SimAngus™ Seedstock

Bruin Ranch
Angus Seedstock

A lesson in history helps to understand where we have come from, but also gives us the opportunity to reflect on change. History provides context. **The Curran and Fischer families have been ranching in Amador and Calaveras Counties for over 150 years.** Our roots as commercial cattlemen keep us grounded in the type and kind of cattle we produce and operations we run. Taking care of our resources, working hard and harvesting as many pounds of high quality product have always been the core principles of success in Agriculture. Our strong connection to this region and our foothill communities have honed our focus on the type of cow required to excel at this task.

- Produce the most pounds our environment will support
- Optimize our total cowherd performance through consistency
- Produce profitable, problem-free females that leave a lasting impact for generations
- Use EPDs and Genomics as tools to compliment, not replace, actual production and type in our genetic selection

We have a generational commitment to this lifestyle and have built cowherds that combine these goals, setting the stage for a sustainable future in this business. There is no greater testimony to longevity than the simple fact that we are still here ranching right alongside you and our children aim to continue.

While we cherish our heritage, we understand and fully accept the responsibility of producing the kind of cattle that position our customers for success in the future. After all, our cowherd today is what yours will look like tomorrow. This offering is the culmination of many years of our breeding programs and an honest commitment to the ranching families that we are humbled to call our family and friends. We sincerely thank you for the opportunity to be your seedstock supplier.

ALLIED
GENETIC RESOURCES

Friends,

Thank you for your support and continued interest in our programs. While there are challenges, we all should be excited for the changes on the horizon. The cow business is about to get good!!! From the spring to early fall, we have seen both Angus and SimAngus Beef Solutions sired cattle top markets and weight classes everywhere they have been sold and we truly believe the best is yet to come.

The west and beyond is starving for a mother cow who does what seedstock producers say she will. It seems everywhere we look there is a new advertising tag line including the word "maternal." I made a comment the other day that the beef business is suffering from maternal confusion. Now there are even indexes that show "breed leaders" of "maternal" who have never had a calf. While we see some of these tools as useful, investing in a program and people seems to be more logical. We have devoted our lives to producing the kind of cattle that will work for our programs and, consequently, your program as well. Our focus on the mother cow has always been priority number one and will remain our standard into the future.

Throughout the catalog you will find older ranch type photos that have come from our family collections. Many of the photos include dear friends and family who are no longer with us, but many of the life lessons they taught us remain in us today. The Curran and Fischer Families have been ranching in this region since the 1800s, an accolade that evokes a sense of pride and responsibility to the kind of cattle we produce. We know the kind of cattle that work here because we live here, we ranch here, and we raise our families here.

We hope you enjoy the photos and the offering; please join us for our pre-sale casual dinner at 5pm on Wednesday, September 21 at the sale facility. We look forward to seeing you at the Circle Ranch for the auction on Thursday, September 22 where a prime rib lunch and refreshments will be provided throughout the day. Please contact Tim or Joe with any questions or regarding room accommodations for out of town visitors.

BID IN CONFIDENCE

All sight unseen purchases guaranteed.

**SIMANGUS™ BULLS: Lots 1-84
ANGUS BULLS: Lots 90-151**

Hotel Accommodations:

Comfort Inn, Galt, CA (209) 744-7800
Holiday Inn Express, Jackson, CA (209) 257-1500

Sale Site: The sale will be held at Circle Ranch in Ione, CA. See map on back cover.

Herd Health: All bulls in the sale have been Anaplas vaccinated. Health protocols available from either producer detailing the timing and brand names of vaccinations and worming upon request.

Semen Testing: All bulls selling have passed a rigid semen test and fertility evaluation by an accredited technician.

Retained Semen Interest: The Beef Solutions breeders are retaining one-third semen interest on all bulls selling in the sale, unless stated otherwise. Buyer receives possession and full salvage value on the bulls.

Supplemental Information: A supplemental sheet, with complete up-to-date performance information on all bulls, is immediately available from either producer. All performance information is available sale day in hard-copy form, this sheet and any announcements from the block will take precedence over the printed material in the sale book.

Angus Genetic Information: All potential carriers for known genetic conditions: AM, NH, CA, M1 and DD have either tested free or are excluded as possible carriers by pedigree.

Bid and Buy Online: This sale will be broadcast through Superior Production's Click-To-Bid internet service. For details about how to participate, turn to page 35.

Livestock Insurance: An agent is available sale day to facilitate any insurance needs you may have. Please see Joe for details.

