

COMMERCIAL FEMALES

At catalog press time, the commercial females are being gathered from summer pasture and sorted into even groups. HEAD COUNTS MAY VARY SALE DAY. UPDATED head counts and more detailed group information will be posted on Facebook and can be emailed on request. All commercial cattle are located at the sale barn or within short driving distance.

The groups of females sell after the bulls and the individual registered lots. Female groups will sell in catalog order. The buyer has the option of five head up to the entire grouped lot. High bidder gets the lowest consecutive tag numbers or gate cut if listed. Commercial females include lots from some of our most progressive customers.

All bred females have been poured with Dectomax after November 1. All Diamond Dot females have been set up with Preg Guard Gold 10 vaccine guidelines. Heifers received first shot prior to breeding and second shot after November 1 and cows received an annual shot each fall. Most of the cows are also under the ScourBos program. All females have legible BANGS tattoo and will sell with interstate health papers. All females are preg checked safe with calf by a licensed veterinarian.

Delivery cost is at the buyer's expense. Cattle will be shipped within a week of the sale.

Payment is due on sale day or prior to delivery.

4 MARK AND ARLENE WICHMAN**49 Bred Heifers**

These heifers have gained big reputation in this sale over the years. They are some of the stoutest best heifers anywhere in the land and will make excellent cows. Wichman AI heifers usually in this sale were sold earlier in the year because of the drought and the 10 AI heifers were ones that wouldn't fit on the truck. The natural bred heifers are bred to as good of bulls as money will buy. All females in this group have been vaccinated with ViraShield, 6+ VLS (Killed Virus)
