed with consistency from top to bottom. His sons are typically huge middle and easy fleshing.

NO LIGHTWEIGHTS

 **SimGenetics**
PROFIT THROUGH SCIENCE
American Simmental Association

Simmental calves are champions of the scale.

They reliably outperform straightbred calves in the feedyard – with better growth, better structure and fewer health problems.

They add pounds without sacrificing marbling, and they earn more with the **IGS Feeder Profit Calculator™**, which factors genetics, health and management into true value.

Want low-risk, high-potential calves with earning capability?

STAND STRONG SIMMENTAL

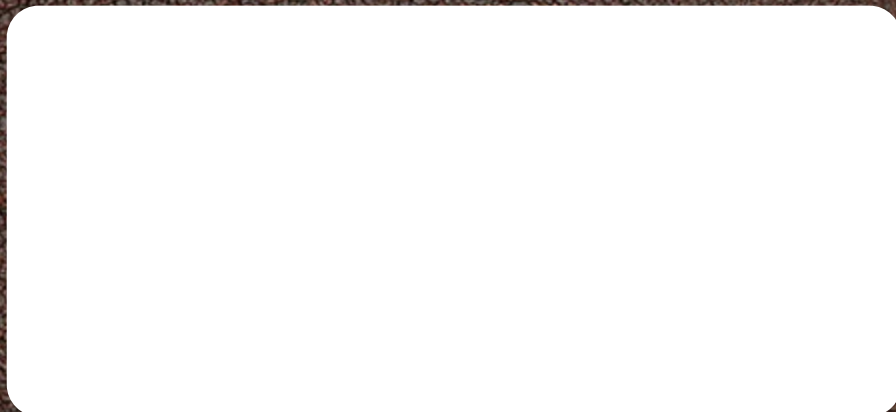

406-587-4531 • simmental.org

At the end of the day, a bull's
TRUE LEGACY is the
females he leaves behind.