Bull Delivery: Free delivery in California and adjoining states up to 300 miles. All deliveries are made at the buyer's risk. Take \$100 off the purchase price for every bull hauled home sale day.

Hospitality: Refreshments and food are available on Wednesday afternoon and all day on sale day.

Bull Guarantee: All bulls selling have passed a Breeding Soundness Exam prior to sale. To insure your investment, the Beef Solutions Team will guarantee all bulls against breeding injury, and to be sound breeders for the first breeding season. Breeding Season is defined as the 90-day period following the first turnout of bulls. If a problem arises, contact us immediately and we will provide a replacement bull if available, or if the buyer prefers, credit toward a bull will be given for the upcoming sale, less salvage value of the injured bull. Notification of an injury or problem PRIOR to bull being sold for salvage is required for the actions of the guarantee.

Terms & Conditions: All purchases are to be settled for SALE DAY unless prior arrangements have been made. Cattle will all sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf).

Disclaimer: The Beef Solutions Breeders and Circle Ranch assume no liability for accidents, injury or Covid-19 exposure that may occur. Attend the sale at your own risk.

Photo Credits: Special thanks to Logan & Stevie Ipsen for bull photos; Savannah Molina for bull and landscape photos; Rick Raef at Working Ranch Photography, Patricia Fischer, Kati Roberti and Grant Company for landscape photos.

The Beef Solutions Team will once again offer the user-friendly toolbox in this year's sale book to help you in your buying decisions. Below the pedigree and genetic information, we've listed percentile rankings within breed and labels for individual outliers for particular traits.

Additionally, we're providing a toolbox that identifies different solutions (for Angus and SimAngus™). This reference is helpful to quickly find sires that can provide a specific service – like breeding heifers or improving carcass and performance – in your calf crop.

ANGUS BEEF SOLUTIONS

- **CALVING EASE SOLUTION** - A tool to consider when selecting heifer bull candidates. Bull has a 1.4 Birth Wt. EPD or less and a Calving Ease Direct (CED) EPD in the top 40% of the breed.
- **PERFORMANCE SOLUTION** - Bull ranks in the top 50% of the breed for his Weaning Weight and Yearling Weight EPDs.
- **\$EN SOLUTION** - Bull ranks in the top 50% of the entire breed for \$Energy.
- **\$W SOLUTION** - Bull ranks in the top 50% of the entire breed for \$Wean.

We humbly Thank You
FOR YOUR CONSIDERATION AND RETURNED BUSINESS

We are continually amazed by the **resiliency of the American rancher and their cattle**. You've persisted amidst drought and fires, regulatory challenges and more to help one another, acting with integrity no matter the cost. **We pray you will continue to forge forward, confident in your ability to overcome whatever challenges arise**, with faith and hope, embracing the gift of a brand new day.

Self reliance, honor, confidence and optimism: these are the values that built America and, by your example, will continue to mold our great nation into a bright and prosperous future. Keep fighting the good fight, friends.

**WE'LL BE RIGHT HERE WITH YOU,
EVERY STEP OF THE WAY.**

For generations, environmental adaptability has been and continues to be one of the most important breeding goals at Circle Ranch. Cows should work for their owners, not the other way around. We run our cows in a similar fashion to the majority of our customers to help ensure they will work in a variety of environments and promote profitability. **That, too, is part of the reason we harness the power of heterosis to create a more durable genetic product capable of breeding and lasting longer regardless of the environmental challenges posed.** We absolutely have a herd target for mature size that we think best fits the majority of our customers and the larger beef industry. The lions share of our bulls hit that target dead center and many of our customers prefer them. On the edges, however, you will find genetics here that can **produce power house performance** for higher resource situations as well as some lines created **to minimize maintenance requirements for low-input regions**.

 **SimGenetics**
PROFIT THROUGH SCIENCE

American Simmental Association

BALANCE THE SCALES

BREED EFFECTS FOR COW MATURE WEIGHT (MWT)^{abc}

Angus	0
Charolais	-20 lb.
Hereford	-39 lb.
Simmental	-74 lb.

Big cows come with big feed bills.

Simmental-influenced cows are an average **74 lb. lighter** at maturity than Angus-sired counterparts, according to a recent U.S. Meat Animal Research Center study.^{a,d}

While Simmental is sized for more efficient gains, 20-year genetic trendlines also show the breed offers reliable calving ease, early growth and cow longevity.

That's a balanced herd built for profit.

