

T-HEART RANCH

HIGH ALTITUDE

Female Sale

December 3, 2022 || LaGarita, CO || 1:00 PM

We hope the past year has brought you great health and success in your endeavors. We have been fortunate in Colorado to receive ample moisture and we are encouraged to see higher calf prices predicted in the coming year. Female sale preparation is in full swing at the ranch and we feel we have a strong assortment of valuable replacements for your appraisal.

We have built our program on the premise of being your source for True High Altitude Genetics. The females in the sale have been developed at our home ranch with altitudes no lower than 7,800 feet. All the females are bred to bulls who have proven to work well in our environment and improve PAPs. Likewise, all the females come in a SimAngus package. If you have not given Sim influenced females a chance the maternal ability and heterosis in these females will be unrivaled.

The sale will be in a video format with videos available at superiorlivestock.com. Buyers will have the choice to buy entire lots or gate cuts. We are committed to being as accommodating as possible on trucking and will assist with booking if needed.

We hope you can be with us at our upcoming female sale. Feel free to contact us anytime ahead of the sale to view the females. We greatly appreciate the support we have encountered in our program over the last several decades. We wish you and your family the best and hope to see you soon.

Sincerely,
Shane and Beth Temple
