WE WANT YOU TO KNOW US, WHO WE ARE AND
WHAT DRIVES US

A NOTE *from* BOB

“Therefore, my beloved brethren, be steadfast, immovable, always abounding in the work of the Lord, knowing that your toil is not in vain in the Lord.”

1 CORINTHIANS 15:58

June 1, 2021, was a historic day for 44 Farms and Prime Pursuits. As grilling season officially kicked off, Walmart celebrated with the launch of McClaren Farms® Angus beef in nearly 500 stores across five southeastern states, including Alabama, Florida, Georgia, Mississippi and South Carolina.

As we have been sharing over the past three years, Walmart invited 44 Farms to work with them in the creation of its end-to-end Angus beef supply chain program. This revolutionary innovation will deliver quality Angus beef to Walmart customers while meeting heightened demand for added transparency and sustainability.

We believe that there have been few, if any, revolutionary changes in the beef industry that pack the punch of this bold move by Walmart. We are honored to be a part of bringing truly high-quality, all-natural, no-hormones-added Black Angus beef at extraordinarily low pricing to Walmart customers. Friends, this amazing new launch fully connects responsible, hardworking Angus producers with consumers in volume like no other program in the world.

One year ago, I shared in this Note that in the midst of all the loss, tragedy, chaos and so many daily challenges we all could see surrounding us that I believe God is in the business of providing “new things.” As He says through the prophet Isaiah,

“BEHOLD, I will do something new, now it shall spring forth; will you not be aware of it?” Isaiah 43:19

What does a “new thing” look like for you and me? Maybe the “new thing” looks like a breakthrough in a difficult season. “Behold” means to see. I think God is asking us to see and respond to His hand of purpose in our lives.

This is why “Greater Things” continues to be a major theme at 44 Farms and Prime Pursuits. I love that theme more than ever because we have seen greater things happening in the lives of so many of our customers and teammates over this past year.

This breakthrough doesn’t mean that hardships have suddenly disappeared or we don’t make mistakes and miss the mark at times. What it does mean is that more consumers are being introduced to wholesome and delicious Angus beef. BEHOLD, men and women across five southeastern states are opening their homes and inviting all of us to join them as they gather around their dinner table. Now that is a vision worthy of following!

Powered by this mission and giving Walmart customers a fresh new reason to make Walmart their grocery store of choice, Prime Pursuits has grown to nearly 1,000 Angus producers from across the U.S. It is a great team, but not in the way most people view greatness. True greatness comes by aiming for the greatness of others more than we aim for our own. Pursuing, empowering and inspiring greatness for someone else is what drives everything we do.

Notice what happens when we add selflessness to a bold vision, then build strong relationships around that vision with an ample dose of genuine encouragement – we then have a team capable of greatness. If we leave out any of those elements the music often stops playing.

We want to invite you to be a part of something greater than anything any of us can do alone. We believe that when we work together, greater things are yet to come. Prime Pursuits is a transformational beef program designed to elevate beef production from a commodity industry to a specialized business for forward-thinking Angus cattle producers, large and small.

We are excited and grateful for your interest in our 2021 Fall Bull Sale and our Angus Strong® genetics. It is through great Angus genetics that everything begins. This strong foundation, along with the deepest data mining in the industry through our state-of-the-art Prime Intelligence platform and other support services, provides producers, backgrounders, cattle feeders and Walmart with the tools to help them all succeed. The prized result is the most delicious non-hormone-treated Angus beef ever offered at retail, and at the lowest price.

We hope that you appreciate and are encouraged by our approach to the future. In all we do, we want to serve others for the glory of the Lord Jesus Christ. We are so honored by your interest in 44 Farms and Prime Pursuits.

If this is your first time to consider 44 Farms for your Angus genetics, or attend one of our sales, let me say, “Welcome and thank you.” Please know that we are grateful for you. We never take the awesome privilege of working with you for granted.

If you are a returning customer, we appreciate your friendship and teamwork. We know you are optimistic, focused on the

things to come and very entrepreneurial. These characteristics produce a “winsome spirit” that gives us the inspiration to dare to do “greater things.”

I look forward to seeing you on Saturday, October 23. It will be a super fun day with lots of good food and 558 of the finest Angus bulls you will find anywhere. Bulls available in volume and in every price range. Please take a moment to review the great number of bulls represented in the list of the Top 1% and 5% of bulls in the Angus breed. We think you will be impressed.

This is indeed a special time in the history of our industry and 44 Farms. I ask you to please join me in praying that all of us involved with Prime Pursuits will remain faithful to the task. I am totally confident that through God’s amazing grace, greater things are yet to come!

CHIEF OPERATING OFFICER AT 44 FARMS

It is such a privilege to honor our friend Doug Slattery (pictured above, right). Seldom do people come into our lives that make a profound impact and make us better. Doug is one of these rare people.

So much of the success of 44 Farms and Prime Pursuits has been the result of Doug's leadership and hard work. Yet, the full impact of his contributions to our programs, the cattle industry in general and the enjoyment by American consumers of delicious all-natural Angus beef is only beginning to be revealed.

If you have been blessed to be around Doug for more than 30 minutes, you soon realize that he is a man with vision, passion and resolve. Yet, those bold characteristics blend into a man that people trust, enjoy and call "my friend."

Doug, your 44 Farms Family is so appreciative to have traveled this incredible journey of purpose with you, our faithful friend. We pray for God's best for you and Gracie as you move toward more of God's ever-unfolding purposes.

HOW THE BULLS ARE DEVELOPED...

The bulls at 44 Farms are managed and developed to reach a level of their genetic potential that will allow for an accurate comparison of individuals within their respective contemporary groups.

The bulls are developed in large pastures that allow for plenty of exercise and hand fed a high roughage feed. Excessive individual weights are not our goal but rather a practical average weight within contemporary groups that will allow for a fair comparison among contemporaries.

We are confident that these bulls will perform under any environmental conditions.

HOW THE BULLS ARE DEVELOPED...

The bulls at 44 Farms are managed and developed to reach a level of their genetic potential that will allow for an accurate comparison of individuals within their respective contemporary groups.

The bulls are developed in large pastures that allow for plenty of exercise and hand fed a high roughage feed. Excessive individual weights are not our goal but rather a practical average weight within contemporary groups that will allow for a fair comparison among contemporaries.

We are confident that these bulls will perform under any environmental conditions.

HOW THE BULLS ARE DEVELOPED...

The bulls at 44 Farms are managed and developed to reach a level of their genetic potential that will allow for an accurate comparison of individuals within their respective contemporary groups.

The bulls are developed in large pastures that allow for plenty of exercise and hand fed a high roughage feed. Excessive individual weights are not our goal but rather a practical average weight within contemporary groups that will allow for a fair comparison among contemporaries.

We are confident that these bulls will perform under any environmental conditions.

HOW THE BULLS ARE DEVELOPED...

The bulls at 44 Farms are managed and developed to reach a level of their genetic potential that will allow for an accurate comparison of individuals within their respective contemporary groups.

The bulls are developed in large pastures that allow for plenty of exercise and hand fed a high roughage feed. Excessive individual weights are not our goal but rather a practical average weight within contemporary groups that will allow for a fair comparison among contemporaries.

We are confident that these bulls will perform under any environmental conditions.