STAND STRONG **SIMMENTAL**

406-587-4531 • simmental.org

^aUSMARC, Zimmerman, M., et al., "Breed and heterotic effects for mature weight in beef cattle," *J. of Anim. Sci.*, Vol. 99, 2021. ^bAdjusted for sire sampling, Angus was the heaviest at maturity among the 16 breeds evaluated. Solutions are deviations from Angus. YW EPDs were extracted from genetic evaluations conducted in 2019. ^cEstimate of MWT differences at 6 years of age. ^dThe study considered 108,857 weight records from 5,156 crossbred cows sired by 787 bulls.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and the they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

MARTY ROPP 406-581-7835

RightMate
powered by TOP GENOMICS

CALIFORNIA'S *largest supplier* OF SIMANGUS™ BULLS!

A photograph showing a large herd of black cattle in a fenced pasture. The cattle are standing behind a wire fence, with many of them facing towards the right side of the frame. In the background, there is a large, mature oak tree with a dense canopy of dark leaves. The ground in the foreground is covered in dry, yellowish-brown grass. The overall scene suggests a rural or agricultural setting.

"IT HAS NEVER BEEN EASIER TO MARKET SIMANGUS™ SIREDFEEDER CATTLE"

Kansas State University has been tracking Superior Livestock Auction data since 2010. During the summer of 2020 data analysis of 3,280 Lots and 394,900 head showed SimAngus sired calves earned more at sale time than all other calves.

BULL DEVELOPMENT

This is our fourth year developing our bulls at home. Last year we added two additional large pens in a rolling oak woodland area to again assure the bulls have plenty of shade and room to roam. The larger pen sizes gives the bulls a better chance to travel, stay loose jointed, athletic, and better prepared

for turn out day . Our ration which includes nearly 50% haylage from our own irrigated pastures, helps us reach our goal of a slower more consistent rate of gain that we feel extends the years of service of the bulls for our customers. Again on sale day you will notice the bulls that are slightly lighter in

weight and condition but are freer moving and more athletic and will not lose as much weight during the breeding season. Because the bulls are right here at home they are available for viewing any day from May until sale day.

CIRCLE THE BASES sons

Circle the Bases D384 - Circle the Bases was purchased in our 2018 sale by Bell Cattle Company in Petaluma Ca. Sired by Circle Old School and out of our donor dam W11 he has risen to the top of the 45 bull calves she has produced to date. Our largest and highest selling sire group in 2020 he was well received by our commercial customers. His value continues prove out and calving his first daughters this fall gave us some of the best uddered females we have ever raised.

PROFIT THROUGH SCIENCE
American Simmental Association

EFFECT OF SIRE BREED ON SALE PRICE OF BEEF STEER CALVES

Superior Livestock Auction, Summer 2020^c

SimAngus™-sired steer calves sold through Superior Livestock Auction in summer 2020 earned more at sale time than all other calves.^{ab}

It's no wonder the percentage of **SimAngus** calves marketed through the industry's largest video auction has grown **eightfold** since 2010.

Want low-risk, high-potential calves with earning potential?

STAND STRONG SIMMENTAL

406-587-4531 • simmental.org

^a For lots of 50 head or more. ^b Kansas State University, December 2020, Superior Livestock Auction data analysis of 3,280 lots, 394,900 head of beef calves marketed during summer 2020. ($P < .0001$)

^c Lots that qualified for breed-related programs were excluded from the model due to potential confounding effects with sire breed analysis and, for many, few lots in the data.

^{d, e, f} Means without a common superscript differ ($P < .05$). Lots of calves in breed-identified groups were sired by bulls from the respective breeds and out of dams with no Brahman influence.

Beef Solutions Benefits

- First breeding season guarantee
- Large Sire Groups in Volume
- Free Delivery in California and adjoining states up to 300 miles
- Free Bull Drawing at the conclusion of the sale
- Year round customer service and marketing support
- Cowherd run like commercial cattle on range in the Foothills
- Family owned, Family managed
- Sight unseen satisfaction guaranteed
- Phone, Internet and In person purchasing options

Win a FREE BULL!

Immediately following the conclusion of the sale, there will be a drawing for a FREE BULL. After the gavel drops on the final bull, we will draw a lot number from a pot and that bull will be given a credit towards the purchase price equal to the final sale average. If the bull selected is less than the average, then the bull is FREE with no cash compensation.

Congratulations to Jason Daily, Lincoln, CA, on
WINNING A FREE BULL in 2021!

Thank you to these fine sponsors
for this generous donation!

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

Our absolute favorite part of sale day is visiting with you in person! However, we recognize that with this year's unique public health situation, some of you may feel more comfortable to purchase your next herdsire from the comforts of home. **This is why we have also made preparations for bidding by phone as well as bidding through Superior Productions' "Call or Click-To-Bid" service.** Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 3783380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign-up.

Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are 2 places to view the sale broadcast live on the internet:

- www.superiorlivestock.com, or
- www.superiorclicktobid.com.

Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

***If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.**

Joe Fischer, cow herd partner
(530) 392-0154

“Our **RICH HERITAGE** of ranching in the gold country *and* produce cattle with traits *optimized to thrive* in thi

*drives our quest to
this region.”*

“The heart of our program lies in our generational passion for the commercial beef business. We have always bred cattle to work within our western rangeland environment. Cows that are long lived, productive and fertile continue to drive profitability. Our rich heritage of ranching in the Gold Country drives our quest to produce cattle with traits optimized to thrive in this region. **Optimizing traits doesn’t happen by chance, it needs to be selected for through predictable pedigrees, actual production, maternal type and by having a strong knowledge of the environment and management scenarios the cattle are asked to perform in.** Being raised on a cow/calf operation in Calaveras County provides a strong foundation that all our genetic decisions are tested against.”

FROM OUR FAMILY
To Yours

This offering of our breeding program is a commitment from our family to yours. The breeding program is centered with our genuine passion for the improvement of traits that meet the goals of commercial cattlemen and women. We are thankful for the pride and years of loyalty of Wyatt Durham and excited for the future of our Intern Josh Whitling. Both have allowed our program to grow into the vision we have always worked toward and have helped to build an outstanding culture for raising our children in this business.

The Fischers - Tee & Abbee, Bennett, Paxton, Myles and Marydith

“Going MATERNAL doesn’t sacrifice GROWTH. Only way to get good growth is with a *strong, solid, feminine cow*. That’s your bulls. Such a solid program, my friend.”

—RYAN MAHONEY: OWNER EMIGH LIVESTOCK, RIO VISTA, CA

BR *Bruin Ranch*

Reference Sire

Bruin Envy 7248

Bruin Ranch raised sire and owned with Open 8 Cattle and Crouthamel Cattle Envy was the only bull we have ever pulled from a sale and elected to use natural service for our own program. Since then, we have watched hundreds of progeny, born across several states, thrive within the progressive programs that have used him. The calves are born light and quickly maintain presence, natural thickness and center body dimension. His first daughters have calved at Bruin Ranch and display outstanding fleshing ease, maternal type and tremendous udder quality. Owned with Open 8 Cattle in Montana and Crouthamel Cattle of Washington He is currently a leadoff sire in the Breeder Link semen stud.

If you follow along, we don't do many footnotes. In my career I've written less than a dozen, but we will do a couple in this book for the bulls that I think deserve added attention. Jericho has been a favorite of ours since a very young age. He has always displayed the look and type that we breed for. His mother is an outstanding second calver with above average milk, fleshing ease and hoof quality. She's off to a roaring start with an outcross pedigree, but with a similar twist to what we have always done. If you dig to his maternal granddam you will see Bruin Rubicon 4356's mother, Rubicon was one of the most powerful Angus bulls to ever sell in California. We plan to sample Jericho 1724 in our AI program this fall.

This Rainfall x Prosperity cross really worked, we bred all the prosperity daughters this way for their first calf and both heifers and bulls clicked well. Jubilee's dam, Blackbird 9243, is a member of a tribe of ET siblings that spanned two years of bull sale highlights and absolute knock outs in the replacement heifer pen. 9243 is perfect uddered, beautiful in her maternal design and gives tremendous milk and care to her calf. Jubilee and his full brother in blood, Rainfall 1702, should be fail safe options to produce outstanding mother cows.

S A V RESOURCE 1441 • MATERNAL GRANDSIRE OF LOTS 110, 111

BARRICADE sons

SITZ BARRICADE 632F • SIRE OF LOTS 112-117

Sitz Barricade 632F - I'll never forget the first time I heard of this bull. I asked a good friend about Barricade and his reply was, "he's too much for an Angus bull." Less than a week later I was driving to Montana to learn all I could and was immediately hit by the power, growth, body depth and hoof quality of the Barricade progeny and his dam. Barricade is a true breed changer and has the genomic predictions to match his appearance, early data also suggests his progeny will thrive in high altitude. This first set of bulls is a sample of more to come with a large sire group on the ground currently.

Performance SWN

A lot of hype surrounded Barricade 632F all through the spring of 2020. When we traveled to Montana to see his lineage and progeny it was clear we needed to use him on Torque daughters. Of the sire group, Journeyman has always been a little bit more stylish, longer fronted and still maintains the changer level of middle and mass that Barricade will put in them. Journeyman's mother, Lana 7361 is most famous for raising an outstanding son last year, Heartland 0119, purchased by John Oneto. 7361 is a very productive standout Torque daughter with a beautiful udder and outstanding disposition.

BRUIN 5261 LANA 7361 • DAM OF LOT 116

**SITZ STELLAR 726D •
SIRE OF LOTS 118-128**

Sitz Stellar 726D - There's not much more to write about this highly proven sire that hasn't been said. The calves come with modest birth, have accelerated growth and mature into nicely made females and bulls with breed leading hoof data and genomics. His pedigree allows for flexible mating options in our program as he is a cold outcross for several generations. As a bonus, the females are lovely uddered, easy fleshing and thrive at high altitude.

I can't draw, but if I could and was commissioned with drawing the perfect cow, it might just be the dam of Jester. His dam, 9272, is as feminine as you can make one but with a remarkable amount of center body dimension, power and muscle shape. She has what I call "those old school Angus hips," very wide and roomy, visually a true outlier in the current Angus population. Jester should sire cattle that can work in tougher range conditions, where too much milk is a concern, but also have the modern performance required to command top dollar for feeder calves.

I would almost feel bad for not commenting on this bull. We always wean for at least 45 days and put these bulls on feed at home before we ship to Nevada. I can honestly say that whenever I went by the pen, this bull always caught my eye. Complete, is how I would describe Jackson. He's a long bodied, performance bull with outstanding shape and power but what grabs you is his style and presence. His mother, 8214, has proven to be the best full sister to Bruin Friction 8231 going two for two raising good ones, with last year's son going to Duane Martin Livestock. 8214's production record is incredible ratioing 113 on her first two sons, presently she is nursing a ripper Barricade heifer calf.

Koupal Proficient 959 - Proficient sold in the 2020 Koupal production sale and after nearly partnering on him, we knew he was a must sample young sire. Proficient was purchased by my good friend Ross Beeson. Ross has led the pack in the Midwest for several years for marketing semen and developing heifers for some of the most astute cattlemen in the nation. Ross has been a part of many great bulls and if you were to call him he would firmly plant Proficient and his dam near the top of his list for real world cattle appeal and practicality. We bred some of our very best "Rito" influenced females to Proficient, the best bull had an injury on photo day, but I will assure you that come sale day this sire group will command plenty of attention.

BRUIN TORQUE *grandsons*

Bruin Torque 5261 - Easily the most proven sire we have ever raised is Torque. He has been used in nearly every corner of the globe with outstanding success. After using him for 5 years, he continues to please us as a problem free sire. His daughters are now hitting their stride and are incredible. Milking daughters display gorgeous udders with appropriate teat size, udder suspension and milk production. Our largest percentage of retained females this year are Torque daughters. If you need a sire to consistently add proven maternal value with added length and performance in your calf crop, Torque has done this better than any sire we have used.

"I LOVE THAT BRUIN BULL. My weaned calves were 100 pounds heavier than previous years at the same age. I can really see the difference in quality in my herd and my calves that I market to sell. I'm very impressed and pleased! Plus my bull is so gentle and easy going!"

— FLYING DIAMOND CATTLE, COPPEROPOLIS, CA

COW-MAKER bulls

OCC Best Yet - Every so often we go out and sample something a little different. Both 766B and 962H were used to create outcross power bulls for people who had been using our genetics for a long time and needed a little different twist but with the same commitment to maternal type and consistency. The sister mates to these bulls will be the kind you will see in this catalog for years raising sale toppers and crowd favorites. The cows we used these bulls on were hand picked to be our best of the best, for the producers looking to build a cow herd, these two come highly recommended.

2-YEAR-OLD bulls

BARRETT 5254 OF 4004 RE • SIRE OF LOTS 142-150

Barrett 5254 of 4004 RE - The major draw to purchasing 5254 was the breeder's long-standing commitment to foot quality, fertility and longevity. 5254 is a full brother to many major AI sires as he combines the power and muscle of Resource with the length, fertility and production of Barretts Miss 4004. The sons of 5254 are so consistent they are hard to tell apart. They are masculine, thick made, easy fleshing bulls while the female counterparts are elegant, long, milky and fertile. His daughters are true treasures in our herd and possess all the characteristics of females who are built for the long haul. 5254 is honestly one of the greatest bulls we have ever used.
